Subject: RE: Permission to use P-Card for hotel reservation

Good afternoon, Anne:

Per our conversation, this is your authorization to use your P-Card for these 3 hotel deposit in order to hold the reservations, as required by the hotel.

Please ensure that the travelers are aware that they will need to change the credit card on record when they check into the hotel (for additional night charges and any incidentals).

In addition, please make sure you include this email with your P-Card reconciliation, accordingly. Thank you.

Kind Regards,

Subject: Permission to use P-Card for hotel reservation

Three Board members are currently planning to attend the 2012 ACI-NA World Conference & Exhibition, September 9-12, Calgary AB Canada. Board Chair Robert Gleason has requested a reservation at The Hyatt Regency, one of the conference hotels, which requires a one-night guarantee to hold the reservation. May I have authorization to use my P-card for this purpose?

At this time I do not know if the other two Board members, Bruce Boland and Jim Panknin, will stay at the Hyatt or one of the other conference hotels. If a one-night deposit is required for their reservations, may I have authorization to use my P-card, or do you prefer that I contact you on an individual basis?

Thank you, Anne

Board Communication

Date: September 18, 2012

To: Airport Authority Board Members

From: Paul Robinson, Board Member 

Subject: Summary of San Diego Regional Chamber of Commerce Mission to Washington, DC

From September 9-12, 2012, I participated as an Airport Authority representative in the San Diego Regional Chamber of Commerce's "One Region/One Voice" Mission to Washington, DC. The following is a summary of the meetings in which I participated during this trip.

Andrew Lund, Legislative Assistant, Congressman Brian Bilbray

Mr. Lund briefed meeting participants on the status of the \$1.2 trillion in automatic federal budget reductions required by the Budget Control Act of 2011. These reductions, referred to as sequestration, are scheduled to begin January 2, 2013. According to Mr. Lund, the Office of Management and Budget plans to issue a report soon detailing the manner in which the sequestration cuts will be implemented. He also mentioned the possibility that Congress will take action prior to January to delay or alter the automatic spending reductions. We discussed the potential impacts that sequestration could have on San Diego's regional economy as well as the impact of the current uncertainty on San Diego's defense-based companies. I informed Mr. Lund that the Airport Authority recently joined several other San Diego organizations in writing to Senators Boxer and Feinstein on this issue. We also discussed other potential actions that regional leaders could take on the sequestration issue (e.g. town hall-style information calls from Congressman Bilbray, Congressional field hearings in California). Other issues discussed during this meeting were the status of the Navy Broadway Complex project and the potential for Airport Authority involvement in the 2015 Balboa Park celebrations. I informed Mr. Lund that the nation's airport community is still interested in increasing the current \$4.50 cap on Passenger Facility Charges as well as another Alternative Minimum Tax exemption for airport private activity bonds.

Todd Stiefler, Legislative Director, U.S. Senator Richard Shelby

Mr. Stiefler briefed meeting participants on the status of the scheduled sequestration budget reductions and informed our group that because the cuts will begin three months

into the fiscal year, the reduction in programs will actually amount to a 12% reduction. Although he discussed the possibility of a change or repeal of sequestration, he did not believe such action would occur until next Spring. Mr. Stiefler also informed us that although the Administration has mentioned the possibility of undertaking a BRAC process, he does not expect such action to occur prior to Fiscal Year 2015. Mr. Stiefler also informed us that Congress is expected to act as early as this week on a six-month Continuing Resolution to continue the current level of funding for federal programs.

Polly Trottenberg, Acting Under Secretary, U.S. Department of Transportation

Chamber meeting participants discussed various issues with Ms. Trottenberg, including: border crossing improvements, light rail connections and goods movement/freight strategy. I informed Ms. Trottenberg of the low interest rates the Airport Authority was able to secure on our Green Build bond issuance and that we plan to issue a second round of bonds for the Green Build and other capital improvements at San Diego International Airport. We discussed the recommendation that the Future of Aviation Advisory Committee (FAAC) made to Secretary LaHood to provide a four-year Alternative Minimum Tax exemption for private activity bonds and the benefit such action would provide for the Authority. I also mentioned to Ms. Trottenberg our continued interest in increasing the current \$4.50 limit on Passenger Facility Charges and that we plan to continue to work with our delegation to advance this issue. Ms. Trottenberg informed the group that there is a possibility that the Department of Transportation will issue another round of Transportation Investment Generating Economic Recovery (TIGER) grants. She also mentioned that the Secretary planned to form a freight advisory committee similar to the (FAAC) and that the new committee will consider air freight in addition to highways.

