

Annual Report for the Fiscal Year Ended June 30, 2016

Relating to:

SAN DIEGO COUNTY REGIONAL AIRPORT AUTHORITY

\$313,150,000 Subordinate Airport Revenue Bonds, Series 2010A (Non-AMT)

\$44,055,000 Subordinate Airport Revenue Bonds, Series 2010B (Non-AMT)

\$215,360,000 Subordinate Airport Revenue Bonds, Series 2010C (Federally Taxable – Build America Bonds – Direct Payment To Issuer)

\$107,285,000 Senior Airport Revenue Bonds, Series 2013A (Non-AMT)

\$272,300,000 Senior Airport Revenue Bonds, Series 2013B (AMT)

\$29,390,000 Senior Special Facilities Revenue Bonds (Consolidated Rental Car Facility Project), Series 2014A (Tax-Exempt Non-AMT)

\$275,895,000 Senior Special Facilities Revenue Bonds (Consolidated Rental Car Facility Project), Series 2014B (Federally Taxable)

Dated as of:

December 20, 2016

This Annual Report (this "Report") is being furnished by the San Diego County Regional Airport Authority (the "Authority") to provide updated financial and operating information of the Authority of the type included in the final official statements for the:

- \$313,150,000 aggregate principal amount of Subordinate Airport Revenue Bonds, Series 2010A (the "Series 2010A Bonds");
- \$44,055,000 aggregate principal amount of Subordinate Airport Revenue Bonds, Series 2010B (the "Series 2010B Bonds");
- \$215,360,000 aggregate principal amount of Subordinate Airport Revenue Bonds, Series 2010C (the "Series 2010C Bonds" and, collectively with the Series 2010A Bonds and Series 2010B Bonds, the "Series 2010 Bonds"):
- \$107,285,000 aggregate principal amount of Senior Airport Revenue Bonds, Series 2013A (the "Series 2013A Bonds");
- \$272,300,000 aggregate principal amount of Senior Airport Revenue Bonds, Series 2013B (the "Series 2013B Bonds" and, collectively with the Series 2013A Bonds, the "Series 2013 Bonds");
- \$29,390,000 Senior Special Facilities Revenue Bonds (Consolidated Rental Car Facility Project), Series 2014A (the "Series 2014A Bonds"); and
- \$275,895,000 Senior Special Facilities Revenue Bonds (Consolidated Rental Car Facility Project), Series 2014B (the Series 2014B Bonds" and collectively with the Series 2014A Bonds, the "Series 2014 Bonds" and together with the Series 2010 Bonds and the 2013 Bonds, the "Bonds").

This Report is provided pursuant to covenants made by the Authority in connection with the issuance of the (i) Series 2010 Bonds pursuant to that certain Continuing Disclosure Certificate of the Authority dated October 5, 2010 (the "2010 Continuing Disclosure Certificate"), (ii) the Series 2013 Bonds pursuant to that Continuing

Disclosure Certificate of the Authority dated January 30, 2013 (the "Series 2013 Continuing Disclosure Certificate"), and (iii) the Series 2014 Bonds pursuant to that Continuing Disclosure Certificate of the Authority dated February 19, 2014 (the "Series 2014 Continuing Disclosure Certificate" and together with the Series 2010 Continuing Disclosure Certificate, the "Continuing Disclosure Certificates").

Official Statements and Prior Reports

For further information and a more complete description of the Authority and the Bonds, reference is made to the Official Statements (defined below) for the Bonds and the Authority's previous Continuing Disclosure Reports beginning with the report for the Fiscal Year ended June 30, 2011 (the "Prior Reports"), respectively, each of which are incorporated by reference in this Report and all of which speak only as of their respective dates. Capitalized terms used but not defined in this Report have the meanings given to them in the Official Statements or the Continuing Disclosure Certificates.

This Report contains financial and operating information updating certain information contained in the Official Statements issued in conjunction with the Bonds (the "Official Statements"). Reference is made to the Authority's Financial Report and Independent Auditor's Report for the Fiscal Year ended June 30, 2016 (the "Audited Financial Statements"), a copy of which is filed with and hereby made part of this Report. Due to its date of publication, certain information contained in this Report, including information concerning prior years, has been updated and is more current than some of the information contained in the Audited Financial Statements, previous audited financial statements and Prior Reports of the Authority, including, but not limited to, the unaudited information therein.

Pursuant to the Continuing Disclosure Certificates, the Authority is obligated to provide only the information specified therein. The tables contained in this Report reference and update tables in the Official Statements. To the extent the Authority provides information in this Report that the Authority is not obligated under the Continuing Disclosure Certificates to present or update, such as that contained in the section hereof entitled "Recent Developments," the Authority may not be obligated to present or update such information in future annual reports.

The Series 2010 Bonds are special obligations of the Authority, payable solely from and secured by a pledge of (a) Subordinate Net Revenues, which include certain income and revenues received by the Authority from the operation of the Airport System less all amounts which are required to be used to pay the Operation and Maintenance Expenses of the Airport System, the aggregate annual debt service on the Senior Bonds and the reserve and replenishment requirements on and relating to the Senior Bonds, and (b) certain funds and accounts held by the Subordinate Trustee under the Subordinate Indenture.

The Series 2013 Bonds are special obligations of the Authority, payable solely from and secured by (a) a pledge of Net Revenues, which include certain income and revenue received by the Authority from the operation of the Airport System less all amounts that are required to pay Operation and Maintenance Expenses of the Airport System; and (b) certain funds and accounts held by the Senior Trustee under the Senior Indenture.

The Series 2014 Bonds are special limited obligations of the Authority, payable solely from and secured by a pledge of the Trust Estate, which includes, among other things, Customer Facility Charges collected by the rental car companies operating at the Airport and remitted to the Trustee, as assignee of the Authority, and, under certain circumstances, Bond Funding Supplemental Consideration payable by the rental car companies operating at the Airport to the Trustee, as assignee of the Authority, and certain funds and accounts held by the Trustee under the Indenture and certain additional funds and accounts held by the Authority. No revenues of the Authority, other than the Customer Futility Charges and the Bond Funding Supplemental Consideration, are pledged to the payment of the Series 2014 Bonds.

Neither the Project nor any other properties of the Airport System are subject to any mortgage or other lien for the benefit of the owners of the Bonds and neither the full faith and credit nor the taxing power of the Authority (if any), the City of San Diego (the "City"), the County of San Diego, the State of California (the "State") or any political subdivision or agency of the State is pledged to the payment of the principal of or interest on the Bonds.

By providing the information in this Report, the Authority does not imply or represent (a) that all information provided in this Report is material to investors' decisions regarding investment in the Bonds, (b) the completeness or accuracy of any financial, operational or other information not included in this Report or in the

Official Statement, (c) that no changes, circumstances or events have occurred since the end of the Fiscal Year ended June 30, 2016 (other than as contained in this Report), or (d) that no other information exists which may have a bearing on the Authority's financial condition, the security for the Bonds or an investor's decision to buy, sell or hold the Bonds.

No statement contained in this Report should be construed as a prediction or representation about future financial performance of the Authority. Historical results presented in this Report, including the historical financial and enplanement figures contained in this Report, may not be indicative of future operating results.

Recent Developments

Executive Management

President and CEO/Executive Director Thella F. Bowens has announced her retirement from the Authority effective March 31, 2017. The Authority has a succession plan committee and has formed an ad-hoc search committee to ensure a smooth transition. The Board will undertake a national search for a replacement.

Upon the retirement of Bret Lobner, Amy Gonzalez was promoted to the position of General Counsel of the Authority. Ms. Gonzalez previously served as Senior Director in the office of the General Counsel for the Authority. Ms. Gonzalez has represented the Authority since October 2003. Prior to that, she served as a Deputy City Attorney representing Los Angeles World Airports, the City of Los Angeles department that owns and operates Los Angeles International Airport and Van Nuys Airport. Ms. Gonzalez began her career in 1995 as a prosecutor for the City of Los Angeles. She received a juris doctor degree from Pepperdine University School of Law. Ms. Gonzalez also serves as an adjunct professor at Cal Western School of Law.

Pension and Retirement Plans

Authority Pension Plan

All full-time employees of the Authority are eligible to participate in the Authority's defined-benefit pension plan, the Amended and Restated San Diego County Regional Airport Authority Retirement Plan and Trust of 2013 (the "Authority Pension Plan"), which provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. The Authority Pension Plan is administered by the San Diego City Employees' Retirement System ("SDCERS"), which is an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for the City, the Port District and the Authority, and is administered by the Retirement Board of Administration (the "Retirement Board"). Each of the Authority, the City and the Port District has a separate plan and each employer's contributions are held in trust although all contributions to SDCERS are pooled for investment purposes, managed and invested by the Retirement Board.

In fiscal year 2016, SDCERS undertook a review of the pension members' demographic experience. Based on new mortality tables released by the Society of Actuaries and actual population experience, the assumptions used to calculate the Authority's pension liability and required annual funding were revised. These changes resulted in an increase in the unfunded actuarial liability of approximately \$18.1 million. Consistent with Board Resolution No. 2010-0049, SDCRAA maintains a 95% or greater funded ratio with a minimum threshold funding level of 90% triggering a required strategy to achieve and/or maintain the 95% funded level. The Authority continues to operate consistent with Board policy and it is anticipated, once the actuarial report is issued, the total impact in the next fiscal year will be an increase of approximately \$1.7 million in annual funding requirements.

See Note 6 of the Audited Financial Statements for more information on the Amended and Restated San Diego County Regional Airport Authority Retirement Plan and Trust of 2013 (the "Authority Pension Plan") and other actuarial assumptions. Complete copies of the SDCERS Comprehensive Annual Financial Reports and the Actuarial Valuation Reports for the Authority Pension Plan ("Actuarial Reports") prepared by Cheiron, Inc. can be obtained from SDCERS by writing to the San Diego City Employees' Retirement System, Suite 400, 401 West A Street, San Diego, California 92101 and from the SDCERS website at www.sdcers.org. No information contained on such website is incorporated into this Report.

The Authority has always made its full required contributions to the Authority Pension Plan. The Authority cannot predict the levels of funding that will be required in the future.

Postemployment Health Benefits

In addition to the pension benefits provided under the Authority Pension Plan, the Authority provides medical, dental and \$10,000 life insurance postretirement benefits ("Postemployment Health Benefits") for nonunion employees hired prior to May 1, 2006, and union employees hired prior to October 1, 2008. The Authority has budgeted \$1,959,000 for Postemployment Health Benefits for Fiscal Year 2017, as compared with \$2,400,000 for Fiscal Year 2016. See Audited Financial Statements, Note 8, for more information on the Authority's Postemployment Health Benefits.

Investigative Order - Downtown Anchorage Area in the San Diego Bay

On or about November 2, 2011, the Authority received information that the California Regional Water Quality Board ("RWQCB") intended to issue for comment a draft investigative order ("IO") based on technical reports pertaining to two studies of bay sediments at the Downtown Anchorage Area in San Diego Bay. The IO describes the Downtown Anchorage Area as a portion of the bay located south of Harbor Drive, immediately south of Solar Turbines, the Authority and east of the U.S. Coast Guard Station. The IO alleges an unauthorized discharge of wastes has occurred as evidenced by the presence of PCBs, TPH, VOCs, PAHs, metals and pesticides in the bay sediments in the Downtown Anchorage Area. The IO names as parties responsible for the alleged unauthorized discharge the Authority, Teledyne Ryan Industries, Inc., General Dynamics and Solar Turbines. The Authority, along with the other named parties, provided comments to the RWQCB, inter alia, raising the following concerns about the IO: (1) the geographic extent of the Downtown Anchorage Area is not adequately defined; (2) the IO contains no sediment data demonstrating impacts to the bay were caused by the Authority; (3) the RWQCB must name all responsible parties, including the Port District and the City; and (4) the studies relied upon by the RWQCB predate the formation of the Authority. On June 18, 2014, the RWQCB issued a Final Order directing the Authority, General Dynamics ("GD"), and the San Diego Unified Port District ("Port") to submit technical reports pertaining to an investigation of sediment chemistry in the Laurel Hawthorn Central Embayment in San Diego Bay, redefining the area subject to the investigation and study. Although the Authority believes it is not legally responsible for any harmful discharges at the identified location, it agreed with the other parties to participate in and share in the funding of the investigation and study. The Final Sediment Chemistry Report was provided to the RWOCB as required by Investigative Order No. R9-2014-0007 and that investigation was completed.

In October 2016, the RWQCB issued a draft administrative clean up and abatement order naming the Authority, GD and the Port as potential responsible parties. The Authority, GD and the Port submitted comments to the RWQCB stating that the City and others should also be named in any clean up and abatement order for the site and that a cleanup and abatement order is premature due to the lack of information regarding the site. In November 2016, the RWQCB indicated it will likely issue an Investigative Order for the purpose of additional remedial investigation. In December 2016, the RWQCB confirmed its intent to issue an investigative order rather than a clean-up and abatement order for the site at this time. As of the date of this Report, the Authority cannot predict whether or to what extent it may be liable for the costs of any necessary remediation.

Municipal Separate Stormwater Sewer System

On May 8, 2013, the San Diego Regional Water Quality Control Board ("SDRWQCB") adopted a new Municipal Separate Stormwater Sewer System ("MS4") Permit naming the Authority as a co-permittee and requiring, among other things, strict numeric limitations on pollutants being discharging into the San Diego Bay and other receiving waters. Although the Authority has not been formally determined to be out of compliance with the MS4 Permit, it is at least conceivable that it (and all other co-permittees subject to the MS4 Permit) may not be in technical compliance with these numeric limitations at all times. The Authority and other co-permittees appealed the MS4 Permit issued by the SDRWQCB to the State Water Resources Board. In November 2015, the SDRWQCB issued an amendment to the MS4 Permit which provides an alternative pathway to achieving compliance with the MS4 Permit's strict receiving water limitations through implementation of a Water Quality Improvement Plan ("WQIP"). In accordance with the requirements of the amended MS4 Permit, the Authority filed a WQIP with the SDRWQCB which was approved by the SDRWQCB in February 2016. Currently, the Authority has not received any notices of non-compliance.

Pending Claims or Litigation

From time to time, the Authority is a party to litigation and is subject to claims arising out of its normal course of business and operations. Summaries of notable litigation and claims relating to the Authority are provided in the Audited Financial Statements, and herein. While the Authority cannot predict the new exposure to the

Authority with respect to these matters, or the possibility or remoteness of any outcome in these matters, except as provided herein, the Authority does not reasonably expect that these matters or any other pending litigation relating to the Authority, the Airport or the Authority's operations or business will have a material impact on the Authority's revenues or the operation of the Airport.

<u>Dryden Oaks, LLC v. San Diego County Regional Airport Authority, San Diego Superior Court Case No.</u> 37-2014-00004077-CU-EI-NC.

This complaint for inverse condemnation and unreasonable pre-condemnation delay and conduct damages was filed February 24, 2014, alleging the Authority Board, while acting as the County Airport Land Use Commission, inversely condemned an avigation easement in Plaintiff's properties thereby diminishing their value. The complaint alleges the Plaintiffs are foreclosed by the Authority from developing their property. The Authority demurred to the complaint and the court sustained the demurrer. On September 18, 2015, the court granted the Authority's motion for summary judgment and dismissed the Plaintiffs' case in its entirety. Plaintiffs have filed an appeal. The Authority filed its reply brief and requested oral argument. The appellate court has not yet set the date for oral argument. The Authority cannot predict the outcome of this matter.

Updated Tables

Following are updated tables provided pursuant to the Continuing Disclosure Certificates.

As of June 30, 2016, the Authority had outstanding the following principal amounts of the Series 2010 Bonds, Series 2013 Bonds, Series 2014 Bonds and Revolving Credit Notes.

SAN DIEGO COUNTY REGIONAL AIRPORT AUTHORITY OUTSTANDING PRINCIPAL AMOUNTS OF THE SERIES 2010 BONDS, THE SERIES 2013 BONDS, THE SERIES 2014 BONDS AND THE REVOLVING CREDIT NOTES AS OF JUNE 30, 2016* (000's)

	P	itstanding Principal Amount

^{*} Shown as Table 9 "Total Revenue Landed Weight" in the Official Statement for the Series 2010 Bonds. Shown as Table 10 "Total Revenue Landed Weight" in the Official Statement for the Series 2013 Bonds. Not required to be provided pursuant to the 2014 Continuing Disclosure Certificate.

⁽f) Totals may not add due to rounding. Landed weight is the maximum gross certificated landed weight in one thousand pound units as stated in the airlines' flight operational manual. Landed weight is used to calculate landing fees for both airline and general aviation aircraft operated at the Airport.

On December 9, 2013, AMR Corporation (American Airlines) merged with US Airways Group, forming American Airlines Group. A single operating certificate was issued by the FAA and operational integration was on April 7, 2015. Revenue Landed Weights are for both American and US Airways.

On December 6, 2016, the Justice Department approved the merger of Alaska Airlines and Virgin America. Upon issuance by the FAA of a single operating certificate, Alaska Airlines and Virgin America will operate as one airline.

⁽¹⁾ Excludes rebates.

⁽²⁾ Amount excludes general aviation remote overnight parking.

