THE FORUM ON
AIR & SPACE LAW 

FORUM ON AIR & SPACE LAW

Annual Meeting

October 24-26, 2012

THE RITZ-CARLTON HOTEL
NEW ORLEANS, LA

DEAR COLLEAGUES

The American Bar Association's Forum on Air & Space Law cordially invites you to attend its 2012 Annual Conference in the historic and festive city of New Orleans, Louisiana, which will take place on October 25 and 26, 2012. We hope that you will join us for the industry's premier conference for aviation and space lawyers, which will feature a series of engaging and informative panel discussions by industry experts, dynamic keynote speakers from the public and private sectors, ample opportunities for networking, and exceptional social events.

In keeping with our tradition of being the one-stop shop for aviation and space lawyers, conference panels will discuss issues as diverse as airline consolidation, litigation developments, airport operations, emissions, passenger rights, unmanned aircraft, social media, aircraft finance, and space flight waivers. As the final panel of the conference, general counsels will describe how they establish and maintain an ethical atmosphere in their organizations. In addition to learned panelists, you will hear remarks of esteemed keynote speakers, such as The Honorable John S. Pistole, Administrator of the Transportation Security Administration (TSA), Ben Baldanza, CEO of Spirit Airlines, and Iftikhar Ahmad, Director of Aviation of the Louis Armstrong New Orleans International Airport.

You will not want to miss this incredible opportunity to hear illuminating discussions on a wide range of essential topics that are fundamental to aviation and space practitioners and mingle with professionals from around the world, all while earning Continuing Legal Education (CLE) credits. We also hope that you will choose to join us for our social activities, which include a reception in the impressive World War II Museum and a cocktail party honoring our young lawyers. All of this will take place in New Orleans, a city with unforgettable mystique and a unique flair, from the distinct notes of jazz to the world famous beignets and Creole and Cajun cuisine.

Laissez les bons temps roulez!

EMISSIONS REGULATION: WHAT'S THE RIGHT ANSWER?

In 2012, the emissions trading obligation under the European Union's Emission Trading Scheme was extended to include the aviation industry, a move that has angered nations and resulted in calls to boycott the program. In the meantime, ICAO continues to work on its own proposals for emissions regulation under a global approach. This panel will describe the various initiatives and analyze the impact and viability of each of them.

**THE WAIVERS AND WAIVER SYSTEM CONTAINED IN THE
U.S. COMMERCIAL HUMAN SPACE FLIGHT REGULATIONS**

An important aspect of the regulations for Human Space Flight Requirements for Crew and Space Flight Participants is the waiver system they contain. The system requires the operator, crew members, and space flight participants (SFP) to hold harmless and indemnify the US and its entities for loss or damage arising from licensed or permitted activities. In exchange, the operator must provide the SFP with risk information before receiving compensation. This panel will address the waiver and reciprocal cross waivers required by the regulations, their scope, the legal relationships between and among the crew, the operator and the SFPs, and what constitutes informed consent.
