Policy for Public Participation in Board, Airport Land Use Commission (ALUC), and Committee Meetings (Public Comment)

- 1) Persons wishing to address the Board, ALUC, and Committees shall complete a "Request to Speak" form prior to the initiation of the portion of the agenda containing the item to be addressed (e.g., Public Comment and General Items). Failure to complete a form shall not preclude testimony, if permission to address the Board is granted by the Chair.
- 2) The Public Comment Section at the beginning of the agenda is limited to eighteen (18) minutes and is reserved for persons wishing to address the Board, ALUC, and Committees on any matter for which another opportunity to speak is not provided on the Agenda, and on matters that are within the jurisdiction of the Board. A second Public Comment period is reserved for general public comment later in the meeting for those who could not be heard during the first Public Comment period.
- 3) Persons wishing to speak on specific items listed on the agenda will be afforded an opportunity to speak during the presentation of individual items. Persons wishing to speak on specific items should reserve their comments until the specific item is taken up by the Board, ALUC and Committees. Public comment on specific items is limited to twenty (20) minutes – ten (10) minutes for those in favor and ten (10) minutes for those in opposition of an item. Each individual speaker will be allowed three (3) minutes, and applicants and groups will be allowed five (5) minutes.
- 4) If many persons have indicated a desire to address the Board, ALUC and Committees on the same issue, then the Chair may suggest that these persons consolidate their respective testimonies. Testimony by members of the public on any item shall be limited to **three (3) minutes per individual speaker and five (5) minutes for applicants, groups and referring jurisdictions.**
- 5) Pursuant to Authority Policy 1.33 (8), recognized groups must register with the Authority Clerk prior to the meeting.
- 6) After a public hearing or the public comment portion of the meeting has been closed, no person shall address the Board, ALUC, and Committees without first obtaining permission to do so.

Additional Meeting Information

NOTE: This information is available in alternative formats upon request. To request an Agenda in an alternative format, or to request a sign language or oral interpreter, or an Assistive Listening Device (ALD) for the meeting, please telephone the Authority Clerk's Office at (619) 400-2400 at least three (3) working days prior to the meeting to ensure availability.

For your convenience, the agenda is also available to you on our website at www.san.org.

For those planning to attend the Board meeting, parking is available in the public parking lot located directly in front of the Administration Building. Bring your ticket to the third floor receptionist for validation.

You may also reach the Administration Building by using public transit via the San Diego Metropolitan Transit System, Route 992. The MTS bus stop at Terminal 1 is a very short walking distance from the Administration Building. ADA paratransit operations will continue to serve the Administration Building as required by Federal regulation. For MTS route, fare and paratransit information, please call the San Diego MTS at (619) 233-3004 or 511. For other Airport related ground transportation questions, please call (619) 400- 2685.

Airline Operating and Lease Agreements

November 1, 2018

Item B.

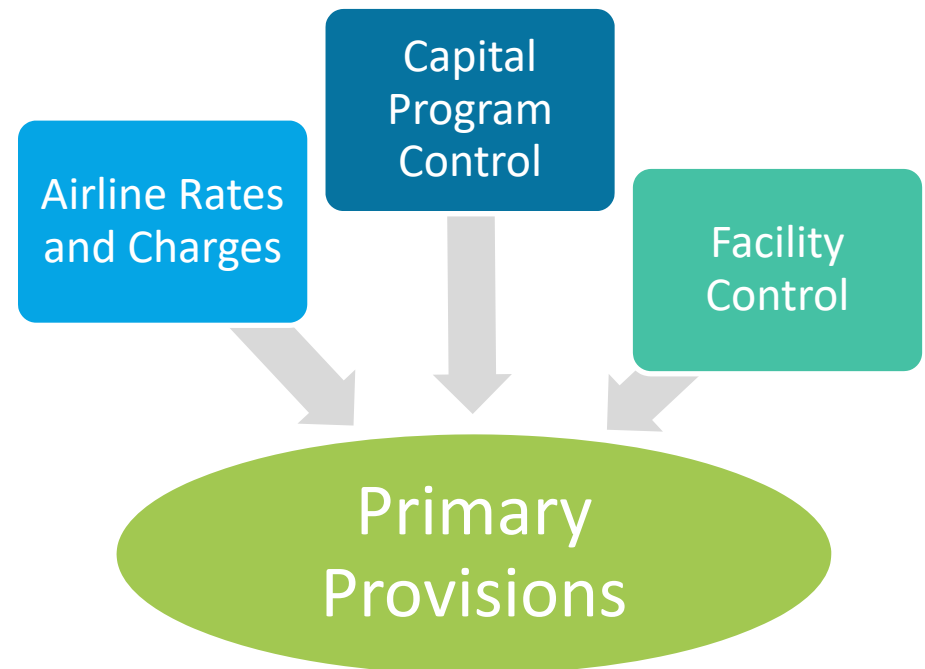

Presented by Nora Richardson, Frasca & Assoc.

Background/Purpose

- Current status of negotiations
- AOLAs and why they are important
- Overview of recent trends in AOLAs
- Obtain Board authorization for CEO to negotiate and execute agreement

Defining the Airport-Airline Business Relationship

- Relationship establishes what airlines can do at an airport and what airport is obliged to do for airlines
- *Airline Rates and Charges:* Determines how airlines pay for use of airport
- *Capital Program Control:* Airline role in capital decisions and consultation
- *Facility Control:* Control over and use of gates and facilities
- *Other provisions:* insurance, environmental, etc.

Importance of Airline Revenue

Airlines provide about half of revenues to airports nationwide

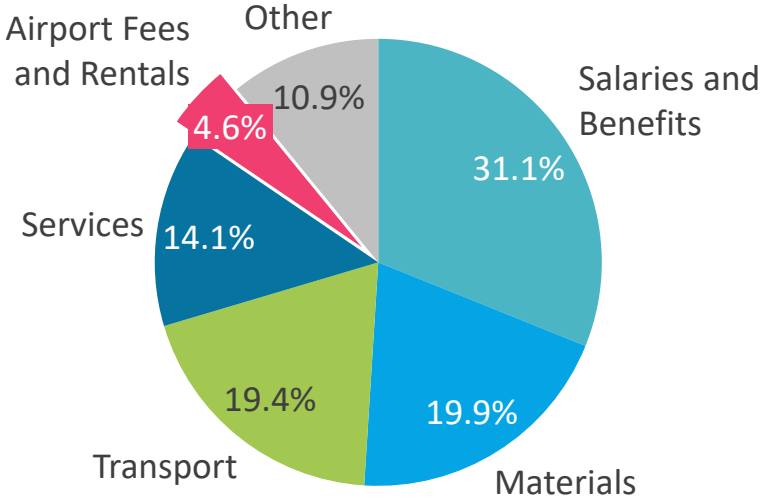

FY 2017 Large Hub Operating Revenues

Source: FAA, AAS-400, CATS, Report Form 5100-127, FY 2017 data, accessed June 2018.

Airport fees and rentals are about 4-6% of major airline expenses

FY 2017 Major Airline Expenses

Source: FAA, Report Form 41, data for airlines with annual revenues greater than \$20m. FY 2017 data, accessed June 2018.

Options for Establishing the Airport-Airline Business Relationship

Airline Operating and Lease Agreement

- Negotiated with airlines
- Balance of risk, reward, and control
- Balance of control
- Combined “operating and lease” agreement

Rates by Ordinance

- Unilaterally imposed by Airport
- Airport typically has more control, but takes on additional risks
- Regulated by FAA and established after consultation

Authority's Selected Option

With the ADP and significant capital investment on the horizon, staff collaborating with airlines serving airport to negotiate a new Airline Operating and Lease Agreement

Airline Rates and Charges Building Blocks

- Cost centers divide up on-Airport property
 - Typically include Airfield, Terminal, Common Use Systems, Landside, & Other
- Cost center allocations
 - Procedures to allocate operating expenses, capital costs, reserve deposits, and fund deposits to cost centers
- Terminal space
 - Review space to determine what is rentable versus public space