⁽³⁾ Excludes Executive Lounge rent and rebates in the amount of approximately \$1.4 million in Fiscal Year 2016. Source: San Diego County Regional Airport Authority

The following table sets forth a summary of the Authority's approved PFC applications through June 30, 2016.

SAN DIEGO COUNTY REGIONAL AIRPORT AUTHORITY APPROVED PFC APPLICATIONS* AS OF JUNE 30, 2016

PFC Application	Approval Date	Amended Approval Amount ⁽¹⁾⁽²⁾
1	1995	\$ 103,804,864
2	1998	45,496,665
3	2003	65,058,035
4	2005	44,822,518
5	2008	19,031,690
7 ⁽³⁾	2009	$79,489,990^{(4)}$
8	2010	1,118,567,229
$10^{(5)}$	2012	27,835,280
11	2015	1,391,894
Total		\$ 1,505,498,165

Shown as Table 19 "Approved PFC Applications" in the Official Statement for the Series 2010 Bonds. Shown as Table 21 "Approved PFC Applications" in the Official Statement for the Series 2013 Bonds. Not required to be provided pursuant to the 2014 Continuing Disclosure Certificate.

⁽¹⁾ Includes the amount of PFCs the FAA has authorized the Authority to collect at the Airport. The Authority is authorized to use approximately \$1.510 billion of PFCs at the Airport.

Authorization to collect PFCs under all of the applications and amendments expires on November 1, 2037, however, such authorization to collect PFCs could expire earlier if the total authorized amount is collected prior to November 1, 2037.

⁽³⁾ The Authority withdrew PFC Application #6.

⁽⁴⁾ Restated to reflect September 2015 amendment. The corresponding data in the Independent Auditor's Report for the Fiscal Year ended June 30, 2016 does not reflect the September 2015 amendment.

⁽⁵⁾ PFC Application #9 was skipped due to internal FAA system processing.

The following table sets forth the amount of PFCs received by the Authority in Fiscal Years 2012 through 2016.

SAN DIEGO COUNTY REGIONAL AIRPORT AUTHORITY ANNUAL RECEIPT OF PFCS*(1) FISCAL YEARS 2012-2016

Fiscal Year	PFCs Collected
2012	34,639,244
2013	35,437,453
2014	35,769,515
2015	38,517,355
2016	40,257,993

Shown as Table 20 "Annual Receipt of PFCs" in the Official Statement for the Series 2010 Bonds. Shown as Table 22 "Annual Receipt of PFCs" in the Official Statement for the Series 2013 Bonds.

P.O. BOX 82776, SAN DIEGO, CA 92138-2776 619.400.2400 WWW.SAN.ORG

To the Public:

The Comprehensive Annual Financial Report of the San Diego County Regional Airport Authority ("Airport Authority") for the fiscal years ended June 30, 2016 and 2015, is submitted herewith. The Airport Authority's Accounting Department prepared this report.

Responsibility for the accuracy, completeness and fairness of the presented data, including all disclosures, rests with the Airport Authority. To the best of our knowledge and belief, this report fairly presents and fully discloses the Airport Authority's financial position, results of operations and cash flows in accordance with accounting principles generally accepted in the United States of America (referred to as "GAAP").

GAAP requires that management provide a narrative overview and analysis to accompany the financial statements in the form of a Management's Discussion and Analysis (MD&A) section. This letter of transmittal should be read in conjunction with the MD&A, which can be found immediately following the report of the independent auditors in the Financial Section of this report.

PROFILE OF AIRPORT AUTHORITY AND ORGANIZATIONAL STRUCTURE

The San Diego County Regional Airport
Authority began operations on January 1, 2003,
as an independent agency to manage the
day-to-day operations of San Diego
International Airport and address the region's
long-term air transportation needs.

The legislation that created the Airport Authority mandates three main responsibilities:

- Operate San Diego International Airport
- Plan for the future air transportation needs of the region
- Serve as the region's Airport Land Use Commission – and ensure the adoption of land use plans that protect public health and safety surrounding all 16 of the county's airports.

The Airport Authority is governed by an appointed Board of Directors of nine members representing all areas of San Diego County and three additional members serving as nonvoting, ex-officio Board members. Three Board members serve as the Executive Committee consisting of one Board member from each of the following "defined jurisdictions": the City of San Diego, the County of San Diego, and one Board member from among the east county cities, south county cities, north county coastal or north county inland cities. The Board members serve three-year terms. The management and operations of the Airport Authority are carried out by a staff headed by the President/Chief Executive Officer, who is appointed by and reports directly to the Airport Authority Board of Directors ("Board").

The Air Trade Area for SDIA includes the County and portions of neighboring Orange and Riverside Counties and Baja California del Norte, Mexico. The California Department of Finance estimates that as of January 1, 2016, San Diego County is the second most populous county in California, behind Los Angeles County, and the fifth largest county in the United States, with a population of 3.3 million. The County's population has grown at an average rate of 0.9 percent in the past five years. The majority of the County's population is concentrated in the western portion. The largest cities in the County are San Diego (42 percent), Chula Vista (8 percent), Oceanside (6 percent), Escondido (5 percent), Carlsbad (3 percent), El Cajon (3 percent), Vista (3 percent), San Marcos (3 percent) and Encinitas (2 percent). The combined San Diego/Tijuana metropolitan population exceeds five million inhabitants.

Typically, San Diego County has enjoyed a stable economic climate, with unemployment rates lower than the State of California's. In

June 2016, the County's unemployment rate was 5.1 percent compared to June 2015, at 5.2 percent (revised). This compares with an unemployment rate of 5.4 percent in June 2016 and 6.2 percent in June 2015 for California, and 4.9 percent as of June 2016 compared to 5.3 percent for the nation as of June 2015. The region's economy is diversified and provides an attractive mix of leisure, business, and governmental sectors. The County is home to more than 200 publicly traded companies.

Enplaned passengers grew 5.1 percent in fiscal year 2016, reflecting continuing economic improvement. Total enplaned passengers were 10.21 million, compared to 9.71 million in fiscal year 2015. See the MD&A section of the Financial Section of this report for further discussion of the current year activity.

NEW RENTAL CAR CENTER (RCC) OFFICIALLY OPENS AT SAN

New Rental Car Center Opens on San Diego International Airport's North Side – The new consolidated Rental Car Center officially opened for business at San Diego International Airport on January. 20, 2016. The 2-million-square-foot center houses most of the rental car companies serving SDIA, including national brands, as well as local, independent and small business rental car companies, in one central location off Pacific Highway.

The new facility replaced the buildings on Harbor Drive that for years housed most rental car companies serving SDIA. In a related change, all rental car customers are now carried to and from the terminals in 25 alternative-fuel shuttles owned and operated by the Airport Authority. This fleet, which

replaced approximately 81 shuttles that were previously operated by the rental car companies, runs almost exclusively on a new interior airport roadway.

Moving the rental car companies to the north side of the airport and consolidating them into one building dramatically reduced rental car traffic on Harbor Drive, as well as the number of shuttle buses competing with passengers getting to and from SDIA.

The \$316 million facility generated approximately 4,600 construction jobs, with \$186 million in construction contracts going to local businesses, of that \$70.4 million went to small businesses.

New International Flights Added at SAN – The Airport Authority announced in June 2016, that it had significantly expanded its list of overseas destinations with new nonstop flights to Germany and Switzerland.

New seasonal service between San Diego and Frankfurt will begin in summer 2017 on Condor Airlines. Germany is a key international market for travel to California and San Diego. The addition of approximately 14,000 new seats to San Diego on Condor, Germany's most popular leisure airline, will support the local tourism industry's efforts to increase the share of international travelers to our region.

A second leisure market carrier, Edelweiss, will begin direct service to Zurich, also in the summer of 2017. This new connection allows Swiss and European tourists to reach San Diego in a comfortable, convenient and efficient way. California is very popular among Swiss tourists, and this flight is expected to bring approximately 15,000 visitors to San Diego per year, creating an economic impact of around \$50 million per year.

The new nonstop service to Frankfurt and Zurich means San Diegans will have direct flights to six countries from San Diego International Airport. Each of these global markets brings significant economic benefits to the San Diego region. Visitors who travel to San Diego by air spend approximately \$2.3 billion in the region each year.

NEW INTERNATIONAL FLIGHTS ADDED AT SAN

San Diego International Airport Reaches 20 Million Annual Passenger Mark in 2015 – For the first time in its 88-year history, SAN surpassed 20 million passengers in a single year. The 2015 total represents a 7 percent increase over 2014. SAN posted record-breaking passenger totals the last two years in a row.

In another important category, SAN set a record for total enplanements (departing passengers), in 2015 with just over 10 million; a 7 percent increase over the previous record set in 2014. SAN also served nearly 700,000 international passengers in 2015, an increase over 2014 of nearly 4 percent.

The increases were attributed to a number of factors, including the improved economy and robust tourism industry.

SAN DIEGO INTERNATIONAL AIRPORT REACHES 20 MILLION ANNUAL PASSENGER MARK IN 2015

AIRPORT AUTHORITY RECEIVES PRESTIGIOUS ENVIRONMENTAL AWARD FOR WASTE REDUCTION EFFORTS

Airport Authority Receives Prestigious
Environmental Award for Waste Reduction
Efforts – The California Environmental
Protection Agency (CalEPA) awarded the
Airport Authority with a 2015 Governor's
Environmental and Economic Leadership
Award (GEELA), considered one of California's
highest environmental honors.

The award was presented to the Airport Authority during a special reception on January 19, 2016.

The Airport Authority earned the award in the "Waste Reduction" category, which honors "exemplary achievements in conserving and

protecting natural resources and reducing costs by incorporating efforts such as waste prevention, reuse, recycling, composting, environmentally-preferable purchasing, and product design and stewardship," according to CalEPA.

The award specifically recognized San Diego International Airport's food waste collection program, air conditioning condensate water recovery and recycling initiative and the airport's Environmentally Preferred Product purchasing program.

TERMINAL 2 WEST EXPANSION EARNS ISI'S ENVISION® SUSTAINABLE INFRASTRUCTURE PLATINUM AWARD

Terminal 2 West Expansion Earns ISI's Envision® Sustainable Infrastructure Platinum Award – The "Green Build" expansion of Terminal 2 West received the Institute for Sustainable Infrastructure's (ISI) Envision rating system's Platinum award in early 2016. The project is the first airport development to receive an ISI Envision award.

The Green Build development comprised a major expansion of San Diego International Airport's Terminal 2, which included 10 new gates, a dual-level roadway, enhanced curbside check in, more security lanes and expanded concession area. The project began construction in 2009 with the construction of the apron improvements, additional aircraft

parking and new USO facilities. During the next several years, construction commenced on the terminal itself and a dual-level roadway to separate arriving and departing traffic. In 2013, the airport's new gates, facilities and roadway improvements opened to the public.

The Green Build project was the largest construction project in the airport's history and now serves as a hallmark for developing future airport projects using sustainable building practices.

Airport Authority Releases Sustainability

Report – The Airport Authority released its fourth Sustainability Report in June 2016. The report covered calendar years 2014-2015, and generally highlights the Airport Authority's activities and accomplishments in the areas of environmental, economic and social sustainability.

The Airport Authority defines sustainability as "building an enduring and resilient enterprise by effectively managing our financial, social and environmental risks, obligations and opportunities."

The report is comprised of five key sections: Community, Customer, Employee, Financial and Operational. These areas align with the Airport Authority's five organizational strategies of the same names.

Examples of topics covered in the report include:

- A carefully thought-out financial strategy that serves as the bedrock for the Airport Authority's four other core organizational strategies,
- Updates on the Airport Authority's water, storm water, energy and air quality management plans,

- The Airport Authority's extensive community outreach efforts in regards to major capital improvement projects, traffic and noise mitigation,
- Customer satisfaction survey results and initiatives regarding security, ground transportation, concessions and more, and
- Efforts to attract new employee talent in the face of an aging workforce.

The Airport Authority consulted the Global Reporting Initiative's (GRI) G4 guidelines in the production of this report. The index lists the economic, environmental and social criteria that the GRI guidelines suggest, as well as certain specific criteria from the GRI Airport Operators Sector Supplement. The report was developed in accordance with the GRI G4's "Core" standards.

The Sustainability Report is available in digital format only and can be found at sustain.san.org.

AIRPORT AUTHORITY RELEASES SUSTAINABILITY REPORT

SAN DIEGO INTERNATIONAL AIRPORT PUTS CARBON OFFSETS ON THE MENU

San Diego International Airport Puts Carbon
Offsets on the Menu – San Diego International
Airport (SAN) officially launched The Good
Traveler program in September 2015.

The Good Traveler is designed to encourage sustainable travel by enabling individuals to offset the environmental impact of their journey in an affordable, easy and meaningful way. Through The Good Traveler program, individuals can purchase carbon offsets and merchandise online at www.thegoodtraveler. org or at select locations, with proceeds going toward conservation projects that help counteract the effect of greenhouse gas emissions on the environment.

For \$1, travelers can buy a collectible Good Traveler tag or sticker that can be placed on a bag, laptop or phone cover. The purchase will offset 500 miles of air travel or 200 miles of driving, with 100 percent of proceeds going into three projects: a forest restoration project in California, a wind farm project in Idaho, and a water restoration project in the Colorado Delta.

To extend the reach of The Good Traveler, SAN is partnering with businesses in the local hospitality and travel industry, including Ryan Bros. Coffee and Paradise Point Resort & Spa. The Good Traveler tags will be offered at the point of purchase to customers and guests as a convenient and simple option to offset their journey.

SAN DIEGO INTERNATIONAL AIRPORT ENHANCES RIDESHARING OPERATIONS

San Diego International Airport Enhances Ridesharing Operations – In July 2015, the Airport Authority signed permits for ridesharing companies Lyft and Uber to begin operations at San Diego International Airport.

Airport Authority staff had worked with the ridesharing industry over the past year to draft a permit for Transportation Network Companies (TNCs) to operate at SAN. The Airport Authority Board adopted a resolution that removes the fingerprinting requirement

from the Airport Authority's background check process for several ground transportation providers, including TNCs, taxi cab providers and shared ride vans or Vehicles for Hire. The TNCs will continue to conduct their own accredited background checks of their drivers. The decision helped facilitate the issuance of TNC permits, while taking steps to level the playing field for all ground transportation providers at SAN.

The Airport Authority has been the recipient of numerous awards. A few of the recognitions presented during the fiscal year ended June 30, 2016 were as follows:

The Government Finance Officers Association of the United States and Canada ("GFOA")
Certificate of Achievement for Excellence in Financial Reporting – This recognition is for the Comprehensive Annual Financial Report ("CAFR") for the fiscal year ended June 30, 2015. The Airport Authority has received this award each year since its inception in 2003. In order to be awarded a Certificate of Achievement, a government unit must publish an easily

readable and efficiently organized CAFR. This report must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The Airport Authority believes its current CAFR continues to meet the Certificate of Achievement Program's requirements. We will submit it to the GFOA to determine its eligibility for another certificate.

THE GOVERNMENT FINANCE
OFFICERS ASSOCIATION OF THE
UNITED STATES AND CANADA
("GFOA") CERTIFICATE OF
ACHIEVEMENT FOR EXCELLENCE
IN FINANCIAL REPORTING

The GFOA Distinguished Budget Presentation Award – The achievement of this award is based on a governmental entity's preparation and issuance of budget documents of the very highest quality that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's recommended practices on budgeting. This was the eleventh consecutive year that the Airport Authority received this award.

THE GFOA DISTINGUISHED BUDGET PRESENTATION AWARD

Excellence in Procurement Award – The Achievement of Excellence in Procurement Award is designated to recognize organizational excellence within Procurement. The continuously evolving criteria measures innovation, ethics, electronic commerce, leadership, trends and best practices. The Airport Authority was one of 28 special districts in the United States and Canada to receive the award. The team also received special recognition for innovation. This is the seventh year that the Authority has received this award.

EXCELLENCE IN PROCUREMENT AWARD

FINANCIAL INFORMATION

The Airport Authority Board sets policy that provides for appropriate internal controls and provides oversight to ensure that the assets of the Airport Authority are protected from loss, theft or misuse, and to ensure that adequate accounting data is compiled to allow for preparation of financial statements in conformity with GAAP. Internal controls are designed to provide reasonable, but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the valuation of costs and benefits requires estimates and judgments by management.

The Airport Authority completed fiscal year 2016 with operating income (before depreciation and amortization) of \$80.3 million, a \$10.1 million (14%) increase over fiscal year 2015. The accompanying MD&A provides a detailed narrative overview of the Airport Authority's financial activities for the fiscal years ended June, 30, 2016 and 2015.

BUDGET PROCESS AND FINANCIAL PLAN

Annually, the Airport Authority prepares three budgets. The three budgets are, a five year capital improvement program budget, an operating budget for the fiscal year and a conceptual budget for the next year. The budget process begins in the fall with senior management collaborating with the Board to update, review and formulate the strategies and initiatives that drive business performance. The management team engages in cross-functional discussions to arrive at key decisions and agreements. The effort is designed to align divisional requirements with the Airport Authority's overall strategies and initiatives.

The capital improvement program provides critical improvements and asset preservation. The security, environmental remediation, terminal upgrades and development are the main focus of the capital improvement program.

To ensure that the budget and the financial plan is funded adequately and to maintain the Airport Authority's strong financial condition, the Financial Management team prepares a revenue budget that incorporates budget expenditure requests into the rate setting formula to determine projected rates, fees and charges to the airlines and other tenants.