Ariana Reks, Legislative Assistant, U.S. Senator Barbara Boxer

Ms. Reks assured meeting participants that Senator Boxer understands the devastating impact that the defense cuts triggered by sequestration would have on the State of California. She mentioned that she anticipates that the Senate will act following the November elections to delay or alter the sequestration cuts. Ms. Reks also requested that regional organizations continue to provide her with data concerning the number of jobs that would be lost and other impacts that sequestration would have on the San Diego region. Ms. Reks informed us that Congress did not agree with the Administration to undertake another round of BRAC. However, if another BRAC round does occur, it will be mission focused, rather than considering issues such as job losses in a region.

Lynn Abramson, Senior Legislative Assistant, and Kyle Chapman, Legislative Aide, U.S. Senator Barbara Boxer

Meeting participants discussed their interest in participating in another round of Transportation Investment Generating Economic Recovery (TIGER) grants and informed the Senator's staff that, to date, the San Diego region has only been awarded one TIGER grant (I-905 improvements). During this meeting, I stated the airport

community's interest in an Alternative Minimum Tax exemption for private activity bonds and in increasing the current limit on Passenger Facility Charges.

Robert Work, Under Secretary, U.S. Department of the Navy

Mr. Work informed meeting participants that he expected Congress to pass a "clean" Continuing Resolution to continue the funding of federal programs at the current level. However, he stated that even if such action is taken by Congress, the Navy would not be able to begin any new military construction projects. Mr. Work stated that because of the navy's increased focus on West Coast operations, he does not expect the San Diego region to be negatively impacted by the sequestration cuts. He also mentioned that San Diego is central to the Navy's plans and there is the possibility that San Diego could gain one or more Navy ships. Mr. Work mentioned that there might be another round of BRAC in 2015. However, he informed the group that because the Navy and Marine Corps were aggressive in reducing assets during previous rounds of BRAC, they are not very interested in another BRAC round.

Dr. Dorothy Robyn, Deputy Under Secretary for Installations and Environment, and David Larson, Deputy Director of Programs, Department of Defense

Dr. Robyn discussed with meeting participants the increase in encroachment that military bases continue to experience. Much of this encroachment is now a result of the proliferation of endangered species. In an effort to address this issue, the Department of Defense (DOD) has undertaken a "smart development" initiative. The issue of the Naval Air Station North Island Air Installation Compatible Use Zone (AICUZ) was discussed as an example of potential encroachment that military bases face. We also discussed the potential for the DOD to work with businesses in the San Diego region on renewable energy projects. Dr. Robyn mentioned that the DOD is investigating power sharing arrangements with the community as well as micro-grid technology. We also discussed the potential impact of the Budget Control Act of 2011 spending reductions on the San Diego region.

15:15 – 17:00 **Are You Wired For The Future?**
Palomino ABCD
As airports ride into the 21st century they are continuing to rely on technology to increase capacity in existing facilities, enhance safety and security, and improve the passenger travel experience. The media may focus on the expectations of the passenger in terms of mobile connectivity and a minimum level of service but airports are challenged to address the needs of all the stakeholders at the airports that are increasingly relying on technology to operate more efficiently from an operational and financial perspective. As airports adopt these technologies they have to embrace a strong policy on cyber security, not only as it pertains to their passenger facing technologies but with their employees as well. In this session, speakers will discuss cutting edge technology issues and the ever changing but increasing demands from airlines, passengers, tenants and airport staff.

- Moderator: Jim Miller, Director of Enterprise Architecture, Denver International Airport

09:00 – 10:30 **General Session II**
Leadership and the Next Generation of Aviation Professionals
Over recent years, airports have become large and complex businesses, making increasing demands on the people who run them and on their leadership capabilities. Operating an airport today requires skills more like running a mini-city, requiring oversight and leadership of a wide range of activities and specialist areas. Added to this is the additional challenge faced by many CEO's on succession planning and attracting the next generation of airport professionals. During this session we will learn what some progressive airports are doing to mould new leaders from within their organizations along with attracting talented young people into the airport business.

- Moderator: Dr. Richard Plenty, Managing Director, This Is...
- Speaker: Jill Nealon, SVP, Senior Vice President, HR & Service Development, Dubai Airports
- Speaker: James Cherry, President and CEO Aéroports de Montréal

Airport Research at the University of Calgary

ACI-NA is fortunate to be hosting our annual conference in the same city as The University of Calgary, which has one of Canada's most extensive airport engineering programs. Meet us in the classroom in the Exhibition Hall to learn more about the U of C's recent and ongoing research into airport design, terminal and landside system design, and airport system planning. Don't miss this opportunity to stay on the cutting edge of airport research.