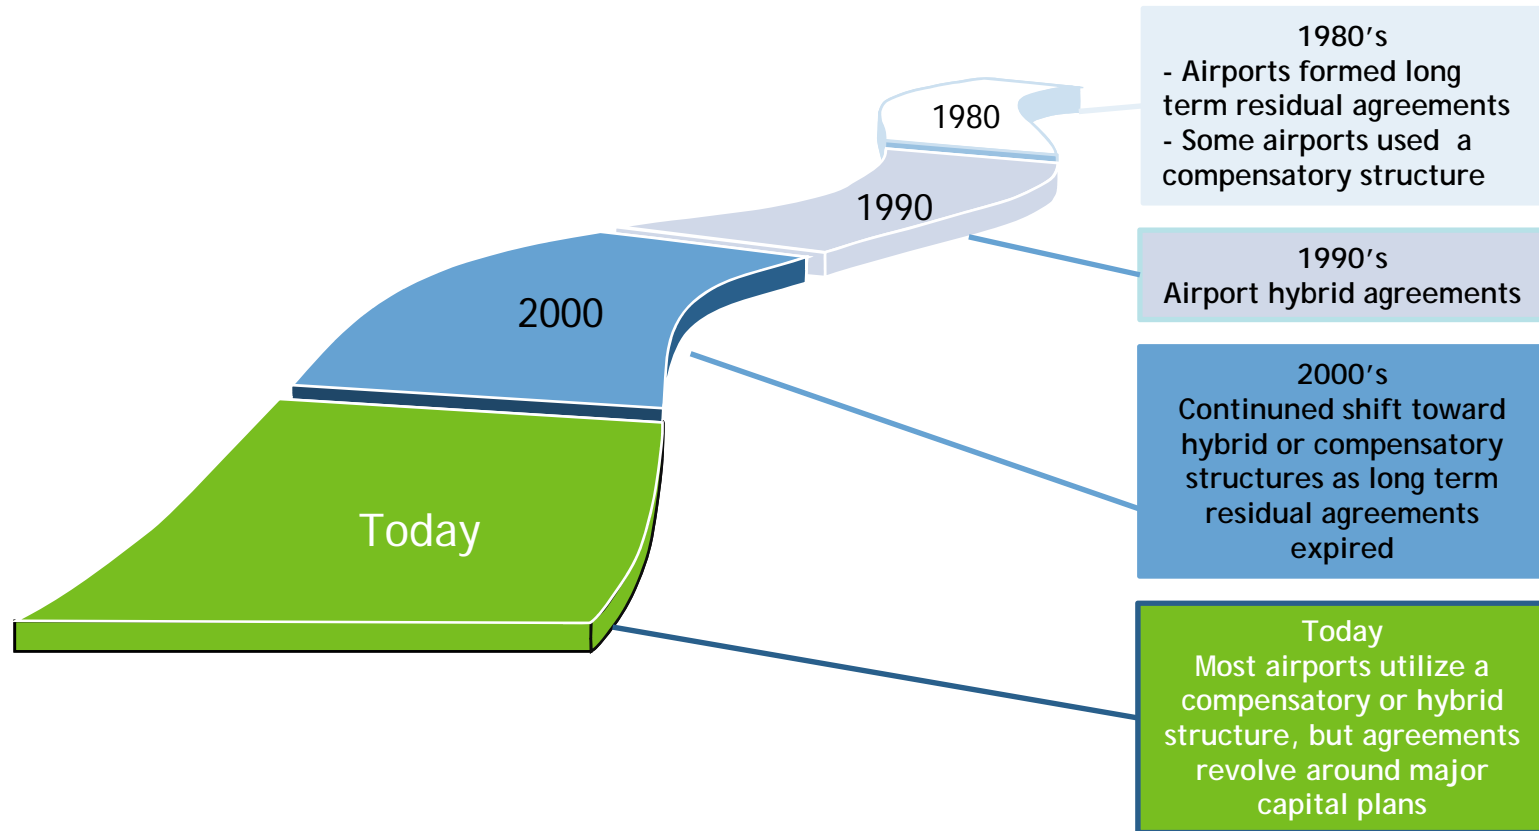

Airline Rates and Charges

Common Methods Used to Set Airline Rates and Charges

- **Residual:** All net costs recovered from airlines after credit from nonairline revenues
- **Compensatory:** Airlines only pay for space they use; Airport retains all non-airline revenue for investment at the Airport
- **Hybrid:** Mixture of residual and compensatory

Airline Rates and Charges

Historical Evolution of Airport-Airline Agreements

Capital Program Control

- Airline control over Airport's capital programs varies nationwide:
 - None, Airport retains control
 - Airline approval vs. disapproval of projects
 - Outright disapproval vs. deferral
- Airports also obtain “pre-approval” for specific capital programs and allowances for routine projects

Facility Control

Type of Right	Description
Exclusive	Airline has exclusive right to use
Preferential	Airline has a first right, but airport may assign to another airline if not in use
Shared/Joint	Used by many airlines
Common	Airport controls and assigns to airlines

- 20. AUTHORIZE THE CREATION OF A GROUND TRANSPORTATION AD HOC COMMITTEE TO INCLUDE BOARD MEMBERS AND SELECTED STAKEHOLDERS FOR A TERM NOT TO EXCEED EIGHT (8) MONTHS:**

Marc Nichols, Director, Ground Transportation, provided a presentation on the Creation of a Ground Transportation Ad Hoc Committee that included the Purpose, Proposed Members, Deliverable, and Timeline.

CARELYN REYNOLDS, TRANSPORTATION ALLIANCE GROUP, spoke regarding the need to have charter industry representation on the Ad Hoc Committee.

ADRIAN KWIATKOWSKI, SAN DIEGO, TRANSPORTATION ALLIANCE GROUP, spoke in support of the Ad Hoc Committee and requested that TAG, off-airport parking, and charter be included as stakeholder groups.

JOHN B. BARRIAGE, IMPERIAL BEACH, introduced himself as the new representative for the MOA Associations, San Diego Taxi Association, and the Independent Cab Owners Association.

RICHARD ABDALA, SAN DIEGO, representing Aladdin Airport Parking and TAG, requested that off-airport parking be added to the committee and that regular meetings be held.

MIKAIL HUSSEIN, SAN DIEGO, spoke regarding the fair distribution of memberships on the committee.

YONAS MEHARI, spoke regarding the fair distribution of memberships on the committee.

NAJI BARKZAI, SAN DIEGO, spoke in opposition to opening the airport to all taxis.

CETIN OZCETIN, SAN DIEGO, spoke regarding opening the airport to all taxis.

KIDANE WELDEMICHAEL, SAN DIEGO, spoke regarding opening the airport to all taxis.

MEJAY ABEBE, SAN DIEGO, did not speak but registered his support of the Ad Hoc Committee.

DAGNE TEJERA, SAN DIEGO, spoke in support of the Ad Hoc Committee.

ABLE SGIFU, SAN DIEGO, requested to be added to the Committee and questioned how the Ad Hoc Committee's actions would be communicated to all taxis.

SHAWN TOOKHI, SAN DIEGO, spoke in opposition to opening the airport to all taxis.

SAFAA SALEH, SAN DIEGO, questioned why the Ad Hoc Committee was not discussed at their last MOA meeting.

TONY HUESO, SAN DIEGO, spoke regarding the future of the taxi industry.

ALEM ZEBIB, SAN DIEGO, spoke in support of opening the airport to all taxis and recommended that Mr. Hamidi be part of the Ad Hoc Committee.

KAMRAN HAMIDI, SAN DIEGO, provided a presentation and handout, requested to be part of the Ad Hoc Committee and spoke regarding a speedy and fair outcome from the Ad Hoc Committee.

MEAZA WELDEMARIAM, CHULA VISTA, spoke against opening the airport to all taxis.

NASSER TEHRANI, POWAY, representing San Diego Taxi Association, spoke regarding a fair distribution of memberships on the Ad Hoc Committee.

ALAN BEKER, LA MESA, spoke in opposition of opening the airport to all taxis.

Board Member Desmond expressed his support of finding a fair and equitable outcome.

Board Member West stated that a process needs to be developed that is fair and equitable to all while providing the best customer service to our passengers. He stated that, to develop that process, all players should be involved, including charters and parking garages. He thanked Board Members Lloyd and Schiavoni for agreeing to be on the Committee.

Moved by Board Member West and seconded by Board Member Lloyd to approve staff's recommendation.

Chairman Boling clarified that the motion included that Board Members Lloyd, Schiavoni, and West (chair) serve as the Boards representatives on the Ad Hoc Committee as stated by Board Member West.

In response to Chairman Boling's inquiry on whether the motion was to keep the membership as it stands, Board Member West clarified that his motion is for the total stakeholder count to stay at 22 and for TAG, charters, and parking garages be considered for representation under the 8 slots designated for other groups.

Mr. Nichols clarified that the three courtesy modes that are not currently represented are off-airport, hotel/motel, and charter. He stated that TAG is a separate organization and not a mode of transportation.

Board Member West agreed to allow the Ad Hoc committee to consider including off-airport parking, hotel/motel, charter, and TAG as member's of the 8 representatives allotted for other groups and residents of San Diego County.

In response to Board Member Kersey's inquiry regarding how the Ad Hoc Committee will be governed, Amy Gonzalez, General Counsel, stated that there are three voting Board Members and any recommendations that the committee makes would be memorialized in a report to be presented to the full Board.

Angela Shafer-Payne, Vice President, Operations, stated that the Resolution should be amended to remove the requirement that the three representative leased-vehicle drivers from MTS, come from their taxicab Advisory Committee. She stated that by removing this requirement it would allow for non-airport taxi cabs to be represented on the committee.