The financial plan includes the operating budget, the next year conceptual operating budget and the capital improvement program. Other major factors affecting the Airport Authority's financial plan include the airline operating agreement, master and subordinate bond indentures, Memorandum of Understanding with the California Attorney General, and various levels of federal funding.

The financial records of the Airport Authority are audited annually by independent public accountants. BKD, LLP performed the audit for the current fiscal year ended June 30, 2016 and have issuied an unqualified ("clean") option. The auditor's report on the financial statements is presented in the Financial Section of this report.

The preparation of the Comprehensive Annual Financial Report was made possible by the dedicated service and efforts of the Airport Authority's Accounting Department. We sincerely appreciate everyone's efforts in preparing this report.

Respectfully submitted,

Thella F. Bowens

President | Chief Executive Officer

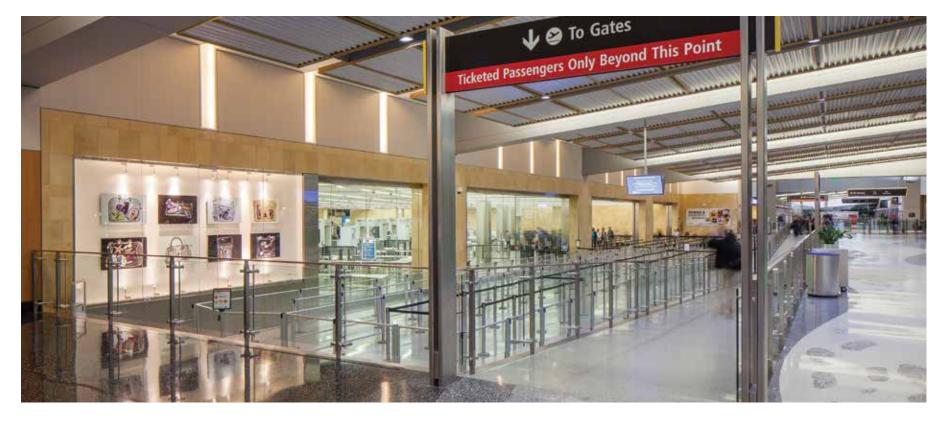

Scott Brickner, CPA

Vice President Finance & Asset Management | Treasurer

The Government Finance Officers
Association of the United States and
Canada (GFOA) awarded a Certificate of
Achievement for Excellence in Financial
Reporting to the San Diego County
Regional Airport Authority (California) for
its Comprehensive Annual Financial Report
for the fiscal year ended June 30, 2015.
This is the thirteenth consecutive year that
the Airport Authority has achieved this
prestigious award. In order to be awarded
a Certificate of Achievement, a
government must publish an easily
readable and efficiently organized

AVIS

Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive
Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

MANAGEMENT'S DISCUSSION & ANALYSIS (UNAUDITED)

BASIC FINANCIAL STATEMENTS:

- STATEMENTS OF NET POSITION
- STATEMENTS OF REVENUES, EXPENSES
 AND CHANGES IN NET POSITION
- STATEMENTS OF CASH FLOWS
- NOTES TO FINANCIAL STATEMENTS
- REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)

To the Members of the Board San Diego County Regional Airport Authority San Diego, CA

We have audited the accompanying basic financial statements, which are comprised of statements of net position as of June 30, 2016 and 2015, and the related statements of revenues, expenses and changes in net position and of cash flows for the year then ended, and the related notes to the financial statements, as listed in the table of contents, of San Diego County Regional Airport Authority (Airport Authority).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Members of the Board San Diego County Regional Airport Authority

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Airport Authority as of June 30, 2016 and 2015, and the changes in financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

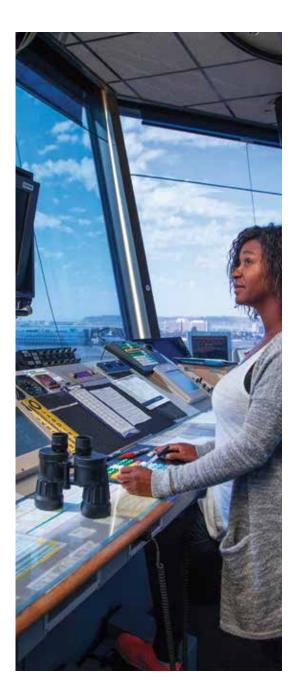

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension and other postemployment benefit information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The Introductory and Statistical Sections listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Dallas, Texas October 31, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS For The Period July 1, 2015 to June 30, 2016

The San Diego County Regional Airport Authority (Airport Authority) was established on January 1, 2002, as an independent agency. On January 1, 2003, the operations and assets of San Diego International Airport (SDIA) transferred from the San Diego Unified Port District (District) to the Airport Authority.

The Airport Authority is a self-sustaining entity receiving most of its revenues through user fees and rents from airline and non-airline business partners operating at SDIA. Since the

Airport Authority is not funded by tax revenues, accounts are maintained in an enterprise fund on the accrual basis of accounting. Under accrual accounting, revenues are recognized as soon as they are earned, and expenses are recognized as soon as a liability is incurred, regardless of the timing of related cash inflows and outflows. Users of SDIA's facilities provide most of the revenues to operate, maintain, and acquire necessary services and facilities.

INTRODUCTION

HISTORY OF OWNERSHIP

The public policy decision to transfer responsibility for SDIA from the District to the newly created Airport Authority emanated from recommendations made by the San Diego Regional Efficiency Commission (Commission). The Commission was established to evaluate regional governance in San Diego County and report recommended improvement measures to the California State Legislature.

Because of the significant regional consequences of airport development and operations, the Commission concluded that a regional decision-making process should address the future development of airport facilities in San Diego County. In October 2001, the enabling legislation, Assembly Bill 93 (AB 93) established the composition and jurisdiction of the Airport Authority's governing body in a manner that is designed to reflect the collective interests of the entire San Diego region.

SAN DIEGO INTERNATIONAL AIRPORT

LEGISLATIVE BACKGROUND

AB 93 was signed into California State law in October 2001. The Act established the Airport Authority on January 1, 2002, as a local agency of regional government with jurisdiction throughout the County of San Diego. Subsequent legislative changes to AB 93 were introduced and passed in California Senate Bill 1896 (Act). The amendment addresses several points pertaining to the transfer of aviation employees, date of transfer, property leases, property acquisition and purchase of services from the District.

On January 1, 2008, Senate Bill 10 (SB 10), the San Diego County Regional Airport Authority Reform Act, was enacted into law expanding the responsibilities of the Airport Authority. The Airport Authority is vested with five principal responsibilities:

(1) Operation of SDIA;

- (2) Planning and operation of any future airport that could be developed as a supplement or replacement to SDIA;
- (3) Development of comprehensive airport land use plans for the airports in the county;(4) Serving as the region's Airport Land Use Commission; and
- (5) In accordance with SB 10, preparing a Regional Aviation Strategic Plan (completed in fiscal year 2011).

In August 2013, Assembly Bill 1058 was signed into law. This bill made minor clarifying and technical changes to the Airport Authority Act.

AIRPORT ACTIVITIES HIGHLIGHTS (2014 - 2016)

The Airport Authority experienced continued growth in all areas during the current and prior two fiscal years. This followed the trend seen

at many commercial airports reflecting the gradual improvements in the economy.

The changes in the SDIA's major activities for the three years are as follows:

	FY 2014	FY 2015	FY 2016
Enplaned passengers	9,082,244	9,713,066	10,206,222
% increase	3.9%	6.9%	5.1%
Total passengers	18,145,130	19,409,683	20,397,170
% increase	4.0%	7.0%	5.1%
Aircraft operations	187,790	195,268	193,451
% increase	(0.3%)	4.0%	(0.9%)
Freight and mail (in tons)	164,966	178,615	185,655
% increase	5.1%	8.3%	3.9%
Landed weight (in thousands)	11,187	11,535	12,048
% increase	1.6%	3.1%	4.5%

Overall, the improving economy is having a positive effect on aircraft operations at SDIA. There was a significant increase in enplaned passengers in fiscal year 2016 with a 5.1 percent increase in enplanements. Also, total

passengers increased by 5.1 percent and freight and mail tons increased 3.9 percent. Due to higher load factors with different aircraft, there were slightly less operations.

STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION (IN THOUSANDS)

The metric 'Changes in Net Position' is an indicator of whether the Airport Authority's overall financial condition has improved or deteriorated during the fiscal year. Net

position decreased slightly in 2014, had a 2.2 percent increase in 2015, and was followed by a 4.7 percent increase in 2016.

Following is a summary of the statements of revenues, expenses and changes in net position (in thousands):

	FY 2014		FY 2015	FY 2016
Operating revenues	\$	195,737	\$ 210,505	\$ 233,994
Operating expenses		(214,026)	(217,808)	(237,229)
Nonoperating revenues, net		14,318	20,255	27,690
Capital contributions and grants		3,924	10,765	10,477
Increase (decrease) in net position		(47)	23,717	34,932
Net position, beginning of year		727,064	727,017	742,741
Prior-period adjustment GASB 68		-	(7,993)	-
Net position, end of year	\$	727,017	\$ 742,741	\$ 777,673

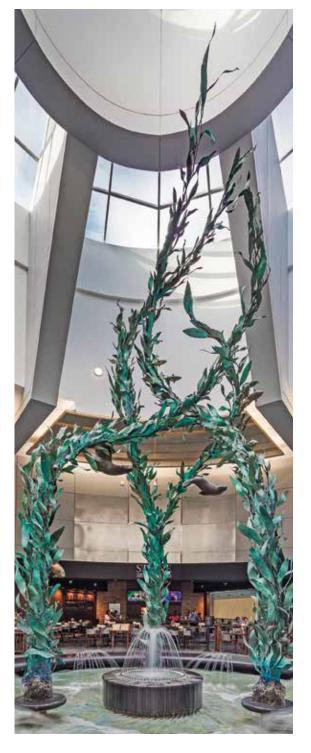

Detailed descriptions of the components of operating revenues and expenses, and nonoperating revenues and expenses are described in the sections that follow. The

implementation of GASB 68 in fiscal year 2015 caused a prior-period adjustment in that year. The cumulative changes in accounting for pension liabilities are reflected in this adjustment.

			From 2015	to 2016

OPERATING REVENUES (CONTINUED)

FISCAL YEAR 2016 COMPARED TO 2015:

Total airline revenues increased by \$9.9 million, or 9.6 percent, primarily due to an increased cost recovery for the airlines which was higher in fiscal year 2016, compared to 2015. Landing fees increased by \$2.6 million or 12.1 percent due to increased airfield costs. Building rentals increased by \$3.1 million or 6.5 percent due to increased terminal costs. Security surcharge increased by \$4.0 million or 16.1 percent, primarily due to increased Harbor Police expenses and higher terminal rental rate for security checkpoints. Non-airline terminal rent decreased by \$473 thousand or 31.4 percent, primarily due to consolidation of ground servicing companies. Concession revenue increased by \$3.8 million or 7.2 percent, reflecting increased enplanements and higher sales per enplaned passenger. Parking and ground transportation increased by \$6.5 million or 15.5 percent, due to higher enplanements and higher cost recovery on ground transportation. Ground rentals increased by \$3.6 million or 31.3 percent,

SAN DIEGO COUNTY REGIONAL AIRPORT AUTHORITY FISCAL YEAR ENDED JUNE 30, 2016 | OPERATING REVENUES

primarily due to the Rental Car Center land lease starting January 2016. Other operating revenue increased by \$212 thousand or 21.8 percent, primarily due to higher landing fees at the Fixed Base Operator, higher utility reimbursements, and higher fees for miscellaneous services.

FISCAL YEAR 2015 COMPARED TO 2014:

Total airline revenues increased by \$4.5 million or 4.6 percent, primarily reflecting an increased cost recovery for the airlines which was higher in fiscal year 2015, compared to 2014. Landing fees increased by \$2.3 million or 11.9 percent and aircraft parking fees increased by \$213 thousand or 8.5 percent, both due to increased airfield costs. Building rentals increased by \$2.2 million or 4.7 percent reflecting a recovery of higher service debt, maintenance, and operating costs for the new and existing facility. The increase in other aviation revenue of \$405 thousand reflects an increased volume in fuel delivered by the Fixed Base Operator. Offsetting the airline revenue was a decrease in the security surcharge of \$597 thousand, primarily reflecting a decrease of airline security charges. Concession revenue increased by \$4.7 million or 9.9 percent, mainly due to a full year of the expanded concession development program. Parking and ground transportation revenue increased by \$2.7 million or 6.9 percent, primarily due to a full year of expanded parking capacity after the Green Build completion and increased enplanements. Ground rentals revenue increased \$3.1 million or 37 percent, primarily due to rent from the new Fixed Base Operator facility which opened in the summer of 2014. Non-airline terminal rent increased by \$347 thousand, mostly due to renewed leases with a higher rental rate. Offsetting the non-airline revenue was a decrease in other operating revenue of \$558 thousand, primarily due to lower miscellaneous one-time charges.

FISCAL YEAR 2016 COMPARED TO 2015:

Total fiscal year 2016 operating expenses increased by \$19.4 million or 8.9%. Salaries and benefits increased \$2.9 million or 7.3 percent, mostly due to planned wage and benefit increases. Contractual services increased by \$5.8 or 17.9 percent, resulting in higher bussing costs of the Rental Car Center that opened in January 2016. Safety and

Security increased \$5.3 million or 22.4 percent, reflecting an increase in law enforcement training and benefit costs. Utilities increased \$1.3 million or 13.1 percent, due to higher rates and increased power usage of the Rental Car Center. Materials and supplies increased slightly by \$17 thousand or 3.3 percent, mainly due to higher purchases of small equipment and operating supplies. Employee

OPERATING EXPENSES (IN THOUSANDS)

OPERATING EXPENSES (CONTINUED)

development and support increased by \$106 thousand or 9.3 percent, primarily to higher training costs.

Offsetting this increase in operating expenses were the following decreases: Space rental of \$66 thousand due to fee write offs; Maintenance of \$394 thousand due to lower major maintenance project costs; Equipment and systems of \$1.1 million due to lower IT equipment purchases; Insurance of \$195 thousand primarily due to lower property insurance rates; Business development of \$103 thousand due to a delay in planned advertising; Equipment rentals and repairs of \$99 thousand due primarily to lower IT maintenance contracts and lower printer costs.

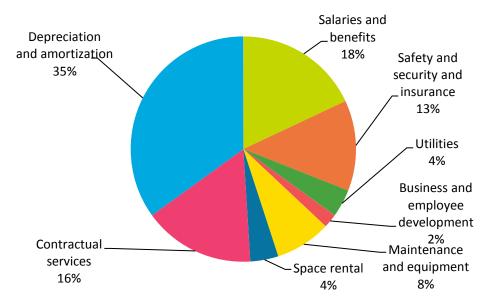

Fiscal year 2015 compared to 2014:

Total fiscal year 2015 operating expenses increased by \$3.8 million or 1.8 percent. Salaries and benefits had a slight increase of \$77 thousand or 0.2 percent, mostly due to planned wage and benefit increases. Contractual services increased by \$863 thousand or 2.7 percent, resulting from increased cleaning costs of the new terminal

facilities and increased aviation planning costs. Utilities increased by \$1.5 million or 17.0 percent, reflecting a full year of the Green Build expansion. Maintenance increased by \$534 thousand or 3.8 percent, reflecting increased operating and maintenance costs of new facilities. Equipment and systems increased by \$1.2 million or 180.7 percent, reflecting increased purchases of non-capital equipment. Materials and supplies increased by \$79 thousand or 18.0 percent, reflecting additional safety equipment and operating supplies. Insurance increased by \$157 thousand or 15.9 percent, largely due to higher property insurance premiums and equipment rentals and repairs had a slight increase.

Offsetting this increase in operating expenses were the following decreases: safety and security of \$685 thousand, due to lower City of San Diego Aircraft Rescue Fire Fighting (AARF) costs; space rental of \$45 thousand due to a lease cancellation; a minor reduction in employee development and support: business development of \$168 thousand or 6.3 percent, reflecting a reduction of international and domestic air services marketing costs.

PASSENGER FACILITY CHARGES (PFCs) were established by Congress in 1990 as part of the Aviation Safety and Capacity Expansion Act of 1990. The Airport Authority collects a \$4.50 PFC from revenue enplaned passengers to pay for the cost to design and construct eligible Airport capital projects or to repay debt service issued to build such projects. PFCs are collected by the air carriers when passengers purchase their tickets and are remitted to the Airport Authority the month following collection less a \$0.11 administration fee.

customer facility charges (cFcs) are authorized under Section 1936 of the California Civil Code and approved by legislation under Senate Bill 1510. The Airport Authority began collecting a \$10 per contract CFC on rental cars in May 2009. The revenues collected have been used to plan and construct a consolidated rental car facility and related ground

transportation system. The rental car agencies remit to the Airport Authority collection of the fee monthly. In November 2012, the rate of \$10 per contract was changed to \$6.00 per day up to five days. The fee was again increased in January 2014, to \$7.50 per day up to five days for rental car transactions. This fee applies to transactions that originated at the Rental Car Center. For car rental transactions of non-RCC tenants, the CFC rate is \$2.17 per day up to five days. The fee is scheduled to increase to \$9.00 per day in January 2017 for RCC rental car transactions.