1. They Don't Build 'Em Like They Used To: Making the Business Case for Sustainable Designs

*Airports are in the business of moving people and goods safely, efficiently and now more than ever, sustainably. Sustainability is about more than just **being "green"** - it's also about **saving** some "green". How do airport executives decide what projects to undertake when resources are scarce? How do you make a business case for sustainable construction and design? What motivations or factors play into the process? A panel of experts will explore how environmental, economic and social concerns have impacted project and design decisions in the airport sector using specific case studies of real projects.*

- Moderator: Mark Reis, Managing Director, Seattle-Tacoma International Airport
- Speaker: Dr. Reg Milley, President and CEO, Edmonton International Airport
- Speaker: PS Nair, CEO-Corporate, Airport Sector of the GMR Group
- Speaker: Jane Ahrens, Director of Sustainability, Gresham, Smith and Partners
- Speaker: Stanis Smith, Senior Vice President, Stantec

2. Preparing For The Global Airline Industry

Airline industry restructuring and consolidation is occurring throughout the world, with the three global alliances now controlling more than 70% of the world's passenger traffic. But airlines continue to face uncertainty due to fuel price volatility, slow economic growth, the debt crisis in the Euro Zone, and unstable financial markets. What will be the impact of these trends and consolidation on air travel and airport operations and finances? A panel of experts will explore how these and other challenges have changed industry dynamics and how the airport sector must adapt in the short and long term.

- Moderator: Maureen Riley, Executive Director, Salt Lake City Department of Airports

- Speaker: William S. Swelbar, Research Engineer, Massachusetts Institute of Technology's International Center for Air Transportation
- Speaker: Brian Pearce, Chief Economist, International Air Transport Association

3. Risk Based Security – Making the Concepts a Reality

Passenger and cargo volumes are expected to increase worldwide, and with the prediction that the U.S. commercial aviation industry will transport over 1 billion passengers annually by 2024, there is a clear and present need to develop a risk-based aviation security system. Such a risk-based system will ensure effective security and efficient screening of passengers, baggage and cargo by leveraging available data to target limited screening resources on those passengers and cargo about which the least is known. Industry and government representatives are working collaboratively to discuss the practical application of risk-based initiatives and implement programs that turn concepts into reality.

- Moderator: David Edwards, President/CEO, Greenville-Spartanburg Airport District
- Doug Hofsass, Associate Administrator, Risk-Based Security, TSA
- Tonci Peovic, General Manager, Zagreb Airport (*Invited*)
- Erin O'Gorman, Director General, Aviation Security, Transport Canada

4. Taking Care of The Customer When Things Go Wrong

In recent years there has been an increase in the number of weather-related or natural events that cause a severe disruption to air traffic. And the impact extends well beyond the local region, causing protracted disruption in other parts of the world. Aircraft diversions, cancelled flights and stranded passengers can place huge demands on airports and airlines, as they struggle to return to normal operations and rebook passengers. While the airport might not be responsible for the irregular operation, it often gets the blame. This panel will discuss the differing regulatory approaches across the globe and key lessons learned from recent events, as well as how airports can better prepare and win their case in the court of public opinion.

- Moderator: Joe DiDomizio, President and CEO, Hudson Group
- Speaker: Howard Eng, President and Chief Executive Officer, Greater Toronto Airports Authority
- Speaker: Charlie Leocha, Director and Founder, Consumer Travel Alliance

5. Regulatory Roundup With FAA and Transport Canada

Saddle up for this perennial Annual Conference favorite, which provides you with the opportunity to explore your issues face-to-face with senior officials from both Transport Canada and the FAA. In this year's session we will be focusing recent regulatory efforts from both agencies as well as how the FAA has been affected by the FAA Reform and Modernization Act passed earlier this year. Bring the questions that you have for an engaging and informative discussion.

- Moderator: Brad Penrod, Allegheny County Airport Authority
- Speakers: Martin Eley, Director General, Transport Canada (invited)
- Kate Lang, Deputy Associate Administrator for Airports, FAA

Please note: APEX in Safety: Increasing Airport Safety Worldwide will immediately follow this session.

6. Get Your Strategy Off the Ground

Jeff Lindeman of San Diego County Regional Airport Authority, and Gary Magenta, Root, will discuss challenges many companies face with strategic change: setting goals and objectives, but having a hard time achieving them. This is exactly what San Diego County Regional Airport Authority experienced while undertaking a change initiative.

Specially, this session will address how the SDCRAA leaders worked through a process to get everyone aligned on their strategy, launch the strategy to the entire organization, and sustain that strategy into the future in order to achieve their goals. Gary will lead participants in an interactive session to discover common organizational dysfunctions, such as teams operating in silos, managers unable to interpret and communicate leadership directives and steps any organization can take to overcome those challenges. Jeff will outline SDCRAA's solutions and participants will work together to see how they fit into the framework of successful strategy execution. Participants will interact and engage not only with the materials presented, but also with each other. Attendees will have the opportunity to assess where their organizations stand in achieving their goals and visions, as well as walk away from the session with practical next steps in helping get their people more engaged in the organization.