RECOMMENDATION: Adopt Resolution No. 2018-0118, authorizing the creation of a Ground Transportation Ad Hoc Committee to include three (3) Board Members and twenty-two (22) stakeholders for a limited duration not to exceed eight (8) months.

ACTION: Moved by Board Member West and seconded by Board Member Lloyd to approve staff's recommendation as amended, by deleting the requirement for the leased-vehicle drivers from the non-airport MTS permitted stakeholder pool who currently sit on the MTS Technical Advisory Committee; and that the Ad Hoc committee consider off-airport parking, hotel/motel, charter, and TAG as members of the 8 representatives allotted for other groups and residents of San Diego County. Motion carried by the following votes: YES – Boling, Cox, Desmond, Kersey, Lloyd, Robinson, Schumacher, West; NO – None; ABSENT – Schiavoni; (Weighted Vote Points: YES – 87; NO – 0; ABSENT – 13).

The Board recessed at 10:32 a.m. and reconvened at 11:10 a.m.

CLOSED SESSION: The Board recessed into Closed Session at 11:11 a.m. to discuss Items 26, 27 and 30.

STAFF REPORT

Meeting Date: **NOVEMBER 1, 2018**

Subject:

Acceptance of Board and Committee Members Written Reports on Their Attendance at Approved Meetings and Pre-Approval of Attendance at Other Meetings Not Covered by the Current Resolution

Recommendation:

Accept the reports and pre-approve Board Member attendance at other meetings, trainings and events not covered by the current resolution.

Background/Justification:

Authority Policy 1.10 defines a “day of service” for Board Member compensation and outlines the requirements for Board Member attendance at meetings.

Pursuant to Authority Policy 1.10, Board Members are required to deliver to the Board a written report regarding their participation in meetings for which they are compensated. Their report is to be delivered at the next Board meeting following the specific meeting and/or training attended. The reports (Attachment A) were reviewed pursuant to Authority Policy 1.10 Section 5 (g), which defines a “day of service”. The reports were also reviewed pursuant to Board Resolution No. 2009-0149R, which granted approval of Board Member representation for attending events and meetings.

The attached reports are being presented to comply with the requirements of Policy 1.10 and the Authority Act.

The Board is also being requested to pre-approve Board Member attendance at meetings of the multi-agency policy group addressing off-airport roadway access and the Ad Hoc Ground Transportation Committee.

Fiscal Impact:

Board and Committee Member Compensation is included in the FY 2019 Budget.

Authority Strategies:

This item supports one or more of the Authority Strategies, as follows:

- Community Strategy Customer Strategy Employee Strategy Financial Strategy Operations Strategy

Environmental Review:

- A. This Board action is not a project that would have a significant effect on the environment as defined by the California Environmental Quality Act (CEQA), as amended. 14 Cal. Code Regs. Section 15378. This Board action is not a "project" subject to CEQA. Pub. Res. Code Section 21065.
- B. California Coastal Act Review: This Board action is not a "development" as defined by the California Coastal Act, Pub. Res. Code Section 30106.

Application of Inclusionary Policies:

Not applicable.

STAFF REPORT

Meeting Date: **NOVEMBER 1, 2018**

Subject:

Awarded Contracts, Approved Change Orders from September 10, 2018 through October 7, 2018 and Real Property Agreements Granted and Accepted from September 10, 2018 through October 7, 2018

Recommendation:

Receive the Report.

Background/Justification:

Policy Section Nos. 5.01, Procurement of Services, Consulting, Materials, and Equipment, 5.02, Procurement of Contracts for Public Works, and 6.01, Leasing Policy, require staff to provide a list of contracts, change orders, and real property agreements that were awarded and approved by the President/CEO or her designee. Staff has compiled a list of all contracts, change orders (Attachment A) and real property agreements (Attachment B) that were awarded, granted, accepted, or approved by the President/CEO or her designee since the previous Board meeting.

Fiscal Impact:

The fiscal impact of these contracts and change orders are reflected in the individual program budget for the execution year and on the next fiscal year budget submission. Amount to vary depending upon the following factors:

1. Contracts issued on a multi-year basis; and
2. Contracts issued on a Not-to-Exceed basis.
3. General fiscal impact of lease agreements reflects market conditions.

The fiscal impact of each reported real property agreement is identified for consideration on Attachment B.

Authority Strategies:

This item supports one or more of the Authority Strategies, as follows:

- Community Strategy Customer Strategy Employee Strategy Financial Strategy Operations Strategy

Environmental Review:

- A. CEQA: This Board action is not a project that would have a significant effect on the environment as defined by the California Environmental Quality Act ("CEQA"), as amended. 14 Cal. Code Regs. §15378. This Board action is not a "project" subject to CEQA. Cal. Pub. Res. Code §21065.
- B. California Coastal Act Review: This Board action is not a "development" as defined by the California Coastal Act. Cal. Pub. Res. Code §30106.

Application of Inclusionary Policies:

Inclusionary Policy requirements were included during the solicitation process prior to the contract award.

STAFF REPORT

Meeting Date: **NOVEMBER 1, 2018**

Subject:

November 2018 Legislative Report

Recommendation:

Adopt Resolution No. 2018-0119, approving the November 2018 Legislative Report.

Background/Justification:

The Authority's Legislative Advocacy Program Policy requires that staff present the Board with monthly reports concerning the status of legislation with potential impact to the Authority. The Authority Board provides direction to staff on legislative issues by adoption of a monthly Legislative Report (Attachment A). The November 2018 Legislative Report updates Board members on legislative activities that have taken place since the previous Board meeting. In directing staff, the Authority Board may take a position on pending or proposed legislation that has been determined to have a potential impact on the Authority's operations and functions.

State Legislative Action

The Authority's legislative team does not recommend that the Board adopt any new positions on state legislation.

The California State Legislature is scheduled to convene its 2019-2020 legislative session for organizational purposes on December 3, 2018.

Federal Legislative Action

On September 28th, President Trump signed into law a spending package that includes a continuing resolution to ensure that funding for federal agencies will continue through December 7, 2018.

On October 5th, the President signed into law H.R. 302, legislation reauthorizing for five-years Federal Aviation Administration (FAA) programs, taxes, and fees and reauthorizing the Transportation Security Administration (TSA) for three years. The FAA Reauthorization section of the bill maintains the current level of Airport Improvement Program funding at \$3.35 billion per year through FY 2023, and did not raise the current \$4.50 cap on Passenger Facility Charges (PFC). However, the bill did streamline the PFC application and approval process. The TSA reauthorization section of the bill added a number of aviation security provisions, authorizes \$55 million annually for the TSA Law Enforcement Officer reimbursement program, and authorizes \$77 million annually for TSA to staff exit lanes at airports.

The FAA recently released its National Plan on Integrated Airport Systems (NPIAS) report, which estimates a need to fund approximately \$35.1 billion in Airport Improvement Plan (AIP) – eligible airport projects for FY 2019-2023.

Fiscal Impact:

Not applicable.

A RESOLUTION OF THE BOARD OF THE
SAN DIEGO COUNTY REGIONAL AIRPORT
AUTHORITY, APPROVING THE NOVEMBER 2018
LEGISLATIVE REPORT

WHEREAS, the San Diego County Regional Airport Authority (“Authority”) operates San Diego International Airport and plans for necessary improvements to the regional air transportation system in San Diego County, including serving as the responsible agency for airport land use planning within the County; and

WHEREAS, the Authority has a responsibility to promote public policies consistent with the Authority’s mandates and objectives; and

WHEREAS, Authority staff works locally and coordinates with legislative advocates in Sacramento and Washington, D.C. to identify and pursue legislative opportunities in defense and support of initiatives and programs of interest to the Authority; and

WHEREAS, under the Authority’s Legislative Advocacy Program Policy, the Authority Board provides direction to Authority staff on pending legislation; and

WHEREAS, the Authority Board, in directing staff, may adopt positions on legislation that has been determined to have a potential impact on the Authority’s operations and functions.

NOW, THEREFORE, BE IT RESOLVED that the Board hereby approves the November 2018 Legislative Report (“Attachment A”); and

BE IT FURTHER RESOLVED that the Board finds that this action is not a “project” as defined by the California Environmental Quality Act (“CEQA”) (California Public Resources Code §21065); and is not a “development” as defined by the California Coastal Act (California Public Resources Code §30106).

Legislation/Topic

AB 87 (Ting) – Autonomous Vehicles

Background/Summary

To comply with state law enacted in 2012, the Department of Motor Vehicles (DMV) drafted proposed regulations governing the full deployment of autonomous vehicles on California roads. As amended, AB 87 authorizes a peace officer or specified public employee, to remove from a highway a vehicle that uses autonomous technology if there is no approved application or permit to test, deploy, or otherwise operate the autonomous vehicle on public roads.