From 2014 to 2015

QUIETER HOME PROGRAM includes sound attenuation construction improvements at all eligible single-family and multifamily dwellings with six or fewer units located in the Year 2000 65 dB Community Noise Equivalent Level contour. The project is eligible for the Airport Improvement Program (AIP). From inception

NON-OPERATING REVENUES & EXPENSES (CONTINUED)

through the end of fiscal year 2016, the Airport Authority has spent \$184.9 million and received reimbursement for \$149.1 million.

INTEREST INCOME is derived from interest earned by the Airport Authority on investments and notes receivable from the District.

INTEREST EXPENSE includes interest paid and accrued on the 2010, 2013 and 2014 Series Bonds, and Revolving Line of Credit Series B and C. This is netted with the capitalization of bond interest to the construction in progress assets that the debt finances. The capitalized interest in fiscal years ended June 30, 2016 and 2015, was \$12.4.0 million and \$9.0 million, respectively. The 2010 Series C Bonds were issued as Build America Bonds and, as such, the Airport Authority receives a cash subsidy from the U.S. Treasury equal to 32.62 percent of the interest payable. The interest subsidy for the fiscal years ended June 30, 2016 and 2015 was \$4.7 million and \$4.6 million, respectively.

includes proceeds and expenses for legal settlements, gain (loss) on the sale of assets, unrealized gain (loss) on investments, and other miscellaneous revenue and expenses.

FISCAL YEAR 2016 COMPARED TO 2015:

Nonoperating revenues (net) increased by \$7.4 million or 36.7 percent. Passenger facility charges increased by \$1.7 million or 4.35 percent, due to a 5.1 percent increase in enplaned passengers. Customer facility charges increased by \$743 thousand or 2.3 percent, due to an overall increase in rental car transactions. Interest income increased by \$252 thousand or 4.4 percent, primarily due to increased investment income. Other nonoperating income increased by \$879 thousand or 64.3 percent, mainly due to unrealized gains on investments.

Offsetting the nonoperating income was a higher net expense in the Quieter Home Program of \$887 thousand or 31.6 percent, due to increased program activity. Net Interest expense decreased by \$4.7 million or 8.5 percent, mainly due to higher capitalized interest.

FISCAL YEAR 2015 COMPARED TO 2014:

Nonoperating revenues (net) increased by \$5.9 million or 41.5 percent. Passenger facility charges increased by \$2.7 million or 7.7 percent, due to a 6.9 percent increase in enplaned passengers. Customer facility charges increased by \$4.9 million or 17.9 percent, due to a full year at the higher CFC collection rate. Interest income increased by \$536 thousand or 10.3 percent, primarily due to higher investment interest income. Other nonoperating income increased by \$933 thousand or 215.0 percent, primarily due to unrealized gains on sale of investments. There was also a slight decrease in Joint Studies Program expense as well.

Offsetting the nonoperating income was a slightly higher net expense in the Quieter Home Program, reflecting increased program activity. An increase in net interest expense of \$3.1 million or 6.1 percent was primarily due to a full year of interest expense paid on the 2014 Series bond.

CAPITAL GRANT CONTRIBUTIONS are

comprised of AIP entitlement and discretionary grants through the Federal Aviation Administration (FAA) and other Federal and state organizations. These funds are recognized as revenue as the work is completed on the eligible projects. Variances relate to the amount of work completed on eligible projects during the fiscal year.

The statements of net position present the financial position of the Airport Authority as of a period in time. The statements include all assets, deferred outflows, liabilities,

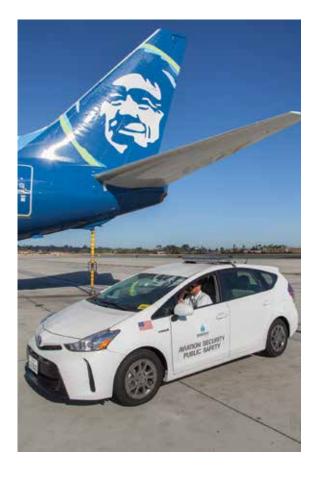

deferred inflows and net position of the Airport Authority. A summary comparison of the Airport Authority's assets, liabilities and net position at June 30, 2014, 2015 and 2016, is as follows:

ASSETS, LIABILITIES & NET POSITION (IN THOUSANDS)

	FY 2014		FY 2015	FY 2016

Total liabilities and deferred inflows				
of resources		1,495,265	1,494,785	1,439,759
Net Position				
Net investment in capital assets		312,780	316,251	310,339
Restricted		204,643	215,968	214,533
Unrestricted		209,594	210,522	252,801
Total net position	\$	727,017	\$ 742,741	\$ 777,673

As of June 30, 2016, the Airport Authority's assets and deferred outflows of resources exceeded liabilities by \$777.7 million. This reflects a \$35.0 million increase in net position from June 30, 2015. The largest portion of the Airport Authority's net position represents its net investment in capital assets. The Airport Authority uses these capital assets to provide services to its passengers and other users of SDIA; consequently, these assets cannot be sold or otherwise liquidated. Although the Airport Authority's investment in its capital assets is reported net of related debt, it is

noted that the funds required to repay this debt must be provided annually from operations. The unrestricted net position of \$252.8 million as of June 30, 2016, may be used to meet any of the Airport Authority's ongoing obligations. As of June 30, 2016, 2015 and 2014, management has designated unrestricted funds in the amount of \$31.3 million, \$22.6 million, and \$17.1 million, respectively, for capital contract commitments funded by Airport Authority cash, earthquake insurance and operating contingency.

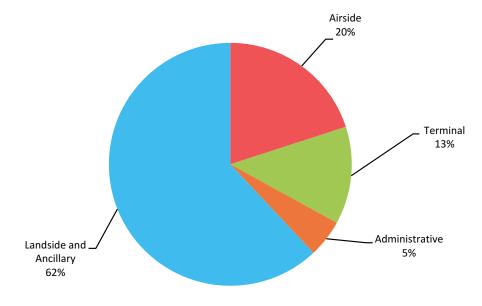

CAPITAL ASSET AND CAPITAL IMPROVEMENT PROGRAM

The capital program at SDIA consists of the Capital Improvement Program (CIP) and the Green Build. The CIP is a rolling five-year program that provides critical improvements and asset preservation. The program includes capital improvement projects that address federal security requirements, airfield security, environmental remediation, terminal upgrades and development. Funding sources for the projects include the Federal Aviation Administration's Airport Improvement Program, Transportation Security Agency grants, Passenger Facility Charges, Customer Facility Charges, airport operating revenues, airport revenue bonds, special facility bonds and short-term borrowing using commercial paper/revolving lines of credit.

In February 2014, \$305 million of Senior Special Facilities Revenue Bonds were issued to be used for the Rental Car Center completed in January 2016. The current CIP, which includes projects through 2021, consists of \$119.1 million for airside projects, \$582.7 million for landside projects, \$123.0 million for terminal projects, and \$47.4 million for administrative projects. The current SDIA CIP does not include noise reduction and related projects.

Additional information of the Airport Authority's capital assets can be found in Note 4 to the financial statements.

CAPITAL IMPROVEMENT PROGRAM (CIP) PROJECTS BY TYPE

CAPITAL FINANCING AND DEBT MANAGEMENT

On October 5, 2010, the Airport Authority issued \$572.6 million of Subordinate Airport Revenue Bonds Series 2010 A, B and C (Series 2010 Bonds). The bonds are rated A/A2/A by Standard & Poor's, Moody's Investors Service and Fitch Ratings, respectively. The Subordinate Series 2010 Bonds were issued to finance certain capital improvements at SDIA,

fund a portion of the interest accruing on the Subordinate Series 2010 Bonds through and including January 1, 2013, refund \$142.2 million of the Airport Authority's outstanding commercial paper notes, fund the subordinate bond reserve fund and pay the costs of issuance of the Subordinate Series 2010 Bonds.

The Series 2010 A and B bonds were structured as serial and term bonds that bear interest at rates ranging from 2.00 percent to 5.00 percent and mature in fiscal years 2012 to 2041. The Series 2010 C Bonds were issued as Build America Bonds and include a cash subsidy payment from the U. S. Treasury; currently, 32.62 percent of interest payable. The interest rate on the Series 2010 C Bonds, net of subsidy, is 4.48 percent and the bonds mature in fiscal year 2041.

The Subordinate Series 2010 Bonds are special obligations of the Airport Authority, payable from and secured by (a) a pledge of subordinate net revenues, which include certain income and revenue received by the Airport Authority from the operation of the airport system, less all amounts that are required to pay the operation and maintenance expenses of the airport system and all amounts necessary to pay debt service on and fund the reserves for the senior bonds; and (b) certain funds and accounts held by the subordinate trustee under the subordinate indenture. The Subordinate Series 2010 Bonds were issued with a pledge of and lien on subordinate net revenues on parity with the Airport Authority's subordinate commercial paper notes. In addition, the Airport Authority has irrevocably committed a portion of the PFCs it received through 2016. The amount of irrevocably committed PFCs was \$19.2 million annually for fiscal years 2014 through 2016. As of June 30, 2016, the principal balance on the subordinate Series 2010 Bonds was \$555.4 million.

On January 30 2013, the Airport Authority issued \$379.6 million of Senior Airport Revenue Bonds Series 2013 A and B (Series 2013 Bonds). The Series 2013 Bonds are rated A+/A1/A+ by Standard & Poor's, Moody's Investors Service and Fitch Ratings, respectively. The Senior Series 2013 Bonds were issued to finance certain capital improvements at SDIA, fund a portion of the

interest accruing on the senior Series 2013 Bonds through and including July 1, 2015, fund the senior reserve fund and pay the costs of issuance of the Senior Series 2013 Bonds.

The Series 2013 Bonds were structured as serial and term bonds that bear interest at rates ranging from 3.00 percent to 5.00 percent and mature in fiscal years 2016 to 2044. The bonds were issued at a premium of \$55.9 million, which is being amortized over the life of the bonds. Interest on the Senior Series 2013 Bonds is payable semiannually on January 1 and July 1 of each year. Interest expense for the fiscal year ended June 30, 2015, amounted to \$18.5 million, including accrued interest of \$9.2 million. The principal balance on the Series 2013 Bonds as of June 30, 2015 was \$377.6 million.

The Senior Series 2013 Bonds are special obligations of the Airport Authority, payable solely from and secured by (a) a pledge of net revenues, which include certain income and revenue received by the Airport Authority from the operation of the airport system, less all amounts that are required to pay the operation and maintenance expenses of the airport system (b) certain funds and accounts held by the senior trustee under the senior indenture.

As senior lien bonds, the Series 2013 Bonds require that charges for services be set each fiscal year at rates sufficient to produce pledged revenues at least 125 percent times the senior debt service for that year. In addition, the Series 2013 Bonds require the Airport Authority to maintain a reserve account with the bond trustee and to reserve certain amounts in the Airport Authority's books, as shown in Note 2.

On February 1, 2014, the Airport Authority issued \$305,285,000 of Series A and B Senior Special Facilities Revenue Bonds (Series 2014 Bonds). The Series 2014 Bonds were issued to

CAPITAL FINANCING & DEBT MANAGEMENT (CONTINUED)

CAPITAL FINANCING & DEBT MANAGEMENT (CONTINUED)

finance a portion of the costs of the development and construction of a consolidated rental car facility and related improvements at SDIA, fund a portion of the interest accruing on the Series 2014 Bonds through January 1, 2016, fund deposits to the senior reserve fund, the rolling coverage fund and pay the costs of issuance of the Series 2014 Bonds.

The Series 2014 A Bonds were structured as tax-exempt non-AMT term bonds that bear interest at 5.00 percent. The Series 2014 B Bonds were structured as federally taxable bonds that bear interest at rates ranging from 2.54 percent to 5.59 percent and mature in fiscal years 2019 to 2045. As of June 30, 2016, the principal balance on the Series 2014 Bonds was \$305.3 million.

The Series 2014 Bonds are special limited obligations of the Airport Authority, payable solely from and secured by a pledge of the Trust Estate, which includes, among other things, Customer Facility Charges collected from the rental car companies operating at the Airport and remitted to the Trustee. No revenues of the Airport Authority other than the Customer Facility Charges and the Bond Funding Supplemental Consideration (as defined in the Indenture), are pledged to the payment of the Series 2014 Bonds.

On September 5, 2014, the Airport Authority replaced its commercial paper program with a \$125,000,000 revolving line of credit, issued by US Bank, which was used to refund the

outstanding Series B and Series C commercial paper balances. The revolving line of credit is a three year facility. As of June 30, 2016, the Airport Authority's outstanding debt under this agreement consists of \$16.9 million of Series B (AMT) and \$15.7 million Series C (taxable).

The revolving line of credit is payable solely from and secured by a pledge of subordinate net revenues. Subordinate net revenues are generally defined as all revenues and other cash receipts of the Airport Authority's airport operations remaining after Senior Lien payments have been deposited by the Trustee in accordance with the Senior Lien Trust Indenture.

Additional information of the Airport Authority's long-term debt can be found in Note 5 to the financial statements.

The SDIA's PFC program was established in 1994, and currently authorizes the imposition of a \$4.50 fee on enplaning passengers. There are currently four active applications which provide authority to impose and use PFC revenue through November 1, 2037.

FAA entitlement and discretionary grants are awarded on a federal fiscal year running October 1 through September 30. The Airport Authority has received approximately \$500 thousand in grant awards for the federal fiscal year ended September 30, 2016, as compared to \$17.9 million for 2015. Grant awards are recognized as nonoperating revenue or capital contributions as eligible expenses are incurred.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the Airport Authority's finances. Questions concerning any of the information provided in this report or request for additional information should be addressed in writing to the Accounting

Department, P.O. Box 82776, San Diego, CA 92138. The Accounting Department can also be reached at (619) 400-2807. A copy of the financial report is available at www.san.org.

STATEMENTS OF CASH FLOWS JUNE 30, 2016 AND 2015

REPORTING ENTITY:

The San Diego County Regional Airport Authority (the Airport Authority), an autonomous public agency, was established in accordance with, Assembly Bill 93 (2001), as modified by Senate Bill 1896 (2002), which together comprise the San Diego County Regional Airport Authority Act (the Act). The Act required, among other things, the transfer of the assets and operations of the San Diego International Airport (SDIA) from the San Diego Unified Port District (the District) to the Airport Authority. Effective January 1, 2003 (inception), the District transferred all airport operations and certain related assets and liabilities to the Airport Authority, pursuant to the Act and the Memorandum of Understanding (MOU) dated as of December 31, 2002, between the Airport Authority and the District, which implemented the Act.

Senate Bill 10 (SB 10), the San Diego County Regional Airport Authority Reform Act, was effective January 1, 2008. Responsibilities of the Airport Authority include, among other things, the operation, maintenance, development, management and regulation of SDIA and its facilities. In addition, the Airport Authority has the responsibility to plan or to expand the existing SDIA. Under one of the requirements of SB 10, the Airport Authority completed a Regional Aviation Strategic Plan and the Airport Authority prepared and adopted an Airport Multimodal Accessibility Plan. In addition, the Airport Authority acts as the Airport Land Use Commission within San Diego County.

In accordance with the Codification of Governmental Accounting and Financial Reporting Standards, the basic financial statements should include all organizations, agencies, boards, commissions and authorities for which the Airport Authority is financially accountable. The Airport Authority has also considered all other potential organizations for which the nature and significance of their relationships with the Airport Authority are such that exclusion would cause the Airport Authority's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. Based on these criteria, there are no other organizations or agencies which should be included in these basic financial statements.

The Airport Authority is governed by a ninemember, appointed Board of Directors (Board), representing all areas of San Diego County and three additional members serving as nonvoting, ex-officio Board members. Three Board members are appointed by the Mayor of the City of San Diego (the City). Two Board members are appointed by the San Diego County Board of Supervisors. The remaining four Board members are each appointed by the Mayors of the following defined jurisdictions: the east county cities, south county cities, north coastal area cities and north county inland cities. The Board members serve three year terms in accordance with California SB 10.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING:

The accounting policies of the Airport Authority conform to accounting principles generally accepted in the United States of America applicable to state and local government agencies, and as such, the Airport Authority is accounted for as a proprietary fund. The basic financial statements presented are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded

NOTE 1.

NATURE OF ORGANIZATION & SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NOTE 1.

NATURE OF ORGANIZATION & SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

when earned and expenses are recorded at the time liabilities are incurred. This measurement focus emphasizes the determination of the change in Airport Authority net position.

USE OF ESTIMATES:

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, as well as the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CASH, CASH EQUIVALENTS AND INVESTMENTS:

For purposes of the statements of cash flows, cash and cash equivalents includes unrestricted (including designated) cash on hand, demand deposits and investment securities with original maturities of three months or less from the date of acquisition.

INVESTMENTS:

Investments in the state and county investment pools are recorded at fair value based upon the Airport Authority's pro rata share of the fair value provided by the state and county investment pools for the entire respective pool. All other investments are stated at fair market value based on quoted market prices.