- Moderator: Peter McCart, IAP, Vice President, Strategy and Airline Development, Edmonton Regional Airports Authority
- Speaker: Jeff Lindeman, SPHR, Sr. Director, Organizational Performance & Development, San Diego County Regional Airport Authority
- Speaker: Gary Magenta, Sr. Vice President, Client Solutions, Root, Inc.

7. APEX in Safety: Increasing Airport Safety Worldwide

The APEX in Safety program was launched by ACI World in 2011 with its first safety review in Lome-Tokoin airport in Togo and five more reviews completed in 2012, within the pilot programme. Join this session to hear about the structure of this

important safety initiative and how airports are benefitting both from the safety reviews they have received and by being safety partners on the peer review teams around the world.

- Moderator: David Gamper, Director, Safety and Technical, ACI World
- Speaker: Robinson Misitala, Managing Director, National Airports Corporation Limited, Zambia
- Speaker: Brett Patterson, Director, Airside Operations, Vancouver Airport Authority, Canada
- Speaker: Henry Gourджи, Chief, Continuous Monitoring and Oversight Section, International Civil Aviation Organization

8. Airport Security and Facilitation – A Dialogue with Regulators

With the security and facilitation challenges airports face on a daily basis, including new initiatives for enhanced security measures and the use of automated passenger processing systems, close coordination with TSA, CBP and the Canadian Border Services Agency (CBSA) is essential. Only through strong government/industry partnerships can the aviation community succeed in developing performance-based security policies and requirements that maximize effectiveness while considering unique geographic and operational variations. Don't miss this opportunity to talk directly with TSA, CBP and CBSA policymakers about ways to enhance the efficiency and effectiveness of the aviation system.

- Moderator: Tom Ruth, President & CEO, Halifax International Airport Authority
- Paul Leyh, Division Director - Commercial Aviation, TSA
- Cathy Munroe, Vice President, Programs Branch, Canadian Border Services Agency (Invited)
- Ken Sava, Director, Trusted Traveler Programs

9. Public/Private Partnership: Will it Work for Your Airport?

The 'infrastructure gap' in the transport sector has had a negative impact on economic growth, job creation and social cohesion worldwide. The need to improve infrastructure is seen as a necessary step to achieve successful economic growth, however governments have limited financial resources to devote to increased capital expenditures particularly for airports. PPPs present a framework that—while engaging the private sector—acknowledge and structure the role for government in ensuring that social obligations are met and successful sector reforms and public investments achieved. This session explores the increasing use of PPP agreements to develop airport infrastructure worldwide and evaluates the issues faced by investors, governments and lenders when considering such opportunities.

- Moderator: Dr. Yiannis Paraschis, Chief Executive Officer, Athens International Airport; Chair, ACI World

Closing Night Event at Heritage Park

On Wednesday evening you are afforded the opportunity to be hosted in both San Jose and Calgary style. Busses will depart each hotel beginning at 17:00. You will be greeted and entertained by a Team YYC Host on each bus as you are enroute to Calgary's Heritage Park (the largest living history museum in Canada), and the Park's newest attraction, the Gasoline Alley Museum. This is a casual evening, so jeans and white hats are welcome, but certainly not necessary. For the first hour, be prepared for the special wine tour the City of San Jose, (host airport and city of next year's ACI-NA Conference and Exhibition), will have created for you. You will have the opportunity to sample the wares of the various wine regions around San Jose while you get the chance to explore your 'inner technology self'. At 7:00 pm Team YYC takes over. A special Tribute performance begins the evening (dancing encouraged), followed by the World Champion First Nations hoop dancer, Dallas Arcand. Numerous other elements (including Calgary's signature drink - The Bloody Caesar) will keep you entertained until the busses are ready to return you to your hotels. Be prepared for some of Calgary's legendary hospitality. We look forward to seeing all of you at our event.

8:00 - 11:00

Airport Tour of YYC

Our Thursday morning airport tour, as well as providing a guided tour of the airfield, will afford you a 'back of house' opportunity to see the action taking place at YYC's \$2.0 billion expansion project (which includes a new 14,000 foot runway and a new 22 gate International terminal) unfolds. The tour will conclude with an overview in the terminal of the complete construction project.

If you wish to partake in the tour, please ensure that you register at the YYC guest services booth. Please note that for security check purposes we will be requesting your Social Security number. Tour busses will collect participants at each hotel beginning at 8:00 am, with the full schedule to be posted at each hotel prior to Monday, September 10th. The tour will begin at YYC at approximately 9:00 am and should be completed by 11:00 am, with a bus returning those of you that wish back to the hotels.

Because the tour will be beginning airside your bags will have to remain secured in the baggage hold of the bus until the tour is completed. Because International check-in processes can take up to 2 hours, this tour is not recommended for those who are planning to depart YYC prior to 1:00 pm.