Anticipated Impact/Discussion

While this legislation is not expected to have any significant immediate impact on the Airport Authority or San Diego International Airport, its enactment could impact future ground transportation operations at the airport as autonomous vehicle use evolves.

AB 427(Muratsuchi) – California Aerospace and Aviation Commission

Background/Summary

As amended, AB 427 would have established a 17-member California Aerospace and Aviation Commission (Commission) within the Governor’s Office of Business and Economic Development (GO-Biz). One of the Commission members would have represented a commercial airport. The purpose of this Commission was to serve as a central point of contact for businesses engaged in the aerospace and aviation industries, and to support the health and competitiveness of these industries in California. AB 427 would have required the Commission to make recommendations on

legislative and regulatory action that may be necessary or helpful to maintain or improve the state's aerospace and aviation industries and would have required the Commission to report and provide recommendations to the Governor and State Legislature.

Anticipated Impact/Discussion

Although this legislation was not expected to have any significant impact on the Airport Authority or San Diego International Airport, the Authority's legislative team was prepared to work with the California Airports Council to identify any potential opportunities to engage with the Commission on actions that could have impacted California airports.

AB 2873 (Low) – Personal Vehicle Sharing: Recalled Vehicles

Background/Summary

AB 2873 prohibits a personal vehicle sharing program from facilitating or arranging a vehicle for transportation if that vehicle is subject to a manufacturer's safety recall.

Anticipated Impact/Discussion

Although this bill is not expected to significantly impact ground transportation operations at San Diego International Airport, staff will review our regulations for any necessary changes following the enactment of AB 2873.

potable water. The purpose of this action is to assist local governments in developing oversight and management programs for on-site non-potable water systems.

Anticipated Impact/Discussion

The City of San Diego and the County of San Diego neither permit nor prohibit the reuse of captured stormwater or condensate. SB 966 provides the City and County with the guidance they need to permit the uses the Airport Authority has implemented and is contemplating which could help support the Airport Authority’s goals and efforts to capture and reuse stormwater and air conditioning condensate.

SB 1376 (Hill) – Transportation Network Company Accessibility Plan

Background/Summary

Existing law requires a transportation network company (TNC) to allow passengers to indicate whether they require a wheelchair-accessible vehicle (WAV) or vehicles otherwise accessible to individuals with disabilities when requesting a ride. SB 1376 creates the “TNC Access for All Act,” in an effort to facilitate the increased use of WAVs by TNCs and their drivers. Beginning on July 1, 2019, the California Public Utilities Commission (CPUC) will require each TNC to pay a fee of at least \$0.05 dollars per TNC trip completed. The CPUC may exempt a TNC from paying the access fee if the TNC meets certain criteria and may adjust the fee based on the amount the TNC invests in WAV service. The collected fees will be distributed to access providers that provide on-demand transportation to meet the needs of individuals with disabilities. The program is set to sunset on January 1, 2026.

Anticipated Impact/Discussion

This bill will not directly impact San Diego International Airport.

Federal Legislation

New House Bills

Legislation/Topic

H.R. 302 (Guthrie) – Federal Aviation Administration (FAA) Reauthorization Act of 2018

Background/Summary

This legislation authorizes FAA operations and related programs for five years and Transportation Security Administration (TSA) operations and related programs for three years.

The FAA Reauthorization portion of the bill would:

- Maintain the current level of funding for the Airport Improvement Program (AIP) at \$3.35 billion annually through Fiscal Year 2023
- Retain the current \$4.50 Passenger Facility Charge (PFC) cap
- Streamline the PFC application and approval process
- Require the Department of Transportation to hire an independent organization to conduct a study on upgrading and restoring the nation's airport infrastructure
- Require the Government Accountability Office (GAO) to conduct a study on repealing the revenue diversion grandfathering provision
- Provide for airport noise and environmental regulation streamlining and direct the FAA to initiate a study to review and evaluate noise impacts on communities surrounding airports
- Require the FAA to test Unmanned Aircraft System (UAS) hazard mitigation systems at public-use airports
- Make it a crime to knowingly interfere or disrupt the operation of a manned aircraft with unmanned aircraft, or knowingly operate an unmanned aircraft in a runway exclusion zone near an airport

The TSA Reauthorization portion of the bill would:

- Authorize \$55 million annually for the TSA Law Enforcement Officer (LEO) reimbursement program, allowing the TSA to increase the number and size of grants the agency can award to airports
- Authorize \$77 million annually for TSA to staff exit lanes
- Establish a five-year term for the TSA Administrator
- Require TSA to conduct a cost and feasibility study of enhanced employee inspection measures at airports
- Direct the TSA to establish standards for the certification of third party explosive detection canines for passenger and property screening
- Limit the use of PreCheck lanes only to travelers who are a member of PreCheck or another Department of Homeland Security trusted traveler program

*Shaded text represents new or updated legislative information

- Require TSA to develop modified risk screening protocols for lanes other than designated PreCheck lanes for use by low-risk passengers

Anticipated Impact/Discussion

This bill does not include any adjustment to the current \$4.50 PFC limit established by Congress in 2000, and maintains the current funding level for the Airport Improvement Program (AIP). As a result, this legislation essentially maintains the status quo for the financing of airport infrastructure projects instead of providing new funding opportunities for San Diego International Airport (SDIA). The bill contains more than 40 separate provisions regarding drones or unmanned aerial systems (UAS). While many of the provisions address regulation of UAS in flight and don't directly relate to airports, they are expected to have an effect on airport operations. In addition, this bill does not include any provision that could position SDIA to compete for nonstop service to Ronald Reagan Washington National Airport.

Status: 10/5/18 – Signed into law by the President

Position: Oppose Unless Amended

House Bills from Previous Report

Legislation/Topic

H.R. 4 (Shuster) – Federal Aviation Administration (FAA) Reauthorization Act of 2018

Background/Summary

This legislation would authorize FAA operations and related programs for the next five years. Specifically, this bill would:

- Maintain current level of funding for the Airport Improvement Program (AIP) at \$3.35 billion annually through Fiscal Year 2023
- Retain the current \$4.50 Passenger Facility Charge (PFC) cap
- Eliminate the PFC significant contribution test for large and medium hub airports
- Streamline the PFC application and approval process for small, medium and large
- Remove the provision from the 2017 FAA Reauthorization bill that would have separated the air traffic control functions from the FAA and created a “federally-charted, fully independent, not-for-profit corporation.”

*Shaded text represents new or updated legislative information

Anticipated Impact/Discussion

This bill does not include any adjustment to the current \$4.50 PFC limit established by Congress in 2000, and maintains flat funding for the Airport Improvement Program (AIP). As a result, this legislation would essentially maintain the status quo for the financing of airport infrastructure projects instead of providing new funding opportunities for San Diego International Airport (SDIA) improvement projects. In addition, this bill does not include any provision that could position SDIA to compete for nonstop service to Ronald Reagan Washington National Airport.

Status: 4/27/18 – Passed by the House on a vote of 393 to 13
10/5/18 – Following the passage of H.R. 302, no further action is expected on this bill

Position: Oppose Unless Amended (5/3/18)

Legislation/Topic

H.R. 598 (Lynch) – Airplane Impacts Mitigation Act of 2017

Background/Summary

H.R. 598, the “Airplane Impacts Mitigation Act of 2017”, would require the Federal Aviation Administration (FAA) to enter into an agreement with an eligible institution of higher education to conduct a study of the health impacts of airplane flights on residents exposed to a range of noise and air pollution levels from flights. The study is directed to:

- Focus on residents in Boston, Chicago, New York, the northern California Metroplex, Phoenix, and not more than three additional metropolitan areas each containing an international airport
- Consider the health impacts on residents living partly or entirely within the land underneath the flight paths most frequently used by aircraft flying below 10,000 feet
- Consider only the health impacts that manifest during the physical implementation of the NextGen program on flights departing from or arriving to an international airport located in one of the designated metropolitan areas

Anticipated Impact/Discussion

Although this bill is not expected to directly impact operations at San Diego International Airport, the information collected by the study may be useful in helping the Airport Authority accurately describe any environmental and health impacts of the FAA’s recently implemented NextGen program.

Status: 1/20/17 – Introduced in the House and Referred to House Committee on Transportation and Infrastructure

Position: Support (3/2/17)

*Shaded text represents new or updated legislative information

Legislation/Topic

H.R. 665 (Keating) – Airport Perimeter and Access Control Security Act of 2017

Background/Summary

H.R. 665, the “Airport Perimeter and Access Control Security Act of 2017,” would direct the Transportation Security Administration (TSA) to update:

- The Transportation Sector Security Risk Assessment for the aviation sector
- The Comprehensive Risk Assessment of Perimeter and Access Control Security for airports (as well as conduct a system-wide assessment of airport access control points and airport perimeter security)
- The 2012 National Strategy for Airport Perimeter and Access Control Security

Anticipated Impact/Discussion

Although this bill is not expected to impact operations at San Diego International Airport, the updating of assessments by the TSA may lead to the future implementation of new security requirements. The Authority’s legislative team will identify any unfunded mandates resulting from these proposed actions.