TENANT LEASE RECEIVABLES:

Tenant lease receivables are carried at the original invoice amount for fixed-rent tenants and at estimated invoice amount for concession (variable) tenants, less an estimate made for doubtful receivables for both fixed-rent and concession tenants. Management determines the allowance for doubtful accounts by evaluating individual tenant receivables and considering a tenant's financial condition and credit history and current

economic conditions. Tenant lease receivables are written off when deemed uncollectible. Recoveries of tenant lease receivables previously written off are recorded when received.

FEDERAL GRANTS:

Outlays for airport capital improvements and certain airport nonoperating expenses, primarily those relating to the Airport Authority's Quieter Home Program, are subject to reimbursement from federal grant programs. Funding provided from government grants is considered earned as the related approved capital outlays or expenses are incurred. Costs claimed for reimbursement are subject to audit and acceptance by the granting agency.

AIRPORT IMPROVEMENT PROGRAM (AIP):

AIP grants are authorized and disbursed by the FAA under the Airway Improvement Act of 1982, as amended, which provides funding for airport planning and development projects at airports included in the National Plan of Integrated Airport Systems. As such, the AIP grants must be used to pay for the allowable costs of approved projects. As of June 30, 2016 and 2015, the Airport Authority recovered \$10,477,054 and \$10,764,946, respectively, for approved capital projects and \$8,573,133 and \$12,073,809 respectively, for the Quieter Home Program. Related recoverable costs as of June 30, 2016 and 2015 were \$10,454,351 and \$12,926,028 respectively, for capital projects and \$12,270,742 and \$14,885,179, respectively, for the Quieter Home Program.

PASSENGER FACILITY CHARGES (PFC):

The PFC program is authorized by the Aviation Safety and Capacity Expansion Act of 1990 (the Expansion Act). In accordance with the Expansion Act, the Airport Authority's AIP Passenger Entitlement Apportionment is reduced by certain percentages, dependent upon the level of PFC received by the Airport Authority.

In accordance with the program, PFC revenue must be used to pay allowable costs for approved capital projects. As of June 30, 2016 and 2015, accrued PFC receivables totaled \$4,497,657 and \$6,303,994, respectively, and there were \$73,279,889 and \$63,361,948 PFC amounts collected but not yet applied for approved capital projects as of June 30, 2016 and 2015, respectively.

On May 20, 2003, the FAA approved an increase in the Airport Authority's PFC charge per enplaned passenger from \$3.00 to \$4.50, beginning August 1, 2003. Currently, there are four active applications that allow the Airport Authority to impose and use \$1.2 billion in PFC revenue through November 1, 2037. The Airport Authority has formally closed five previously approved applications and withdrawn one pending application which has been integrated in a ninth application to impose and use approximately \$32 million in PFC revenue. The latest application was approved by the FAA in July 2012. During the fiscal Year 2016 this application was segmented into two, resulting in the addition of application #11, which was substantially completed as of June 30, 2016, pending FAA approval for application closure. In accordance with the Aviation Investment Reform Act (AIR-21), airports imposing a \$4.50 collection level are required to reduce AIP Passenger Entitlement Apportionment to 75 percent.

CUSTOMER FACILITY CHARGES (CFC):

The Airport Authority received approval in May 2009 from the State of California under Section 1936 of the California Civil Code to impose a \$10.00 CFC per contract on rental cars at SDIA. In accordance with the program, the CFC revenue must be used to pay allowable costs for approved capital projects. Effective January 1, 2014, the CFC rate went from \$6.00 to \$7.50 per day for a maximum of five days. As of June 30, 20162016 and 2015, accrued CFC receivables totaled \$2,968,920 and \$3,851,910,

respectively. CFC amounts collected, including interest, but not yet applied for approved capital projects as of June 30, 2016 and 2015, were \$32,922,068 and \$41,820,925, respectively.

DEFERRED INFLOWS OF RESOURCES:

The Airport Authority defers recognition of gains incurred on net differences on projected and actual earnings associated with its pension investments held with its pension plan and reports such losses as deferred inflows of resources in the statements of net position. Deferred gains on these investments are recognized over a five year period.

DEFERRED OUTFLOWS OF RESOURCES:

The Airport Authority defers recognition of contributions to its pension plan made between the measurement date of the pension liability and the Airport Authority's fiscal year-end. Other deferred outflows of resources include differences from expected to actual experience which are amortized over a six year period.

CAPITAL ASSETS:

Capital assets are recorded at cost, except for capital assets contributed by third parties, which are recorded at acquisition value as of the date of acquisition. The Airport Authority capitalizes incremental overhead costs and interest cost associated with the construction of capital assets. Capital assets are defined by the Airport Authority as assets with an initial, individual cost of more than \$5,000 and an initial useful life of one year or greater.

The Airport Authority recognizes lesseefinanced improvements as capital assets based upon the asset's estimated value at the time the asset reverts to the Airport Authority.

NOTE 1.

NATURE OF ORGANIZATION & SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

NOTE 1. Depreciation is computed by use of the straight-line method over the following estimated useful lives:

NATURE OF ORGANIZATION & SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

	Useful Life
Asset Category	(Years)
Land improvements	30-40
Runways, roadways and parking lots	
Lighting, security and minor improvements	3-10
Airfield and parking lots and improvements	12-25
Drainage systems, gas lines, pedestrian bridges	30
Roadways, bridges and infrastructure	40-50
Buildings and structures	
Passenger loading bridges, security systems, general upgrades and remodels	3-10
Baggage handling systems, HVAC, structural improvements, fuel and storage facility	12-20
Buildings and smart curb improvements	25-50
Machinery and equipment	
Vehicles and emergency vehicles	3-15
Office furniture and equipment	3-10
Communication and electronic systems	3-20
Works of art	15-30

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are expensed as incurred. Major outlays for capital assets and improvements are capitalized as construction in progress as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed. For the fiscal years ended June 30, 2016 and 2015, the Airport Authority capitalized interest of \$12,387,045 and \$8,964,526, respectively.

CAPITAL ASSET IMPAIRMENT:

The Airport Authority's capital assets include property, equipment and infrastructure assets. A capital asset is considered impaired if both the decline in service utility of the capital asset is large in magnitude and the event or change in circumstances is outside the normal life cycle of

the capital asset. The Airport Authority evaluates prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. Common indicators of impairment include evidence of physical damage where restoration efforts are needed to restore service utility, enactment or approval of laws or regulations setting standards that the capital asset would not be able to meet, technological development or evidence of obsolescence, a change in the manner or expected duration of use of a capital asset or construction stoppage. The Airport Authority reports the effects of capital asset impairments in its financial statements when they occur and accounts for insurance recoveries in the same manner. The Airport Authority's management has determined that no impairments of capital assets currently exist.

RETENTIONS PAYABLE:

The Airport Authority enters into construction contracts that may include retention provisions such that a certain percentage of the contract amount is held for payment until completion of the contract and acceptance by the Airport Authority. The Airport Authority's policy is to record the retention payable only after completion of the work and acceptance of the contractor invoices have occurred. Retentions payable on completed contracts are included with accounts payable on the accompanying statements of net position. Amounts related to unpaid retentions on uncompleted contracts are included in accrued liabilities.

COMPENSATED ABSENCES:

All employees of the Airport Authority earn annual leave that is paid upon termination or retirement. Annual leave is accrued at current rates of compensation and based on assumptions concerning the probability that certain employees will become eligible to receive these benefits in the future.

BOND DISCOUNTS, PREMIUMS AND ISSUANCE COSTS:

Bond discounts and premiums are deferred and amortized over the term of the respective bonds using the effective interest method. Bond issuance costs are expensed as incurred.

AIRPORT AUTHORITY NET POSITION:

Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net investment in capital assets excludes unspent debt proceeds.

Restricted net position represents amounts that are appropriated or legally segregated for a specific purpose. The Airport Authority's net position is reported as restricted when there are limitations imposed on its use, either through the enabling legislation adopted by the Airport Authority or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Unrestricted net position as of June 30, 2016 and 2015, includes designations of net position that represent tentative management plans that are subject to change, consisting of:

Operating contingency Insurance contingency Capital projects and other commitments

Total designated net position

2016		2015	
\$ 2,000,000	\$	2,000,000	
8,813,970		8,095,974	
20,456,748		12,492,409	
\$ 31,270,718	\$	22,588,383	

When both restricted and unrestricted resources are available for use, it is the Airport Authority's policy to use restricted resources first and then unrestricted resources as they are needed.

NOTE 1.

NATURE OF ORGANIZATION & SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

NOTE 1.

NATURE OF ORGANIZATION & SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

REVENUE AND EXPENSE RECOGNITION:

Revenues from airlines, concessionaires, lessees and parking are reported as operating revenues. Operating expenses include the cost of administering the airport system, including depreciation and amortization of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses or capital contributions and grants.

CONCENTRATIONS:

A significant portion of the Airport Authority's earnings and revenues are directly or indirectly attributed to the activity of a number of major airlines. The Airport Authority's earnings and revenues could be materially and adversely affected should any of these major airlines discontinue operations and should the Airport Authority be unable to replace those airlines with similar activity. The level of operations is determined based upon the relative share of enplaned passengers.

The four largest airlines in terms of enplaned passengers are as follows:

Southwest Airlines
American Airlines
United Airlines
Delta

2016	2015
37.6%	38.5%
13.4%	7.7%
11.4%	11.5%
10.4%	10.2%

DEFINED BENEFIT PENSION PLAN:

The Airport Authority has a single-employer defined benefit pension plan (Plan) administered through San Diego City Employee Retirement System (SDCERS). For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

PRONOUNCEMENTS ISSUED BUT NOT YET ADOPTED:

GASB has issued several pronouncements that may impact future financial presentations. Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements of the Airport Authority:

GASB Statement No. 75, Accounting and

Financial Reporting for Postemployment Benefits Other Than Pensions, effective for the Airport Authority's year ending June 30, 2018.

• GASB Statement No. 82, Pension Issues –an amendment of GASB Statements No. 67, No. 68, and No. 73, effective for the Airport Authority's year ending June 30, 2018.

PRONOUNCEMENTS ADOPTED:

The Airport Authority has adopted and implemented the following GASB statements during the year ended June 30, 2016:

- GASB Statement No. 72, Fair Value Measurement and Application, effective for the Airport Authority's year ending June 30, 2016.
- GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, effective for the Airport Authority's year ending June 30, 2016.
- GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, effective for the Airport Authority's year ending June 30, 2016.

The implementation of GASB Statements No. 72 and No. 76 did not impact net position or the change in net position of the Airport Authority as of or for the year ended June 30, 2016.

NOTE 2. SUMMARY OF CASH, CASH EQUIVALENTS AND INVESTMENTS:

CASH, CASH EQUIVALENTS & INVESTMENTS

Cash, cash equivalents and investments are reported in the accompanying statements of net position as follows at June 30:

	2016	2015
Unrestricted and undesignated:		
Cash and cash equivalents	\$ 16,244,182	\$ 7,873,038
Current investments	74,354,944	76,065,212
Noncurrent investments	119,052,416	77,419,978
Total unrestricted and undesignated	209,651,542	161,358,228
Designated for specific capital projects and other		
commitments: cash and cash equivalents	31,270,718	22,588,383
Restricted:		
Current cash, cash equivalents and investments, with trustees	57,228,146	94,917,215
Noncurrent cash, cash equivalents and investments, not with trustees	168,074,212	166,050,576
Noncurrent investments, with trustees	127,070,127	219,382,771
Total restricted cash, cash equivalents and investments	352,372,485	480,350,562
		_
Total cash, cash equivalents and investments	\$ 593,294,745	\$ 664,297,173

The components of restricted cash, cash equivalents and investments at June 30, are summarized below:

	2016	2015
Restricted cash, cash equivalents and investments:		
Bond reserves:		
Operation and maintenance reserve subaccount	\$ 39,354,191	\$ 38,600,777
Operation and maintenance subaccount	13,118,064	12,866,926
Renewal and replacement account	5,400,000	5,400,000
Total reserves	57,872,255	56,867,703
Passenger facility charges unapplied	73,279,889	63,361,948
Customer facility charges unapplied	32,922,068	41,820,925
Small business development bond guarantee	4,000,000	4,000,000
Customer facility charges	672	-
2010 Series debt service reserve fund	51,351,322	51,191,339
2010 Series debt service account	24,660,324	24,424,169
2013 Series construction fund	13,037,611	42,856,631
2013 Series debt service reserve fund	33,460,392	33,213,393
2013 Series debt service account	11,297,645	11,063,748
2013 Series capitalized interest account	-	220,469
2014 Series construction fund	13,582,767	106,253,356
2014 Series debt service reserve fund	22,170,728	22,040,300
2014 Series capitalized interest account	8,087,171	16,436,026
2014 Series rolling coverage fund	6,649,641	6,600,555
Total restricted cash, cash equivalents and investments	\$ 352,372,485	\$ 480,350,562

INVESTMENTS AUTHORIZED IN ACCORDANCE WITH CALIFORNIA GOVERNMENT CODE SECTION 53601 AND UNDER THE PROVISIONS OF THE AIRPORT AUTHORITY'S INVESTMENT POLICY:

The table that follows identifies the investment types that are authorized by the Airport Authority's investment policy and State Government Code. The table also identifies certain provisions of the Airport Authority's

investment policy that address interest rate risk, credit risk and concentration of credit risk.

This table does not address investments of bond proceeds held by the bond trustee that are governed by provisions of debt agreements of the Airport Authority, in addition to the general provisions of the Airport Authority's investment policy and State Government Code.

* Financial institution must have at least an overall satisfactory rating under the Community Reinvestment Act for meeting the credit needs of California communities in its most recent evaluation. Collateralization required per Cal. Gov. Code Section 53630 et seq.

INVESTMENT IN STATE INVESTMENT POOLS:

The Airport Authority is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The Airport Authority's investments in this pool are reported in the accompanying financial statements at fair value based upon the Airport Authority's pro rata share of the amortized cost basis provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of each portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF.

INVESTMENT IN COUNTY INVESTMENT POOL:

The Airport Authority is a voluntary participant in the San Diego County Investment Pool (SDCIP) that is regulated by California Government Code Section 16429 under the oversight of the County Treasurer of San Diego. The Airport Authority's investments in this pool are reported in the accompanying financial statements at fair value based upon the Airport Authority's pro rata share of the amortized cost basis provided by SDCIP for the entire SDCIP portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by SDCIP.

NOTE 2.

CASH, CASH EQUIVALENTS & INVESTMENTS (CONTINUED)

INVESTMENTS AUTHORIZED BY DEBT AGREEMENTS:

Investments held by the bond trustee are governed by the provisions of the debt agreement, in addition to the general provisions of the California Government Code and the Airport Authority's investment policy. The table below identifies the investment types that are authorized for investments held by the

bond trustee, according to the Master Trust Indenture. In the event of a conflict between the Airport Authority's investment policy and permitted investments associated with any Airport Authority debt issuance, the debt agreement shall control. The table also identifies certain provisions of these debt agreements that address interest rate risk, credit risk and concentration of credit risk.

Authorized Investment Type	Maximum Maturity	Minimum Quality Requirements	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
U.S. Treasury obligations U.S. agency securities State obligations Commercial paper Negotiable certificates of deposit Long-term and medium-term notes Money market mutual funds	None None None None None None	N/A N/A AAA/Aaa A-1; P-1; F-1 AAA/Aaa Two highest ratings Two highest ratings	None None None None None	None None None None None None

Any other investment which is a permitted investment of the Authority in accordance with the laws of the state.

*Investment requires collateralization

The primary objective of the Airport Authority's investment policy is to invest public funds in a manner that will provide the highest security of the funds under management while meeting the daily cash flow demands of the Airport Authority. Assets of the Airport Authority that are not bond proceeds, which are invested in securities as permitted in the bond indenture, are described in the preceding table. In addition, there are various credit criteria as defined in the Airport Authority's investment policy as depicted in the previous section entitled "Investments authorizes in accordance with California Government Code Section 53601 and under the provisions of the Airport Authority's investment policy."

INVESTMENTS HELD BY TRUSTEE:

The Airport Authority has monies held by trustees pledged for the security and payment of certain debt instruments, the payment of bond interest during construction and the payment of capital project costs.

DISCLOSURES RELATED TO INTEREST RATE RISK:

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, investments with longer maturities have greater fair value sensitivity to changes in market interest rates. One of the ways the Airport Authority manages its exposure to interest rate risk is by purchasing a combination of shorter-term and longer-term investments and by timing cash flows from maturities. These staggered maturities also provide consistent cash flow and fulfill liquidity needs for operations. The Airport Authority monitors interest rate risk inherent in its portfolio by measuring the segmented time distribution of its portfolio. The Airport Authority has no specific limitations with respect to this metric.

CUSTODIAL CREDIT RISK (DEPOSITS):

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Airport Authority maintains deposits at several institutions in order to minimize custodial credit risk. These deposits are collateralized by various instruments such as U.S. government securities (guaranteed) or U.S. agency securities (government sponsored). California Government Code requires that a financial institution secure deposits made by a state or local government by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure Airport Authority deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured deposits.

Insurance through the Federal Deposit Insurance Corporation (FDIC) may be applicable to the first \$250,000 of institutional deposit accounts, with any balance above this amount covered by the collateralization requirement. Certificates of deposit held by the Airport Authority's third-party custodians are fully insured by the FDIC, as the individual amounts do not exceed the FDIC-insured limits, or are collateralized in accordance with the California Government Code.

CUSTODIAL CREDIT RISK (INVESTMENTS):

Custodial credit risk for investments is the risk that the Airport Authority will not be able to recover the value of its investments in the event of a counterparty failure. The Airport Authority uses third-party banks' custody and safekeeping services for its registered investment securities. Securities are held in custody at third-party banks registered in the name of the Airport Authority and are segregated from securities owned by those institutions or held in custody by those institutions.

DISCLOSURES RELATED TO CREDIT RISK:

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of an investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. California Government Code Section 53601 (as referenced previously in this note) limits the types of investment instruments that may be purchased by the Airport Authority.

NOTE 2.

CASH, CASH EQUIVALENTS & INVESTMENTS (CONTINUED)

NOTE 2. The maturity ranges and credit ratings for the Airport Authority's investment securities as of June 30, are presented in the following tables:

Ratings per Standard and Poor's, Moody's and Fitch.
(1) Includes investments that have split ratings between S&P (AA+), Moody's (AAA) and Fitch (AAA)

CONCENTRATION OF CREDIT RISK:

The investment policy of the Airport Authority contains no limitations on the amount that can be invested by any one issuer beyond that stated in the table provided earlier in this note. The Airport Authority requires a diversified investment portfolio to avoid risk of losses resulting from an over-concentration of assets in a specific maturity, issuer or class of

securities. The Airport Authority had no concentrations of credit risk at June 30, 2016 and 2015.

FOREIGN CURRENCY RISK:

The Airport Authority's investment policy does not allow investments in foreign securities.

NOTE 2.

CASH, CASH EQUIVALENTS & INVESTMENTS (CONTINUED)

As part of the transfer of airport operations from the District to the Airport Authority, and pursuant to the associated MOU, the District issued a \$50,000,000 unsecured promissory note to the Airport Authority. According to an agreement with the District that commenced on January 1, 2006, the note will be amortized over 25 years, maturing on December 31, 2030. The note is subordinate to all bond

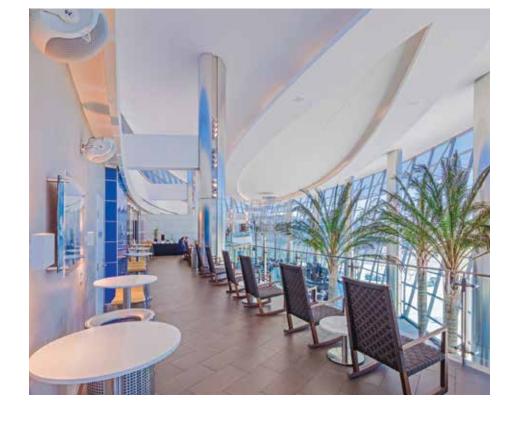

indebtedness of the District and carries a fixed interest rate of 5.5 percent per annum. At June 30, 2016 and 2015, the balance of the note receivable was \$36,749,270 and \$38,358,256, respectively.

NOTE 3.

NOTE RECEIVABLE

The required principal payments owed from the District for note receivable for the fiscal years ending June 30 are as follows (rounded):

Years Ending	
June 30,	Amount
	_
2017	\$ 1,705,000
2018	1,802,000
2019	1,903,000
2020	2,006,000
2021	2,124,000
2022-2026	12,554,000
2027-2031	 14,655,000
	\$ 36,749,000

NOTE 4. Capital asset activity for the years ended June 30, 2016 and 2015, are as follows:

SENIOR LIEN AIRPORT REVENUE BONDS, SERIES 2005 AND REFUNDED SERIES 1995:

The California Maritime Infrastructure Authority issued \$76,690,000 of Airport Revenue Bonds (Series 1995 Bonds) for the District, pursuant to a trust agreement dated December 1, 1995. The proceeds of the Series 1995 Bonds, together with investment income thereon, were used solely to pay a portion of the construction and installation of the West Terminal Expansion at SDIA, fund a Reserve Account and pay certain expenses in connection with the issuance of the Series 1995 Bonds. In conjunction with the transfer of airport operations to the Airport Authority on January 1, 2003, these bond obligations were assumed by the Airport Authority.

On December 21, 2012, the Airport Authority defeased all of its outstanding Series 2005 Bonds, by depositing proceeds of Subordinate CP Notes and certain other available monies into an irrevocable escrow fund. The amounts on deposit in the escrow fund will be used to pay the principal of and interest on the Series 2005 Bonds until their final maturity date of July 1, 2020. As of June 30, 2016 and 2015, the amount held in escrow by the trustee was \$25,668,549 and \$30,735,483, respectively, and the amount of the defeased Series 2005 Bonds still outstanding was \$23,145,000 and \$27,130,000, respectively.

COMMERCIAL PAPER SERIES A, B AND C (CP NOTES):

On September 6, 2007, the Board authorized issuance of subordinate CP Notes with up to \$250,000,000 of principal outstanding at any time. The CP Notes were issued from time to time and proceeds from the issuance of the CP Notes were used, among other things, to finance improvements to SDIA. The CP Notes were obligations secured by a pledge of airport revenues subordinated to the pledge of net airport revenues securing payment of the senior lien Series 2013 and Series 2014 Bonds

and on parity to the subordinate Series 2010 Bonds. Each commercial paper note matured at the end of a period not to exceed 270 days. As noted below, the commercial paper program was replaced by a revolving line of credit.

REVOLVING LINE OF CREDIT PROGRAM IN FISCAL YEAR 2015:

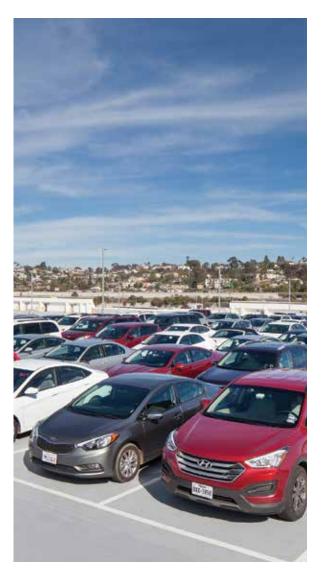

During fiscal year 2015, the Airport Authority replaced its commercial paper program with a \$125,000,000 revolving line of credit issued by US Bank. The revolving line of credit was used to refund the outstanding Series B and Series C CP Note balances. The revolving line of credit is a three-year agreement and took effect on September 5, 2014 and expires on September 4, 2017.

The revolving line of credit is payable solely from and secured by a pledge of "Subordinate Net Revenues." Subordinate Net Revenues are generally defined as all revenues and other cash receipts of the Airport Authority's airport operations remaining after senior lien payments have been deposited by the Trustee in accordance with the Senior Lien Trust Indenture.

At June 30 2016 and 2015, the principal balance of the Series B Notes were \$16,884,000 and \$17,909,000, respectively, and bears interest at the tax-exempt LIBOR rate. The balances of the Series C Notes for the same periods were \$15,697,000 and \$20,796,000 respectively, and bear interest at the taxable LIBOR rate.

NOTE 5.

LONG-TERM LIABILITIES (CONTINUED)

NOTE 5.

LONG-TERM LIABILITIES (CONTINUED)

SUBORDINATE LIEN SERIES 2010 BONDS:

On October 5, 2010, the Airport Authority issued \$572,565,000 of Series A, B and C Subordinate Airport Revenue Bonds (Series 2010 Bonds). The subordinate Series 2010 Bonds were issued to finance certain capital improvements at SDIA, fund a portion of the interest accruing on the subordinate Series 2010 Bonds through and including January 1, 2013, refund \$142,176,000 of the Airport Authority's then outstanding commercial paper notes, fund the subordinate reserve fund and pay the costs of issuance of the subordinate Series 2010 Bonds.

The Series 2010 A and 2010 B Bonds were structured as serial and term bonds that bear interest at rates ranging from 2.00 percent to 5.00 percent and mature in fiscal years 2012 to 2041. The Series 2010 C Bonds were issued as taxable Build America Bonds (BAB), which benefit from periodic cash subsidy payments from the U.S. Treasury, originally equal to 35 percent of interest payable on such bonds. As a result of the automatic spending cuts imposed under the Budget Control Act of 2011, the Airport Authority's BAB subsidies were reduced by 7.2 percent (the BAB Sequester) from October 2013 through September 2014 and 7.3 percent from October 2014 through September 2015. Due to the continued extension of the BAB Sequester, BAB subsidies for the remainder of fiscal year 2016 were reduced by 6.8 percent and such reduction will remain in place through September 2016. The BAB interest subsidies received by the Airport Authority for fiscal years ended June 30, 2016 and 2015, amounted to \$4,656,199 and \$4,631,219, respectively. The interest rate on the Series 2010 C Bonds, net of the subsidy, is 4.47 percent and the bonds mature in fiscal year 2041. The bonds were issued at a premium of \$26,154,344, which is being amortized over the life of the bonds. Interest on the subordinate Series 2010 Bonds is payable semiannually on January 1 and July 1 of each year.

Interest for the fiscal years ended June 30, 2016 and 2015, amounted to \$31,151,799 and \$31,484,399, respectively, including accrued interest of \$15,575,899 and \$15,742,199, respectively. The principal balance on the subordinate Series 2010 Bonds as of June 30, 2016 and 2015, was \$555,420,000 and \$564,085,000, respectively.

The subordinate Series 2010 Bonds are special obligations of the Airport Authority, payable solely from and secured by (a) a pledge of subordinate net revenues, which include certain income and revenue received by the Airport Authority from the operation of the airport system, less all amounts that are required to pay the operation and maintenance expenses of the airport system and all amounts necessary to pay debt service on and fund the reserves for the senior bonds; and (b) certain funds and accounts held by the subordinate trustee under the subordinate indenture. The subordinate Series 2010 Bonds were issued with a pledge of and lien on subordinate net revenues. The irrevocably committed PFC amount of \$19,209,388 and \$19,206,113 were fully utilized in fiscal year 2016 and 2015, respectively.

As subordinate lien bonds, the Series 2010 Bonds require that charges for services be set each fiscal year at rates sufficient to produce pledged revenues at least 110 percent times the subordinate debt service for that year. In addition, the subordinate Series 2010 Bonds require the Airport Authority to maintain a reserve account with the bond trustee. At June 30, 2016 and 2015, the amount held by the trustee was \$76,011,646 and \$75,615,508, respectively, which included the July 1 payment and a debt service reserve fund.

The public ratings of the Series 2010 Bonds as of June 30, 2016, are A/A2/A by Standard & Poor's, Moody's Investors Service and Fitch Ratings.

The required debt service payments for the Series 2010 Bonds for the fiscal years ending lune 30, are as follows:

Years Ending									
June 30,		Principal		Interest	Interest				
	•				•				
2017	\$	9,000,000	\$	30,934,023	\$	39,934,023

SENIOR LIEN AIRPORT REVENUE BONDS, SERIES 2013:

On January 30, 2013, the Airport Authority issued \$379,585,000 of Series A and B Senior Airport Revenue Bonds (Series 2013 Bonds). The Series 2013 Bonds were issued to finance certain capital improvements at SDIA, fund a portion of the interest accruing on the Series 2013 Bonds through and including July 1, 2015, fund the senior reserve fund and pay the costs of issuance of the Series 2013 Bonds.

The Series 2013 Bonds were structured as serial and term bonds that bear interest at rates ranging from 3.00 percent to 5.00 percent and mature in fiscal years 2016 to 2044. The bonds were issued at a premium of \$55,934,101, which is being amortized over the life of the bonds. Interest on the senior Series 2013 Bonds is payable semiannually on January 1 and July 1, of each year. Interest for the fiscal years ended June 30, 2016 and 2015, was \$18,414,600 and \$18,475,500, respectively, including accrued interest of \$9,207,300 and \$9,237,750 for fiscal years ending June 30, 2016 and 2015, respectively. The principal balance on the Series 2013 Bonds as of June

30, 2016 and 2015, was \$377,555,000 and \$379,585,000, respectively.

The senior Series 2013 Bonds are special obligations of the Airport Authority, payable solely from and secured by (a) a pledge of net revenues, which include certain income and revenue received by the Airport Authority from the operation of the airport system, less all amounts that are required to pay the operation and maintenance expenses of the airport system (b) certain funds and accounts held by the senior trustee under the senior indenture.

NOTE 5.

LONG-TERM LIABILITIES (CONTINUED)

LONG-TERM LIABILITIES (CONTINUED)

NOTE 5. As senior lien bonds, the Series 2013 Bonds require that charges for services be set each fiscal year at rates sufficient to produce pledged revenues at least 125 percent times the senior debt service for that year. In addition, the Series 2013 Bonds require the Airport Authority to maintain a debt service reserve account with the bond trustee and to reserve certain additional amounts in the Airport Authority's books, as shown previously in the notes. For the fiscal years ended June 30, 2016 and 2015, the amount held by the

trustee was \$57,795,658 and \$87,354,241, respectively, which included the July 1 payment, unspent project fund proceeds, the debt service reserve fund and capitalized interest funds. The total additional amounts reserved by the Airport Authority for fiscal years 2016 and 2015 was \$57,782,255 and \$56,867,703, respectively. The public ratings of the Series 2013 Bonds as of June 30, 2016, are A+/A1/A+ by Standard & Poor's, Moody's Investors Service and Fitch Ratings.

The required debt service payments for the Series 2013 Bonds for the fiscal years ending June 30, are as follows:

Years Ending June 30,	Principal	Interest	Total
2017	\$ 2,090,000	\$ 18,382,275	\$ 20,472,275
2018	2,155,000	18,306,850	20,461,850
2019	2,240,000	18,218,950	20,458,950
2020	2,320,000	18,127,750	20,447,750
2021	7,925,000	17,883,225	25,808,225
2022-2026	45,940,000	82,907,000	128,847,000
2027-2031	58,435,000	70,163,750	128,598,750
2032-2036	25,815,000	60,048,125	85,863,125
2037-2041	46,130,000	51,281,250	97,411,250
2042-2044	 184,505,000	13,792,875	198,297,875
	\$ 377,555,000	\$ 369,112,050	\$ 746,667,050

SENIOR LIEN AIRPORT REVENUE BONDS. **SERIES 2014:**

On February 1, 2014, the Airport Authority issued \$305,285,000 of Series A and B Senior Special Facilities Revenue Bonds (Series 2014 Bonds). The Series 2014 Bonds were issued to finance a portion of the costs of the development and construction of a consolidated rental car facility and related improvements at SDIA, fund a portion of the interest accruing on the Series 2014 Bonds through January 1, 2016, fund deposits to the senior reserve fund and pay the costs of issuance of the Series 2014 Bonds.

The Series 2014 A Bonds were structured as tax-exempt and non-AMT term bonds that bear interest at 5.00 percent. The Series 2014 B Bonds were structured as federally taxable bonds that bear interest at rates ranging from 2.54 percent to 5.59 percent. The bonds were issued at a premium of \$594,226, which is amortized over the life of the bonds. Interest on the Series 2014 Bonds is payable semiannual on January 1 and July 1 of each year. Interest for fiscal years ended June 30, 2016 and 2015, was \$16,341,210, including accrued interest of \$8,179,605 each year. The principal balance on the Series 2014 Bonds as of June 30, 2016 was \$305,385,000.

The Series 2014 Bonds are special limited obligations of the Airport Authority, payable solely from and secured by a pledge of the Trust Estate, which includes, among other things, customer facility charges collected from the rental car companies operating at the Airport and remitted to the Trustee. No revenues of the Airport Authority other than the customer facility charges and the Bond Funding Supplemental Consideration (as defined in the bond indenture), are pledged to the payment of the Series 2014 Bonds. The

Series 2014 Bonds require the Airport Authority to maintain a debt service reserve account with the bond trustee and to reserve certain additional amounts in the Airport Authority's books, as show previously in the notes. For the fiscal years ended June 30, 2016 and 2015, the amount held by the trustee was \$50,490,307 and \$151,330,237, respectively, which included the July 1 payment, unspent project fund proceeds, the debt service reserve fund, capitalized interest funds and the rolling coverage fund.

NOTE 5.

LONG-TERM LIABILITIES (CONTINUED)

The required debt service payments for the Series 2014 Bonds for the fiscal years ending June 30 are as follows:

Years Ending June 30,	Principal		Interest	Total		
2017	\$ -	\$	16,341,210	\$	16,341,210	
2018	-		16,341,210		16,341,210	
2019	5,580,000		16,270,428		21,850,428	
2020	5,720,000		16,114,217		21,834,217	
2021	5,890,000		15,928,365		21,818,365	
2022-2026	33,565,000		75,148,059		108,713,059	
2027-2031	43,925,000		64,443,360		108,368,360

2042-2045	 77,240,000		8,370,662		85,610,662	
	\$ 305,285,000	\$	311,054,477	\$	616,339,477	

LINE OF CREDIT:

In fiscal year 2016, the Airport Authority replaced a \$4,000,000 line of credit previously held with Wells Fargo by one now maintained by US Bank, which is collateralized with a bank certificate of deposit. This line is utilized to issue letters of credit to surety companies who are partnering with the Airport Authority to provide bonding assistance to contractors accepted into the bonding assistance program at the Airport Authority. As of June 30, 2016, nothing had been drawn on the line of credit and there are no outstanding letters of credit.

CAPITAL LEASES

OFFICE EQUIPMENT LEASES:

The Airport Authority has entered into five year capital lease agreements for office equipment that require monthly lease payments of \$6,849.