Status: 1/31/17 – Approved by the House on a voice vote and referred to Senate Committee on Commerce, Science and Transportation

Position: Watch (3/2/17)

Legislation/Topic

H.R. 678 (McSally) – Department of Homeland Security Support to Fusion Centers Act of 2017

Background/Summary

Fusion centers were created to promote information sharing at the federal level between agencies such as the Central Intelligence Agency, the U.S. Department of Justice, the U.S. military and state and local governments. H.R. 678, the “Department of Homeland Security Support to Fusion Centers Act of 2017” would:

- Direct the Comptroller General to conduct an assessment of Department of Homeland Security (DHS) personnel assigned to fusion centers
- Direct the Under Secretary of Intelligence and Analysis of the DHS to provide eligibility for access to information classified as Top Secret for analysts at fusion centers, and submit a report to the Committee on Homeland Security, Permanent House Select Committee on Intelligence, Committee on Homeland Security and Government Affairs and Senate Select Committee on Intelligence
- Direct the Chief Information officer of the DHS to conduct an assessment of information systems used to share homeland security information between fusion centers and the Department

*Shaded text represents new or updated legislative information

Anticipated Impact/Discussion

Although this bill is not expected to impact operations at San Diego International Airport, it will be monitored closely for any potential impact to DHS or Customs and Border Protection procedures.

Status: 1/31/17 – Approved by the House on a voice vote and Referred to Senate Committee on Homeland Security and Governmental Affairs

Position: Watch (3/2/17)

Legislation/Topic

H.R. 1265 (DeFazio) – Investing in America: Rebuilding America’s Airport Infrastructure Act

Background/Summary

H.R. 1265, the “Investing in America: Rebuilding America’s Airport Infrastructure Act”, would provide airports the Airport Authority to establish a passenger facility charge (PFC) of their choosing by eliminating the current \$4.50 Congressionally-set PFC limit. This bill would also reduce Airport Improvement Program (AIP) funding by \$400 million annually and eliminate large hub airports’ entitlement to AIP grants if those airports collect PFCs greater than \$4.50.

Anticipated Impact/Discussion

H.R. 1265 would provide the Airport Authority with the ability to establish a PFC based on San Diego International Airport funding needs rather than relying on the current PFC limit of \$4.50 per passenger established by Congress in 2000.

Status: 3/2/17 – Introduced and referred to House Committee on Transportation and Infrastructure

Position: Support (4/6/17)

Legislation/Topic

H.R. 2514 (DeFazio) – Funding for Aviation Screeners and Threat Elimination Restoration Act

Background/Summary

H.R. 2514 would ensure that revenues collected from passengers as aviation security fees are used to help finance the costs of aviation security screening by repealing a requirement that a portion of these fees be deposited in the federal government’s general fund.

*Shaded text represents new or updated legislative information

Anticipated Impact/Discussion

Enactment of this legislation would ensure that aviation security fees are used for their stated purpose, and help to ensure that funding is available to provide an adequate level of screening at the nation's airports.

Status: 5/18/17 – Introduced and referred to House Committee on Homeland Security

Position: Support (1/4/18)

Legislation/Topic

H.R. 2800 (DeFazio) – Aviation Funding Stability Act

Background/Summary

This legislation would take the Airport and Airway Trust Fund off budget in an effort to protect Trust Fund revenue from sequestration and potential budget cuts. This bill would also require the Federal Aviation Administration (FAA) to develop a streamlined procurement system for the acquisition of NextGen technology and update its personnel management system. In addition, H.R. 2800 would elevate the role of the Management Advisory Council and authorize funds to rebuild and modernize U.S. air traffic control facilities.

Anticipated Impact/Discussion

Enactment of H.R. 2800 might benefit the Airport Authority by insulating the Airport and Airway Trust fund from potential reductions in funding for FAA-related operations. In addition, this legislation could expedite the modernization of the national air traffic control system.

Status: 6/7/17 – Introduced and Referred to House Committees on Transportation and Infrastructure, Armed Services, the Budget, and Appropriations

Position: Watch (7/6/17)

*Shaded text represents new or updated legislative information

Legislation/Topic

H.R. 2997 (Shuster) – 21st Century Aviation Innovation, Reform, & Reauthorization Act

Background/Summary

This legislation would authorize Federal Aviation Administration (FAA) operations and related programs for the next six years. Specifically, this bill would:

- Transfer air traffic control functions from the FAA to a new not-for-profit corporation
- Include one airport representative to serve on the 13-member board of directors for the new ATC corporation
- Increase annual Airport Improvement Program (AIP) funding to a level of \$3.8 billion in Fiscal Year 2023
- Retain the current \$4.50 Passenger Facility Charge (PFC) cap
- Streamline and expedite the PFC reporting and review process
- Eliminate the PFC significant contribution test for large and medium hub airports

Anticipated Impact/Discussion

Although San Diego International Airport (SDIA) might potentially benefit from the AIP increases included in H.R. 2997, this bill does not include any adjustment to the current \$4.50 PFC limit established by Congress in 2000. As a result, this legislation would essentially maintain the status quo for the financing of airport infrastructure projects instead of providing new funding opportunities for SDIA improvement projects. In addition, this bill does not include any provision that could position SDIA to compete for nonstop service to Ronald Reagan Washington National Airport.

H.R. 4559 (Estes) – Global Aviation System Security Reform Act

Background/Summary

This legislation would require that the Transportation Security Administration (TSA) undertake several actions, including the following:

- Conduct a coordinated global aviation security review within 90 days to address ways to improve aviation security standards across the globe, including cybersecurity threats
- Establish best practices based on this review and report to Congress on the actions that the TSA Administrator has taken to implement these practices

H.R. 4561 (Bilirakis) – Security Assessment Feasibility for Equipment Testing and Evaluation of Capabilities for Our Homeland Act

Background/Summary

This legislation would authorize third-party testing of transportation security screening technology and ensure that third-party entities do not have a financial stake in vendor technology being tested. The bill would also require that any entity providing third-party testing be owned and controlled by U.S. citizens and require Transportation Security Administration to establish a coordinated program for detection testing within a year.

Anticipated Impact/Discussion

This legislation is not expected to have any significant impact on the Airport Authority or San Diego International Airport if enacted.

H.R. 4627 (Donovan) – Shielding Public Spaces from Vehicular Terrorism Act

Background/Summary

H.R. 4627 would amend the Homeland Security Act of 2002 to authorize expenditures to combat emerging terrorist threats, including vehicular attacks. The bill expands eligibility of Department on Homeland Security grants through the Urban Area Security Initiative and the State Homeland Security Grant Program to include “addressing security vulnerabilities of public spaces, including through the installation of bollards and other target hardening activities.”

Anticipated Impact/Discussion

Although this bill is not expected to directly impact operations at San Diego International Airport, it will be monitored closely for any potential grant funding opportunities.

H.R. 4737 (Wasserman-Schultz) – Airport Advanced Logistics, Emergency Response and Training (Airport ALERT) Act

Background/Summary

This legislation would require all Category X airports to establish integrated Airport Operations Centers. It would also require airports to include security and emergency preparedness training requirements in their Airport Security Plan (ASP), including mass evacuation plans, risk communication plans, continuity of operations plans and airport family assistance and customer care plans.

Anticipated Impact/Discussion

As San Diego International Airport (SDIA) is currently classified as a Category 1 airport, the requirement in H.R. 4737 for Category X airports to have an integrated and unified operations center would not currently apply to SDIA. Additionally, although this legislation does not provide adequate details concerning the specific mandates in the bill, H.R. 4737 is expected to require the Airport Authority to undertake several unfunded actions that would be duplicative of security-related activities currently conducted by Authority staff. Authority staff will work with airport advocacy associations who plan to discuss their concerns with this bill with the author in an effort to improve this legislation.

H.R. 5003 (Hultgren) – Amend the Internal Revenue Code of 1986 to Reinstate Advance Refunding Bonds

Background/Summary

The Tax Cuts and Jobs Act (H.R. 1), signed into law in 2017, eliminated advance refunding of bonds. H.R. 5003 would amend the Internal Revenue Code of 1986 to reinstate advance refunding of bonds, restoring the flexibility for the management of municipal debt that may assist state and local governments finance infrastructure projects.

*Shaded text represents new or updated legislative information

Anticipated Impact/Discussion

Although it is unclear at this time if the Airport Authority will advance refund bonds in the future, this bill might benefit the Airport Authority by providing the flexibility to advance refund bonds if necessary, depending on future financial market conditions.