RECEIVING DISTRIBUTION CENTER LEASE:

The Airport Authority entered into an installment purchase agreement for a receiving and distribution center (RDC) in fiscal year 2013. This agreement has been determined to be a capital lease and requires monthly lease payments of \$73,108. The Airport Authority will become the owner of the RDC at the conclusion of the 20 year installment purchase agreement.

NOTE 5.

The following is a schedule of future lease payments applicable to the RDC installment purchase agreement, the office equipment capital leases, and the net present value of the future lease payments at June 30, 2016:

Present value of future lease payments	\$ 7,717,735

NOTE 6.

DEFINED BENEFIT PLAN

PLAN DESCRIPTION:

The Airport Authority's defined benefit pension plan is separately administered by SDCERS. SDCERS is governed by a 13-member Board, responsible for the administration of retirement benefits for the City, the District, and the Airport Authority and for overseeing the investment portfolio of the retirement system's trust fund. The Board is comprised of seven appointed members, four active members, one retired member and one ex-officio member.

SDCERS administers three separate singleemployer defined benefit pension plans for the City, the District and Airport Authority, and SDCERS provides service retirement, disability retirement, death and survivor benefits to its participants.

From January 1, 2003 through June 30, 2007, SDCERS administered a qualified employer defined benefit plan for the City, the District and Airport Authority. However, as of July 1, 2007, the City, the District and the Airport Authority plans were separated into independent, qualified, single-employer governmental defined benefit plans and trusts.

The assets of the three separate plans and trusts were pooled in the SDCERS Group Trust, which was established as of July 1, 2007. SDCERS invests and administers the Group Trust as a common investment fund and accounts separately for the proportional interest of each plan and trust that participates in the Group Trust.

SDCERS acts as a common, independent investment and administrative agent for the City, the District and the Airport Authority, whose plans cover all eligible employees. In a defined benefit plan, pension benefits are actuarially determined by a member's age at retirement, number of years of service credit and final compensation, typically based on the highest salary earned over a one-year or three-year period. Airport Authority safety members who are participants under the California Public Employees' Pension Reform Act (PEPRA) are subject to pensionable compensation caps.

The San Diego City Charter Section 144 and San Diego Municipal Code Sections 24.0100 et seq. assign the authority to establish and amend the benefit provisions of the plans that

participate in SDCERS to the SDCERS Board. The Airport Authority contributes to the Federal Social Security Program. The SDCERS Board issues a publicly available financial report that includes financial statements and required supplementary information for SDCERS. The financial report may be obtained by writing to the San Diego City Employees' Retirement System, 401 B Street, Suite 400, San Diego, California 92101.

BENEFITS PROVIDED:

The Airport Authority provides retirement, disability and death benefits.

There are two types of participants, the classic participants and the PEPRA participants. A classic participant means any member who is not a PEPRA participant. A PEPRA participant is any member hired on or after January 1, 2013, who has never been a member of a public retirement system or who had a break in service of more than six months before their Airport Authority hire date.

The classic participant retirement benefit is calculated by using monthly salary amounts based on the highest continuous 26 bi-weekly pay periods divided by 12. The eligibility of the classic participants begins at age 62 with five years of service, or age 55 with 20 years of service.

The PEPRA participant's benefit is calculated by using monthly salary amounts based on the highest 36 consecutive months divided by 36. Base salary cannot exceed 100 percent of the

Social Security contribution and benefit base, indexed to the CPI-U. The eligibility of the PEPRA participants begins at age 52 with five years of service.

The Airport Authority provides monthly payments for the life of the employee, with 50 percent continuance to the eligible spouse, domestic partner, or dependent child under 21 years of age upon the member's death. If there is no eligible spouse, the member may receive either a lump sum payment equal to the accumulated surviving spouse contributions or an actuarially equivalent annuity.

Employees with ten years of continuous service are eligible to receive non-industrial disability and employees with no service requirement can receive industrial disability.

The death benefit for non-industrial death before the employee is eligible to retire is a refund of the employee contributions, with interest plus one month's salary for each completed year of service to a maximum of six months' salary. A non-industrial death benefit after the employee is eligible to retire from service is 50 percent of earned benefit payable to eligible surviving spouse, domestic partner, or dependent child under 21 years of age. The industrial death benefit is 50 percent of the final average compensation preceding death, payable to eligible surviving spouse, domestic partner or dependent child under 21 years of age.

Membership in the Plan by membership class at June 30, 2016 and 2015, are as follows:

Inactive employees or beneficiaries currently receiving benefits Inactive employees entitled to but not yet receiving benefits Active employees

2016		2015

	99	91
3	81	374
5	44	520

NOTE 6.

DEFINED BENEFIT PLAN (CONTINUED)

NOTE 6. ACTUARIAL ASSUMPTIONS:

DEFINED BENEFIT PLAN (CONTINUED)

The total pension liability in the June 30, 2015 and 2014, actuarial valuations was determined using the following actuarial assumptions, applied to all periods included in the measurement:

- The rates of retirement were based on age and service as opposed to just the service of a member.
- The percent married assumption was 55 percent for females and 80 percent for males, and the assumed age difference between husbands and wives was three years.
- The reciprocity assumption was 10 percent.
- Rates of termination were based on service as opposed to the age of a member.
- Disability rates were modified to reflect actual experience through June 30, 2010, and include a projection to 2014 and 2015.
- Mortality rates for active Airport Authority members (RP-2000 Combined Mortality Table) were modified to reflect actual experience through June 30, 2010, and include a projection to 2014 and 2015.

- Mortality rates for retired Airport Authority members were modified to reflect actual experience through June 30, 2010. No modifications have been made to project future mortality improvements.
- The investment return assumption was 7.25 percent.
- The inflation assumption was 3.3 percent
- · Cost of living adjustment was assumed 2 percent.
- · Actuarial cost method is entry age normal
- · Amortization method is level percent closed
- · Asset valuation method is expected value method

The long-term expected rate of return on pension plan investments was based primarily on historical returns on plan assets, adjusted for changes in target portfolio allocations and recent changes in long-term interest rates based on publically available information.

The target allocations and best estimates of rates of return for each major asset class are summarized below:

		Long-term
Asset	Target	Expected Real
Class	Allocation	Rate of Return
U.S. equity	21%	4.5%
Non-U.S. equity	14%	4.6%
Emerging market equity	1%	5.8%
Global equity	5%	4.7%
U.S. fixed income	22%	0.6%
Emerging market debt	5%	3.7%
Real estate	11%	4.1%
Private equity and infrastructure	13%	6.6%
Opportunity fund	8%	4.1%
	100%	
	100%	

DISCOUNT RATE:

For the June 30, 2014 and 2015, actuarial valuations, the discount rate used to measure the total pension liability (asset) was 7.25 percent. Based on plan funding expectations, no actuarial projection of cash flows was made as the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of the projected benefit payments to determine the total pension liability (asset).

CONTRIBUTIONS:

SDCERS uses actuarial developed methods and assumptions to determine what level of contributions are required to achieve and maintain an appropriate funded status for the Plan. The actuarial process uses a funding method that attempts to create a pattern of contributions that is both stable and predictable. The actual employer and member

contribution rates in effect each year are based upon actuarial valuations performed by an independent actuary and adopted by the SDCERS Board annually.

The actuarial valuation is completed as of June 30, of each year. Once accepted by the SDCERS Board, the approved rates for Airport Authority apply to the fiscal year beginning 12 months after the valuation date. For June 30, 2016, the actuarially determined contribution rates for plan sponsors and members were developed in the June 30, 2014, actuarial valuation.

The funding objective of SDCERS is to fully fund the plan's actuarially accrued liability with contributions, which over time will remain as a level percent of payroll for the Airport Authority. Under this approach, the contribution rate is based on the normal cost rate and an amortization of any unfunded actuarial liability.

NOTE 6.

DEFINED BENEFIT PLAN (CONTINUED)

DEFINED BENEFIT PLAN (CONTINUED)

NOTE 6. For the years ended June 30, 2016 and 2015, employees contributed \$1,073,028 and \$1,019,220, respectively, and the Airport Authority contributed \$5,664,755 and \$5,670,847, respectively, to the Plan. For the years ended June 30, 2016 and 2015, the Airport Authority paid 7.00% or 8.50% of general member employee payroll and 10.47% of executive member payroll as employer paid contributions.

> Changes in the total pension liability, plan fiduciary net position and the net pension liability (asset) through the year ended June 30, 2016 and 2015, were as follows:

PENSION EXPENSE AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO THE PLAN:

For the year ended June 30, 2016 and 2015, the Airport Authority recognized pension expense, as measured in accordance with GASB Statement No. 68, of \$4,048,248 and \$3,743,686, respectively. At June 30, 2016 and 2015, the Airport Authority reported deferred outflows of resources and deferred inflows of resources related to the plan from the following sources:

	Deferred Outflows of Resources			erred Inflows of Resources		
Net difference between projected and actual earnings Differences between expected & actual experience Employer contributions made subsequent	\$	- 288,051	\$	(1,807,422)		
to June 30, 2015 measurement date		5,697,106		-		
Total	\$ 5,985,157		\$	(1,807,422)		
	Defe	erred Outflows	Deferred Inflows of			
	0	of Resources		Resources		
Net difference between projected and actual earnings Employer contributions made subsequent	\$	-	\$	(8,167,978)		
to June 30, 2014 measurement date		5,852,754				
Total	\$	5,852,754	\$	(8,167,978)		

The deferred outflows of resources, at June 30, 2016 and 2015, related to pensions resulting from Airport Authority contributions subsequent to the measurement date and prior to year end will be recognized as a reduction of the net pension liability at June 30, 2017 and 2016, respectively.

NOTE 6.

DEFINED BENEFIT PLAN (CONTINUED)

Year Ending

EMPLOYEES' DEFERRED COMPENSATION PLAN

NOTE 7. The Airport Authority offers its employees a deferred compensation plan, which was created in accordance with Internal Revenue Code (IRC) Section 457. The Plan, which is available to all full-time Airport Authority employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, total disability, death or unforeseeable emergency.

> The plan is administered by the Airport Authority and contracted to an unrelated financial institution. Under the terms of an IRC

Section 457 deferred compensation plan, all deferred compensation and income attributable to the investment of the deferred compensation amounts held by the financial institution, until paid or made available to the employees or beneficiaries, are held in trust for employees.

Employee assets to be held in the IRC Section 457 plans are not the property of the Airport Authority and are not subject to the claims of the Airport Authority's general creditors. Accordingly, employee assets are not reflected in the Airport Authority's financial statements.

OTHER POSTEMPLOYMENT **BENEFITS**

NOTE 8. The Airport Authority provides a singleemployer postemployment benefit plan (the OPEB Plan). The OPEB Plan provides postretirement medical, dental, vision and life insurance benefits for nonunion employees hired prior to May 1, 2006 and union employees hired prior to October 1, 2008. The employees are eligible for these benefits if they retire from active employment after age 55 with 20 years of service or age 62 with five years of service.

PLAN DESCRIPTION:

As of May 8, 2009, the Board approved entering into an agreement with the California Employer's Retiree Benefit Trust (CERBT) fund. This is managed by California Public Employees Retirement System (CalPERS). CalPERS

administers pension and health benefits for approximately 1.5 million California public employees, retirees and their families. CalPERS was founded in 1932 and is the largest public pension fund in the United States, managing more than \$250 billion in assets for more than 2,500 California employers. In 1988 and 2007, enabling statutes and regulations were enacted which permitted CalPERS to form the CERBT fund, an irrevocable Section 115 Trust, for the purpose of receiving employer contributions that will prefund health and other postemployment benefit costs for retirees and their beneficiaries. Financial statements for CERBT may be obtained from CalPERS at P.O. Box 942709, Sacramento, CA 94229-2709.

FUNDING POLICY:

CERBT requires a valuation of the liabilities and annual costs for benefits by an approved actuarial consulting firm. It is the Airport Authority's intent to budget and prefund the annual required contributions (ARCs). As of May 9, 2009, the agreement with CERBT was approved. Retirees contribute 5 percent of plan costs for single coverage and the entire cost of vision benefits. Annually, the Airport Authority funds 100 percent of the actuarially calculated ARC for its OPEB. In previous years, the Airport Authority has made contributions above the annual ARC which has resulted in a net OPEB asset.

ANNUAL OPEB COST AND ACTUARIAL METHODS AND ASSUMPTIONS:

The Airport Authority's annual OPEB cost is calculated based on the ARC, an amount that is actuarially determined in accordance with the parameters of GASB Statement No. 45. The Airport Authority has elected to perform an actuarial valuation of the OPEB on a biennial basis, the most recent of which is dated as of July 1, 2015. According to the July 1, 2015, actuarial valuation, the ARC was \$ 1,752,000 and \$2,403,000 for fiscal year 2016, and 2015, respectively. The ARC was determined using the entry age normal cost method with amortization of the unfunded accrued liability occurring over a 30-year period ending June 30, 2037.

Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial values of assets, consistent with the long-term perspective of the calculations. The actuarial assumptions used by CERBT include (a) a 7.28

percent investment rate of return, (7.36 percent was used in the prior valuations), net of administrative expenses, RP-2015 Mortality Tables with fully generational projection using MP-2015 scale and (b) projected salary increases of 3.00 percent. The annual healthcare cost trend rate ranged from 18 to 21 percent for medical and assumes a 5.0 percent rate for dental and 3.0 percent rate for vision. In establishing the discount rate, an inflation rate of 2.75 percent was used. The 2015 actuarial valuation included a 10 percent retirees' contribution of plan costs for single coverage; previously it was 5 percent.

The entry age normal cost method spreads plan costs for each participant from entry date to the expected retirement date. Under the entry age normal cost method, the plan's normal cost is developed as a level percentage of payroll spread over the participants' working lifetime. The actuarial accrued liability is the cumulative value, on the valuation date, of prior service costs. For retirees, the actuarial accrued liability is the present value of all projected benefits.

The plan costs are derived by making certain specific assumptions as to the rates of interest, mortality, turnover and the like, which are assumed to hold for many years into the future. Actual experience may differ somewhat from the assumptions and the effect of such differences is spread over all periods. Due to these differences, the costs determined by the valuation must be regarded as estimates of the true plan costs.

NOTE 8.

OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

NOTE 8.

OTHER POSTEMPLOYMENT **BENEFITS (CONTINUED)**

Development of the net OPEB obligation (NOO/Asset) and annual OPEB cost for the past three years is as follows (dollars in thousands):

Valuation	Fiscal	ARCs	Employer	(Asset)	NOO/	Adjustment	OPEB
Date	Year		Contribution	End of Year	(Asset)	to the ARC	Cost
7/1/13	13/14	\$ 2,328	\$ 2,328	\$ (59)	\$ (4)	\$ 4	\$ 2,328
7/1/13	14/15	2,403	2,403	(59)	(4)	4	2,403
7/1/15	15/16	1,959	1,959	(59)	(4)	4	1,959

The Airport Authority's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan and the net OPEB obligation for 2015, 2014 and 2013, were as follows (dollars in thousands):

Fiscal Year Ended	 nnual B Costs	Employer Contribution		Percenta OPEB Contrib	Cost	NOO/ (Asset)		
6/30/14 6/30/15 6/30/16	\$ 2,328 2,403 1,959	\$	2,328 2,403 1,959		100.0% 100.0% 100.0%	\$	(59) (59) (59)	

FUNDED STATUS AND FUNDING PROGRESS:

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to

continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the accompanying notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

The funded status of the Plan based on the most recent biennial actuarial valuation for the plan, dated as of July 1, 2015, was as follows (dollars in thousands):

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Actuarial Accrued Liability (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percent of Covered Payroll	Interest Rate	Salary Scale
7/1/15	\$ 18,917	\$ 34,587	\$ 15,670	54.7%	\$ 16,809	93.2%	7.3%	3.0%

The Airport Authority has a comprehensive Risk Management Program comprising commercial insurance, self-insurance, loss prevention, loss control and claims administration. The Airport Authority's coverage includes a variety of retentions or deductibles.

Emergency Management 5Agency and the California Disaster Assistance Act. As of June 30, 2016 and 2014, the Airport Authority has designated \$8,813,970 and \$8,095,974, respectively, from its net position, as an insurance contingency.

NOTE 9.

RISK MANAGEMENT

COMMERCIALLY ISSUED INSURANCE:

- The Airport Authority maintains \$500 million in limits for owners' and operators' general liability insurance with a war, hijacking and other perils endorsement in the amount of \$150 million.
- The Airport Authority maintains a property insurance policy with limits of \$750 million providing all risk and flood coverage on physical assets.
- The Airport Authority also maintains policies for workers' compensation, commercial auto, fiduciary liability, privacy and network security, crime and public officials and employment practices liability, among others.

SELF-INSURANCE:

Due to the exorbitant cost of earthquake insurance, the Airport Authority self-insures for losses due to earthquake damage. Effective July 1, 2007, the Airport Authority removed the purchase of commercial earthquake insurance from the Risk Management Program and increased reliance on the laws designed to assist public entities through the Federal

A \$2,000,000 reserve has been established within unrestricted net position by the Airport Authority's management to respond to uninsured and underinsured catastrophic losses. This fund is maintained pursuant to Board action only; there is no requirement that it be maintained.