H.R. 6265 (Katko) – PreCheck is PreCheck Act of 2018

Background/Summary

This legislation would limit the Transportation Security Administration's (TSA) use of PreCheck lanes to only those travelers who are enrolled in PreCheck or other Department of Homeland Security (DHS) Trusted Traveler programs within one year of enactment of this Act. This legislation would require TSA to develop modified risk screening protocols for lanes other than designated PreCheck lanes for use by low-risk passengers and would require TSA to develop and implement a long-term strategy to increase enrollment in PreCheck to expand the total population of trusted travelers.

Anticipated Impact/Discussion

Although this bill is not expected to impact operations at San Diego International Airport, it will be monitored closely for any potential impact to TSA screening protocols including PreCheck or other Trusted Traveler programs.

H.R. 6461 (Coleman) – TSA National Deployment Force Act

Background/Summary

This legislation would establish within the Transportation Security Administration (TSA) a national deployment force, authorizing the use of this new workforce to provide rapid and efficient response to augment homeland security operations:

- When airports need temporary personnel due to an emergency, seasonal demands, hiring shortfalls, severe weather conditions, passenger volume mitigation, equipment support or other reasons
- When special events require additional security occur

*Shaded text represents new or updated legislative information

- In response to the aftermath of a manmade disaster, including a terrorist attack

S. 271 (Fischer) – Build USA Infrastructure Act

Background/Summary

S. 271, the “Build USA Infrastructure Act” would divert \$21.4 billion annually in Customs and Border Protection (CBP) passenger and freight user fees to the Highway Trust Fund. This funding would be diverted for a five-year period, beginning October 1, 2020.

Anticipated Impact/Discussion

Airports Council International – North America (ACI-NA) strongly opposes this bill. User fees should be applied for their intended use, not diverted to subsidize other programs, especially as CBP continues to face significant staffing shortfalls and technological challenges. As San Diego International Airport continues to expand international air service, this bill could have a negative impact on CBP’s ability to effectively process international passengers.

Legislation/Topic

S. 1405 (Thune) – Federal Aviation Administration Reauthorization Act of 2017

Background/Summary

This legislation would authorize FAA operations and related programs for the next four years. Specifically, this bill would:

- Increase annual Airport Improvement Program (AIP) funding to a level of \$3.75 billion in Fiscal Years 2019-2021
- Retain the current \$4.50 Passenger Facility Charge (PFC) cap
- Streamline and expedite the PFC reporting and review process
- Eliminate the PFC significant contribution test for large and medium hub airports
- Require the Department of Transportation to hire an independent organization to conduct a study on upgrading and restoring the nation's airport infrastructure

Anticipated Impact/Discussion

Although San Diego International Airport (SDIA) might potentially benefit from the AIP increases included in S. 1405, this bill does not include any adjustment to the current \$4.50 PFC limit established by Congress in 2000. As a result, this legislation would essentially maintain the status quo for the financing of airport infrastructure projects instead of providing new funding opportunities for SDIA improvement projects. In addition, this bill does not include any provision that could position SDIA to compete for nonstop service to Ronald Reagan Washington National Airport.

Status: 6/29/17 – Approved by Senate Committee on Commerce, Science and Transportation on a voice vote

S. 1733 (Van Hollen) – Customers Not Cargo Act

Background/Summary

This proposed legislation would prohibit airlines from forcibly removing passengers after they have already boarded the plane due to overbooking or airline staff seeking to fly as passengers. It would also require the establishment of standards to resolve oversales once an aircraft has been boarded.

Anticipated Impact/Discussion

This bill is not expected to directly impact operations at San Diego International Airport.

Status: 4/12/17 – Introduced and Referred to Senate Committee on Commerce, Science and Transportation

Position: Watch (5/4/17)

Legislation/Topic

S. 1757 (Cornyn) – Building America’s Trust Act

Background/Summary

S. 1757 would authorize approximately \$15 billion over four years for border security and enforcement activities. Specific actions include:

- Requires the deployment of multi-layered tactical infrastructure across the southern U.S. border which, at the Secretary of DHS’s discretion, could include a wall system, fencing, levees, technology, or other physical barriers
- Increases the number of Border Patrol agents, Customs and Border Protection (CBP) Officers at ports, agricultural inspectors, Immigration and Customs Enforcement officers, immigration judges and federal prosecutors
- Streamline the CBP hiring process for military veterans and law enforcement personnel
- Requires CBP to deploy a biometric entry system at fifteen U.S. airports within 18 months and at all U.S. airports within five years

Anticipated Impact/Discussion

While several provisions in S. 1757 could provide additional CBP staffing resources at CBP’s San Diego port, some elements of this bill may be considered by community leaders to be a deterrent to the cross-border trade and tourism that currently benefits the regional economy.

Status: 8/3/17 – Introduced in the Senate

Position: Watch (9/7/17)

Legislation/Topic

S. 1872 (Thune) – TSA Modernization Act

Background/Summary

This legislation would reauthorize Transportation Security Administration (TSA) programs for three years. The bill includes several provisions that would benefit airports, including \$55 million in additional funding for the law enforcement officer (LEO) reimbursement program and continued funding that would allow TSA officers to continue to staff airport exit lanes instead of shifting that responsibility to airports as proposed by the Trump administration. The bill would also establish a five-year term for the TSA Administrator, similar to the FAA Administrator's term and requires TSA to significantly expand the PreCheck program.

Anticipated Impact/Discussion

Enactment of this legislation would ensure the availability of federal funding for several programs of importance to SDIA while enhancing the development and acquisition of new security technologies which could be incorporated into the SDIA security process.

Status: 6/6/18 – Approved by Senate Committee on Commerce, Science and Transportation
10/5/18 – Following the passage of H.R. 302, no further action is expected on this bill

S. 2314 (McCaskill) – The Border and Port Security Act

Background/Summary

This bill would require the Commissioner of Customs and Border Protection (CBP) to hire, train, and assign at least 500 new CBP officers annually until the number of CBP officers equals the number of CBP officers needed under the CBP's Workload Staffing Model.

Anticipated Impact/Discussion

If enacted, this bill could potentially result in additional CBP officers at San Diego International Airport depending on the allocation of the additional CBP officers that would be hired pursuant to this bill. California Senator Kamala Harris is a cosponsor of S. 2314.

Status: 1/10/18 – Introduced and Referred to Senate Committee on Homeland Security and Governmental Affairs

S. 2422 (Warren) – Study on the Health Impacts of Air Traffic Noise and Pollution

Background/Summary

S. 2422 would require the Administrator of the Federal Aviation Administration to enter into an arrangement with the Health and Medicine Division of the National Academies of Sciences, Engineering, and Medicine to convene a committee of experts in health and environmental science to examine the various health impacts of air traffic noise and pollution.

Anticipated Impact/Discussion

Although this bill is not expected to directly impact operations at San Diego International Airport, the information collected by the study may be useful in helping the Airport Authority describe any potential health or impacts of air traffic noise and pollution.

Status: 2/13/18 – Introduced and Referred to Senate Committee on Science, Commerce and Transportation

Legislation/Topic

S. 2836 (Johnson) – Preventing Emerging Threats Act of 2018

Background/Summary

The goal of S. 2836 is to assist the Department of Homeland Security in preventing emerging threats from unmanned aircraft systems (UAS) and vehicles. Specifically, this bill:

- Gives the Department of Homeland Security (DHS) and the Department of Justice the authority they need to protect important buildings and assets when there is a security risk posed by a UAS
- Directs DHS to perform research and testing of technology
- Requires DHS to conduct several assessments to evaluate emerging threats that drones may pose to state or private critical infrastructures and domestic large hub airports as well as emerging threats of vehicles “vehicular terrorism” when used to inflict violence and intimidation on individuals
- Includes a 5-year sunset provision

Anticipated Impact/Discussion

This bill could benefit the San Diego International Airport (SDIA) by providing law enforcement officials with additional enforcement tools to deter unsafe UAS operations near SDIA.

S. 2859 (Peters) – Secure Airport Public Spaces Act of 2018

Background/Summary

S. 2859 would add a provision to allow for the use of passenger facility charge (PFC) revenue to enhance security at airports including projects for the construction, repair, or improvement of facilities at an airport, or for the acquisition or installation of equipment at an airport directly and substantially related to the movement of passengers and baggage in air transportation. The bill would also make projects for the installation of security cameras eligible for the Airport Improvement Program (AIP).

Anticipated Impact/Discussion

This bill could benefit the San Diego International Airport by increasing eligibility for the use of PFCs or AIP grants for security related projects, although, this bill does not include any adjustment to the current \$4.50 PFC limit established by Congress in 2000.

STAFF REPORT

Meeting Date: **NOVEMBER 1, 2018**

Subject:

Appointments to Board Committees, Liaison Positions, Other Representative and Alternate Positions

Recommendation:

Adopt Resolution No. 2018-0123, appointing Board Member Johanna Schiavoni as an alternate to the SANDAG Transportation Committee.

Background/Justification:

Public Utilities Code §132351.4(a)(2)(A) provides that a member of the Authority Board shall serve on the SANDAG transportation committee.

Pursuant to California Code Regulation Section 18702.5, *Materiality Standard: Financial Interest in a Personal Financial Effect*, the Authority is now required to post on its website, an F.P.P.C. Form 806 (See Exhibit A), listing all paid appointed positions on boards, committees, or commissions of a public agency, prior to the appointments being made.

Pursuant to Authority Policy 1.50(5)(b), the Board must appoint a representative to the San Diego Association of Governments (SANDAG) Transportation Committee.

Most committee terms are due to expire in February 2018. It is recommended that the Board appoint Board Member Schiavoni as an alternate to the SANDAG Transportation Committee.

The responsibilities of the SANDAG Transportation Committee are as follows:

SANDAG Transportation Committee - The Transportation Committee advises the SANDAG Board of Directors on major policy-level matters related to transportation. This Committee assists in the preparation of the Regional Transportation Plan (RTP) and other regional transportation planning and programming efforts. It provides oversight for the major highway, transit, regional arterial, and regional bikeway projects funded under the Regional Transportation Improvement Program, including the *TransNet* Program of Projects. Areas of interest include project schedules, costs, and scope.

Fiscal Impact:

Legislation limits compensation for Board Members to \$200 per day of service, with a maximum of eight (8) days per month. Adequate funds for Board Member compensation are included in the Authority Board Department adopted FY 2019 and conceptually approved FY 2020 Operating Expense Budgets.

Authority Strategies:

This item supports one or more of the Authority Strategies, as follows:

- Community Strategy Customer Strategy Employee Strategy Financial Strategy Operations Strategy

Environmental Review:

- A. This Board action is not a project that would have a significant effect on the environment as defined by the California Environmental Quality Act (CEQA), as amended. 14 Cal. Code Regs. §15378. This Board action is not a "project" subject to CEQA. Pub. Res. Code §21065.

- B. California Coastal Act Review: This Board action is not a "development" as defined by the California Coastal Act. Pub. Res. Code §30106.

JOHANNA SCHIAVONI AS AN ALTERNATE TO THE
SANDAG TRANSPORTATION COMMITTEE

WHEREAS, Public Utilities Code §132351.4(a)(2)(A) provides that a member of the Authority Board shall serve on the SANDAG transportation committee; and

WHEREAS, the Board wishes to appoint Board Schiavoni as an alternate to the SANDAG Transportation Committee; and

WHEREAS, pursuant to California Code Regulation Section 18702.5, *Materiality Standard: Financial Interest in a Personal Financial Effect*, the Authority is now required to post on its website F.P.P.C. Form 806, listing all the paid appointed positions on boards, committees, or commissions of a public agency; and

WHEREAS, in accordance with the requirements of the California Code of Regulations §18702.5, F.P.P.C. Form 806 outlining the appointments to boards, commissions, and committees, was posted on the Authority website with the staff report.

NOW, THEREFORE, BE IT RESOLVED that the Board hereby approves the appointment of Board Member Schiavoni as an alternate to the SANDAG Transportation Committee as indicated in "Attachment A".

BE IT FURTHER RESOLVED that the Board finds that this Board action is not a "project" as defined by the California Environmental Quality Act (CEQA), Pub. Res. Code §21065; and is not a "development" as defined by the California Coastal Act, Pub. Res. Code §30106.

STAFF REPORT

Meeting Date: **NOVEMBER 1, 2018**

Subject:

Reject the Claim of Jian Xu

Recommendation:

Adopt Resolution No. 2018-0120, rejecting the claim of Jian Xu.

Background/Justification:

On September 21, 2018, Jian Xu filed a claim ("Attachment A") with the San Diego County Regional Airport Authority ("Authority") alleging his mother slipped on a pool of water in the lobby area of Terminal One at San Diego International Airport. Xu claims damages in the amount of \$1,623.05 to cover medical treatment and medical supplies.

On June 18, 2018, Xu was with his mother, Xiaoyun Sun, in Terminal One at the San Diego International Airport. He states there was a pool of water on the ground and Sun slipped on the water and twisted her ankle badly. He further states that a Harbor Police Office witnessed the incident. Sun was transported to UCSD hospital.

Xu's claim should be denied. An investigation into the alleged incident revealed no notice of a dangerous condition. Harbor Police were called to the scene after the incident and no officer witnessed the fall. An inspection was conducted and no water was found. The General Counsel has reviewed the claim and recommends rejection.

Fiscal Impact:

Not applicable.

STAFF REPORT

Meeting Date: **NOVEMBER 1, 2018**

Subject:

Reject the Claim of Stuart Hirsch

Recommendation:

Adopt Resolution No. 2018-0121, rejecting the claim of Stuart Hirsch.

Background/Justification:

On September 24, 2018, Stuart Hirsch filed a claim ("Attachment A") with the San Diego County Regional Airport Authority ("Authority") alleging the amount of airplane noise at his home has increased intolerably by Lufthansa Airbus 340-300 aircraft as it departs San Diego International Airport. Hirsch demands abatement of the noise and undetermined fees and costs.

Stuart Hirsch is a resident of Point Loma who declined to participate in the Quieter Homes Program administered by the San Diego County Regional Airport Authority. He alleges the amount of airplane noise at his home recently increased intolerably when Lufthansa flies its Airbus 340-300 aircraft in and out of San Diego International Airport. He claims they are louder, lower and slower than other aircraft, causing a nuisance and disturbing his family's right to quiet enjoyment of their property. He makes this claim on behalf of himself, his family and every other resident of the Loma Portal and Point Loma Heights neighborhoods

Hirsch's claim should be denied. The Airport Authority does not control the particular type of aircraft a tenant airline uses for its flight operations, nor does the Authority determine the arrival or departure paths of such flights. The General Counsel has reviewed the claim and recommends rejection.

Fiscal Impact:

Not applicable.

Subject:

Reject the Claim of Juliann Cervino

Recommendation:

Adopt Resolution No. 2018-0122, rejecting the claim of Juliann Cervino.

Background/Justification:

On October 2, 2018, Juliann Cervino filed a claim ("Attachment A") with the San Diego County Regional Airport Authority ("Authority") alleging she slipped on a puddle of water in Terminal One at San Diego International Airport. Cervino claims damages in the amount of \$9,800 to cover physical and emotional pain, physical, financial and lifestyle setbacks and the potential of future medical expenses and loss of income.

On September 5, 2018, Cervino claims she was exiting Terminal One when she slipped on a puddle of water and fell. She says other passengers helped her up as she sat in the puddle of water. She claims she hit the floor with the left side of her body, injuring her knee and hip. She states her knees, hips, back and neck are affected and in constant pain and discomfort, limiting her daily activities and putting her career on hold.

Cervino's claim should be denied. An investigation into the alleged incident revealed no notice of a dangerous condition. A police report taken at the time of the incident revealed the claimant wished only to document the incident as she was free of pain. Accordingly she declined to be treated by responding paramedics. Harbor Police inspected the area and could not locate water or liquids on the floor. The General Counsel has reviewed the claim and recommends rejection.

STAFF REPORT

Meeting Date: **NOVEMBER 1, 2018**

Subject:

Approve and Authorize the President/CEO to Execute On-Call Concrete, Earthwork and Paving Service Agreements with ABC Construction Co., Hazard Construction Co., and RP General Construction, Inc.

Recommendation:

Adopt Resolution No. 2018-0124, approving and authorizing the President/CEO to execute on-call concrete, earthwork and paving service agreements with ABC Construction Co., Hazard Construction Co., and RP General Construction, Inc. – each agreement, for a term of three years, with the option for two one-year extensions to be exercised at the discretion of the President/CEO for an aggregate total not-to-exceed amount of \$3,000,000.

Background/Justification:

On August 1, 2018, the San Diego County Regional Airport Authority (“Authority”) published a Request for Qualifications (“RFQ”) for on-call concrete, earthwork and paving services to support San Diego International Airport’s (“SDIA’s”) major maintenance and Capital Improvement Program. The RFQ included the selection of up to three firms to perform services which include, but are not limited to: mixes, fabricates and places concrete and asphalt paving material; performs various earthwork such as excavation, backfill, and grading.

On August 31, 2018, the Authority’s Procurement Department received responses to the RFQ from the following five entities: ABC Construction Co., Hazard Construction Co., Nielsen Construction Co., and RP General Construction, Inc., and PAL Engineering. The submission from PAL Engineering was deemed non-responsive due to incomplete documents.