LOSS PREVENTION:

The Airport Authority has an active loss prevention program, staffed by a full-time risk manager, two risk analysts, a safety manager and a safety analyst. In addition, insurer property and casualty loss control engineers conduct safety surveys on a periodic basis. Employees receive regular safety training and claims are monitored using a Web-based claims information system.

During fiscal year 2016, there were no significant reductions in insurance coverage from the prior year. For each of the past three fiscal years, settlements have not exceeded insurance coverage.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

LEVEL 1

Quoted prices in active markets for identical assets or liabilities

LEVEL 2

Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

LEVEL 3

Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

NOTE 10.

DISCLOSURES ABOUT FAIR VALUE OF ASSETS

NOTE 10. RECURRING MEASUREMENTS:

DISCLOSURES ABOUT FAIR VALUE OF ASSETS (CONTINUED)

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2016 and 2015:

June 30, 2016	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)			gnificant Other servable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

INVESTMENTS:

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-

based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

NOTE 10.

DISCLOSURES ABOUT FAIR VALUE OF ASSETS (CONTINUED)

The Airport Authority leases certain of its capital assets, such as loading bridges and building space, to signatory airlines and other tenants under operating leases. Substantially all capital assets are held by the Airport Authority for the purpose of rental or related use. A majority of the lease payments are determined each year based upon the actual costs of the airport. Such costs are allocated pro rata to each tenant based upon factors such as landed weights, enplanements, square footage, acres, etc. A majority of the Airport Authority's lease commitments are primarily on a month-to-month basis and accordingly are not reflected in the schedule below.

The Airport Authority's recent expansion of approximately 25,000 additional square feet results in the increase of the number of food service and retail concession locations from 55 to 87. The Authority has implemented a

comprehensive Concessions Development Program (CDP) to provide a world class shopping and dining experience for the millions of passengers who use SDIA each year. The full program build out was completed during fiscal year 2015. The CDP replaces the Airport Authority's one master concessionaire.

The Airport Authority's CFC revenues and Bonds funded construction of the Rental Car Center Facility (RCC), which was completed and placed in service on January 20, 2016. The RCC facility sits on 24.85 acres of land and houses all the major and small operator rental car tenants. The land rent leases for the RCC commenced on the opening date of the facility and will continue until the Bonds are repaid or defeased. This land rent is a non-cancellable lease and will convert to Facility Rent when bonds are repaid.

NOTE 11.

LEASE REVENUES

The minimum future lease payments to be received under the above operating lease agreements as of June 30, are as follows:

Years Ending June						
30,	Amount					
2017	\$ 12,586,824					
2018	11,906,653					
2019	11,998,494					
2020	12,138,378					
2021	12,281,759					
2022-2026	63,914,519					
2027-2031	69,716,722					
2032-2036	76,792,708					
2037-2041	85,196,761					
2042-2046	95,178,138					
2047-2049	40,883,957					
	\$ 492,594,913					

NOTE 12. OPERATING LEASES

LEASE COMMITMENTS The Airport Authority is required, by legislation

GENERAL DYNAMICS LEASE:

The Airport Authority is required, by legislation mandating the transfer of airport operations from the District, to lease from the District 89.75 acres of the former General Dynamics property on Pacific Highway adjacent to SDIA for 66 years commencing January 1, 2003. The lease agreement, as amended, calls for rent payments of \$6,750,000 annually through December 31, 2068. A portion of the land is leased back to the District for employee parking at the same fair market value rent paid by the Airport Authority.

SDIA LEASE:

The Airport Authority is leasing from the District 480 acres of land on North Harbor Drive for an annual rent of \$1 per year under a lease that expires December 31, 2068.

TELEDYNE RYAN LEASE:

The Airport Authority is leasing from the District 46.88 acres on North Harbor Drive referred to as the Teledyne Ryan lease that commenced on January 1, 2005 and expires December 31, 2068, for \$3 million in annual rent.

Under current law, in the event SDIA is relocated and the District leases are no longer used by the Airport Authority for airport purposes, all District leases will terminate and use of the property will revert to the District.

The future rental commitment under the above operating lease agreements as of June 30, are due as follows:

Years Ending					
June 30,			Amount		
2017	\$	5	10,172,520		
2018			10,172,520		
2019			10,172,520		
2020			10,172,520		
2021			10,172,520		
2022-2026			50,862,600		
2027-2031			50,862,600		
2032-2036			50,862,600		
2037-2041			50,862,600		
2042-2046			50,862,600		
2047-2051			50,862,600		
2052-2056			50,862,600		
2057-2061			50,862,600		
2062-2066			50,862,600		
2067-2068	_		25,431,300		
		\$	534,057,300		

The total rental expense charged to operations for the years ended June 30, consists of the following:

	2016	2015			
Rental payments made	\$ 10,367,148	\$	10,433,251		

COMMITMENTS:

As of June 30, 2016 and 2015, the Airport Authority had significant commitments for capital expenditures and other matters as described below:

- i. The Airport Authority has funds which have been classified as current assets, primarily for the unpaid contractual portion of capital projects that are currently in progress, and will not be funded by grants or additional debt, but will be funded through Airport Authority cash. These amounts are for the estimated cost of capital projects that have been authorized by the Board for construction planning to proceed and for the contractual costs of upgrading certain major equipment. At June 30, 2016 and 2015, these funds totaled approximately \$20.5 million and \$12.5 million, respectively, and are classified on the accompanying statements of net position as cash and investments designated for specific capital projects and other commitments.
- ii. Support services As part of the MOU, services provided by the District Harbor Police are required to be purchased by the Airport Authority as long as SDIA continue to operate at the current location. At the time of the transfer, the Airport Authority entered into a Master Services Agreement, a Police Services Agreement and a Communications Services Agreement with the District, which described the services that the Airport Authority could purchase and the manner of calculating the payments for such services. The largest amount that became payable under any of these agreements is under the Police Services Agreement, which is for Harbor Police services. The District provides monthly billings to the Airport Authority, with payment generally due 30 days after the date of the invoice, and provision of appropriate supporting documentation. During the years ended June 30, 2016

- and 2015, the Airport Authority expensed \$18,764,780 and \$15,847,455, respectively, for these services.
- iii. In fiscal year 2012, the Board approved two contracts with Ace Parking Management Inc., one for the parking management services in the amount of \$29.7 million and the second for the airport shuttle services in the amount of \$31.3 million. The total amounts spent as of June 30, 2016, were \$23.2 million for parking management services and \$29.5 million for airport shuttle services. These contracts are scheduled for completion in 2017. As of June 30, 2016, the Airport Authority's remaining commitment is approximately \$6.5 million for the parking management contract and \$1.8 million for the shuttle service contract.
- iv. In fiscal year 2014, the Board approved a contract with Austin-Sundt JV for the design and construction of the Rental Car Center in the amount of \$14.0 million and an additional approval of \$10.0 million. In fiscal year 2015, the Board approved an additional \$223.9 million. In fiscal year 2016, the Board approved an additional \$5.1 million. As of June 30, 2016, \$247.7 million had been spent and the contract is due to be completed in fiscal year 2017.
- v. In fiscal year 2013, the Board approved a contract with Demattei Wong Architecture in support of the Rental Car Center project in the amount of \$10.0 million and an additional approval of \$12.0 million. In fiscal year 2015, the Board approved an additional \$5.0 million. As of June 30, 2016, \$25.2 million had been spent and the contract is due to be completed in fiscal year 2017.

NOTE 13.

COMMITMENTS & CONTINGENCIES

NOTE 13.

COMMITMENTS & CONTINGENCIES (CONTINUED)

- vi. In fiscal year 2015, the Board approved a \$29.2 million contract with SP Plus Corporation to transport rental car companies' customers between the Rental Car Center facility and the terminals and includes the operation, management and maintenance of the shuttle vehicles. In fiscal year 2016, the Board approved an additional \$1.2 million. As of June 30, 2016, \$3.7 million had been spent and the contract is due to be completed in fiscal year 2021.
- vii. In fiscal year 2015, the Board approved a \$5.9 million contract with Granite Construction Company for the construction of the Northside bypass Taxiway. As of June 30, 2016, \$5.6 million had been spent and the contract is due to be completed in the early fiscal year 2017.
- viii. In fiscal year 2015, the Board approved a \$60.0 million contract with AECOM Technical Services, Inc. for project support for the development of the Northside solar projects. As of June 30, 2016, \$11.6 million had been spent and the contract is due to be completed in fiscal year 2018.

- ix. In fiscal year 2016, the Board approved a \$3.2 million contract with Granite Construction Company for the Employee Parking Lot 6 Expansion. As of June 30, 2016, \$3 million had been spent and the contract is due to be completed in early fiscal year 2017.
- x. In fiscal year 2016, the Board approved a \$12 million contract with Swinerton Builders for a Design-Build for the T2 Parking Plaza. As of June 30, 2016, \$4.5 million had been spent and the contract is due to be completed in early fiscal year 2020.
- xi. In fiscal year 2016, the Board approved a \$3.2 million contract with Hazard Construction Company for a Taxi hold lot. As of June 30, 2016, \$1.6 million had been spent and the contract is due to be completed in fiscal year 2017.
- xii. In fiscal year 2016, the Board approved a \$4.7 million contract with Hazard Construction Company to rehabilitate the Cross Taxiway. As of June 30, 2016, \$2.5 million had been spent and the contract is due to be completed in fiscal year 2017.

CONTINGENCIES:

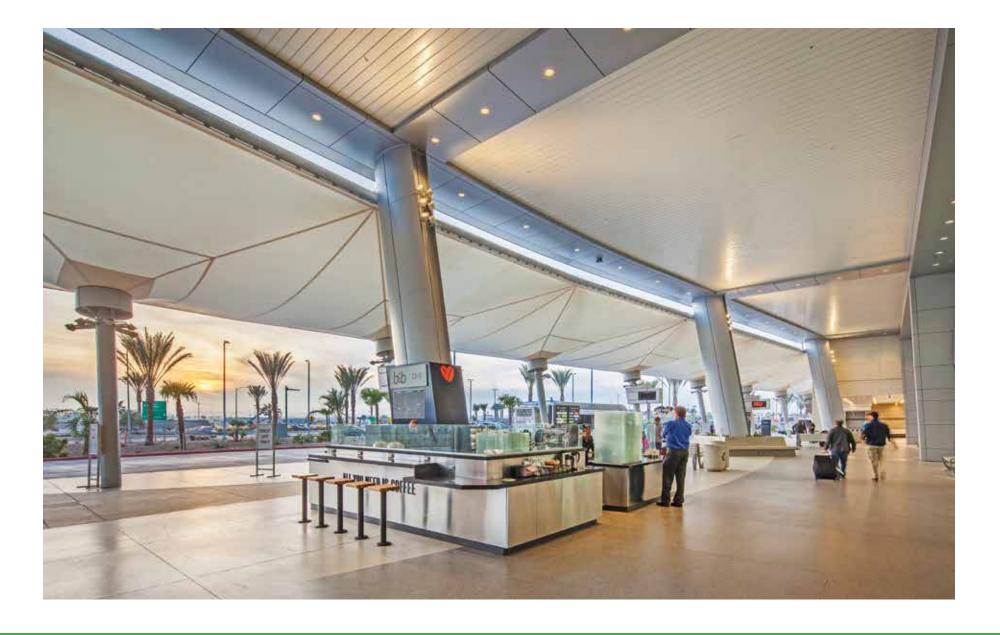

As of June 30, 2016, the Airport Authority is subject to contingencies arising from legal matters as described below:

The Airport Authority has leases and operating agreements with various tenants. These agreements typically include provisions requiring the tenants/operators to indemnify the Airport Authority for any damage to property or losses to the Airport Authority as a result of the tenant's operations. Also, the leases and operating agreements typically require the Airport Authority to be named as an

additional insured under certain insurance policies of the tenants/operators. The Airport Authority also tenders these claims to its own insurers once they become asserted claims. When these types of claims are asserted against the Airport Authority, the Airport Authority not only vigorously opposes them but also vigorously seeks contribution and/or indemnity from all tenants/operators involved, from the tenants'/operators' insurers and from its own insurers. The Airport Authority's legal counsel cannot predict the net exposure to the Airport Authority with respect to these matters, or the probability or remoteness of any outcome.

NOTE 13.

EXHIBIT S-5 AUTHORITY LANDING FEE RATE (\$ PER 1,000 LBS)

Fiscal Years Ended June 30,

AUTHORITY LANDING FEE RATE

Source: San Diego County Regional Airport Authority

Landing Fees are the revenues from passenger and cargo air carriers for landing aircraft at SDIA.

2016

	Terminal Rates	
Fiscal Year	Per Square Foot*	% Change
2007	\$58.39	3.1 %
2008	\$66.67	14.2 %
2009	\$57.38	(13.9)%
2010	\$59.53	3.7 %
2011	\$73.09	22.8 %
2012	\$83.31	14.0 %
2013	\$117.00	40.4 %
2014	\$109.61	(6.3)%
2015	\$113.01	3.1 %
2016	\$125.79	11.3 %

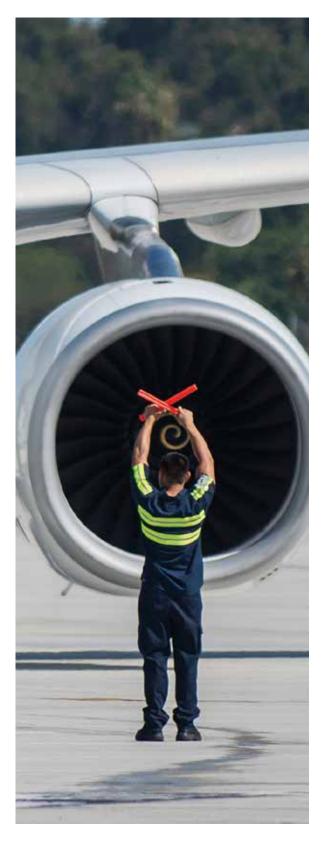

* Net of janitorial credit

TERMINAL RATE PER SQUARE FOOT

Source: San Diego County Regional Airport Authority Information presented reflects those years that the Airport Authority was in operation.

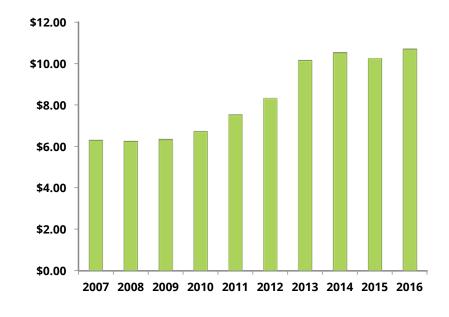

Landing Fees are the revenues from passenger and cargo air carriers for landing aircraft at SDIA.

		Cost per
	Enplaned	Enplaned
Fiscal Year	Passengers	Passenger
2007	8,892,069	\$6.31
2008	9,389,327	\$6.26
2009	8,535,774	\$6.36
2010	8,453,886	\$6.73
2011	8,441,120	\$7.54
2012	8,575,475	\$8.33
2013	8,737,617	\$10.16
2014	9,082,244	\$10.54
2015	9,713,066	\$10.26
2016	10,206,222	\$10.71

COST PER ENPLANED PASSENGER

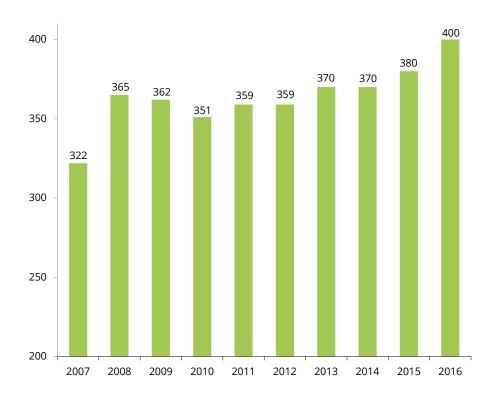

Source: San Diego County Regional Airport Authority

Airline Cost per Enplaned Passenger is the total annual cost of fees and charges paid by the airlines divided by the total fiscal year enplanements.

AUTHORITY EMPLOYEE HEADCOUNT

Fiscal Years Ended June 30,

Source: San Diego County Regional Airport Authority

The Airport Authority does not have part-time employees. This chart reflects the average number of employees for the fiscal years shown above.

AIRCRAFT LANDED WEIGHTS (000 LBS)

Source: San Diego County Regional Airport Authority

Landed Weight is the maximum gross certificated landed weight in one thousand pound units as stated in the airlines' flight operational manual. Landed weight is used to calculate landing fees for both airline and general aviation aircraft operated at the airport.

ENPLANED PASSENGERS - % CHANGE OVER PRIOR YEAR

This chart compares SDIA's year over year enplanement change compared to the US scheduled mainline service.

Source: San Diego County Regional Airport Authority and US Dept of Transportation's T-100 enplanement data.

San Diego International Airport

Number of runways	1
Length of runway (feet)	9,401 feet
Number of gates	51
Remote aircraft parking positions	24
Terminal rentable square footage	590,798
Airport Land Area	661 acres
On airport parking spaces (public)	3,784
Off airport parking spaces (public)	2,830

Source: San Diego County Regional Airport Authority

The parking spaces shown above are controlled and operated by the Airport Authority and reported on a weighted average basis.

The terminal rentable square footage is a weighted average figure that reflects square footage changes due to construction or remodeling.