On September 20, 2018, the Authority’s Selection Panel (“Panel”), which was comprised of representatives from Facilities Management, Airport Design and Construction, and Planning and Environmental Affairs interviewed the four respondents. During the interviews each respondent provided a presentation of its qualifications and responded to prepared questions.

After the interview, the Panel evaluated respondents using weighed criteria of four factors: organization’s overall experience, equipment inventory, and workers compensation modification rate; skill and experience of personnel who would interact with Authority staff in the performance of services; the firm’s sustainable practices; and, eligibility for small business participation under Authority Policy 5.12, Preference to Small Business.

Page 2 of 4

The final combined scoring matrix from the Panel are as follows:

Firms	Panelist 1	Panelist 2	Panelist 3	Panelist 4	Total	Final Rank
ABC Construction Co.	3	3	3	3	12	3
Hazard Construction Co.	1	1	1	1	4	1
Nielsen Construction Co.	4	4	4	4	16	4
RP General Construction, Inc.	2	1	1	1	5	2

The Panel ranked ABC Construction Co., Hazard Construction Co., and RP General Construction, Inc. as the best qualified respondents to provide services based on the evaluation criteria and interview.

A brief background of the top ranked firms is provided:

ABC Construction Co.

- Has over 60 years of experience in performing public works, private development and San Diego regional airport projects.
- Specializes in grading, concrete and asphalt type projects.
- Experience in installing base and asphalt per FAA specifications throughout the Southern California region.

Hazard Construction Co.

- Has over 92 years of experience in performing public works, private development and San Diego regional airport projects.
- Has been SDIA's on-call airport pavement repair service contractor for over 10 years.
- Specializes in grading, concrete and asphalt type projects.
- Experience in installing base and asphalt per FAA specifications throughout the Southern California region.

RP General Construction, Inc.

- Over 25 years of experience in the field of residential and commercial general construction, including projects for SDIA.
- Specializes in soil grading and asphalt paving.
- Experience in sealcoat and striping, stamped and regular concrete footings, and masonry.

Staff recommends awarding the on-call concrete, earthwork and paving service agreements to the top three ranked firms: ABC Construction Co., Hazard Construction Co., and RP General Construction, Inc., each agreement for a term of three years, with the option for two one-year extensions exercisable at the discretion of the President/CEO, for an aggregate total not-to-exceed amount of \$3,000,000 for five years.

Fiscal Impact:

Total expenditures under the three on-call concrete, earthwork, and paving service agreements may not exceed an aggregate limit of \$3,000,000 over the three year term with the option of two one-year extensions. Funding is available within the Facilities Management FY 2019 adopted and FY 2020 conceptually approved Operating Budgets for Major Maintenance and the Authority's FY 2019 – FY 2023 Capital Improvement Budget for capitalized maintenance projects. The expense for this contract that will impact budget years not yet adopted or approved by the Board will be included in future year budget requests.

Authority Strategies:

This item supports one or more of the Authority Strategies, as follows:

- Community Strategy Customer Strategy Employee Strategy Financial Strategy Operations Strategy

Environmental Review:

- A. CEQA: This Board action is consistent with a Categorical Exemption under CEQA Section 15301 – Existing Facilities – Class 1, which consists of the operation, repair, maintenance, permitting, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond the existing use.
- B. California Coastal Act Review: This Board action is not a "development" as defined by the California Coastal Act, Cal. Pub. Res. Code §30106.

Application of Inclusionary Policies:

The Authority has the following inclusionary programs/policies: a Disadvantaged Business Enterprise (DBE) Program, an Airport Concession Disadvantaged Business Enterprise (ACDBE) Program, Policy 5.12 and Policy 5.14. These programs/policies are intended to promote the inclusion of small, local, service disabled veteran owned, historically underrepresented businesses and other business enterprises, on all contracts. Only one of the programs/policies named above can be used in any single contracting opportunity.

This contract does not utilize federal funds and provides limited opportunities for sub-contractor participation; therefore; at the option of the Authority, Policy 5.12 was applied to promote the participation of qualified small businesses. Policy 5.12 provides a preference of up to five percent (5%) to small businesses in the award of selected Authority contracts. When bid price is the primary selection criteria, the maximum amount of the preference cannot exceed \$200,000. The preference is only applied in measuring the bid. The final contract award is based on the amount of the original bid.

In accordance to Policy 5.12, the recommended firms did not receive 5% small business preference.

Meeting Date: **NOVEMBER 1, 2018**

Subject:

Approve and Authorize the President/CEO to Negotiate and Execute a Service and Consulting Agreement with Allied Waste Systems, Inc. dba Republic Services of San Diego for Solid Municipal Waste, Recyclable Waste Collection and Removal

Recommendation:

Adopt Resolution No. 2018-0125, approving and authorizing the President/CEO to negotiate and execute a service and consulting agreement with Allied Waste Systems, Inc. dba Republic Services of San Diego for solid municipal waste, recyclable waste collection and removal, for a term of three years, with the option for two one-year extensions exercisable at the sole discretion of the President/CEO, for an amount not-to-exceed \$3,250,000.

Background/Justification:

On August 31, 2018, the San Diego County Regional Airport Authority (“Authority”) issued a Request for Proposal (“RFP”) for collection and removal of solid municipal waste and recyclable waste.

On October 2, 2018, the Authority received two responses to the RFP from USA Waste of California dba Waste Management of San Diego, and Allied Waste Systems, Inc. dba Republic Services of San Diego.

On October 15, 2018, the Authority’s Evaluation Panel (“Panel”), which was comprised of representatives from Environmental Affairs and Airside and Terminal Operations interviewed the two repondents. The scoring criteria used to evaluate the firms was a weighted criteria of six factors: proposed fees; organizational structure, prior experience and sustainability; key personnel, team capabilities, and subcontractors; work plan; containers, vehicles and equipment; and small business preference under Authority Policy 5.12.

The final ranking matrix from the Panel is as follows:

Firms	Panelist 1	Panelist 2	Panelist 3	Panelist 4	Total	Rank
Allied Waste Systems, Inc. dba Republic Services of San Diego	1	1	1	1	4	1
USA Waste of California dba as Waste Management of San Diego	2	2	2	2	8	2

Combined Scores	SB Preference	Cost / Fees	Organizational Structure, Prior Experience and Sustainability	Key Personnel, Team Capabilities and Subcontractors	Work Plan	Containers, Vehicles and Equipment	Total
Allied Waste Systems, Inc. dba Republic Services of San Diego	0	1000	850	350	750	525	3475
USA Waste of California dba Waste Management of San Diego	0	800	650	270	550	495	2765

The top firm selected by the Panel is Allied Waste Systems, Inc. dba Republic Services of San Diego. A brief background of the selected service provider is provided below:

- San Diego International Airport’s waste and recycling service provider for the last five years.
- Serves over 12,000 commercial and industrial customers in San Diego.
- Owns two of the three landfills in San Diego: Sycamore Landfill in Santee and Otay Landfill in Otay Mesa.
- Globally recognized as a leader in sustainability. Environmentally responsible with over 2,400 CNG trucks nationwide. Infrastructure and systems in place at owned landfills to convert landfill gas to energy.
- Clients include University of California at San Diego, City of Chula Vista, Sempra Energy (SDG&E), Petco Park

Staff recommends the award of a Service and Consulting Agreement with Allied Waste Systems, Inc. dba Republic Services of San Diego, for collection and removal of solid municipal waste and recyclable waste collection for a term of three years, with the option for two one-year extensions exercisable at the sole discretion of the President/CEO, for an amount not-to-exceed \$3,250,000.

Fiscal Impact:

Adequate funding for the service and consulting agreement for solid municipal waste, recyclable waste collection and removal is included in the adopted FY 2019 and conceptually approved FY 2020 Operating Expenses Budgets with the Airside and Terminal Operations Contractual Services line item. The expense for this contract that will impact budget years not yet adopted or approved by the Board will be included in future year budget requests.

Authority Strategies:

This item supports one or more of the Authority Strategies, as follows:

 Operations Strategy

Environmental Review:

- A. CEQA: This Board action is not a project that would have a significant effect on the environment as defined by the California Environmental Quality Act ("CEQA"), as amended. 14 Cal. Code Regs. §15378. This Board action is not a "project" subject to CEQA. Cal. Pub. Res. Code §21065.
- B. California Coastal Act Review: This Board action is not a "development" as defined by the California Coastal Act. Cal. Pub. Res. Code §30106.

Application of Inclusionary Policies:

The Authority has the following inclusionary programs/policies: a Disadvantaged Business Enterprise (DBE) Program, an Airport Concession Disadvantaged Business Enterprise (ACDBE) Program, Policy 5.12 and Policy 5.14. These programs/policies are intended to promote the inclusion of small, local, service disabled veteran owned, historically underrepresented businesses and other business enterprises, on all contracts. Only one of the programs/policies named above can be used in any single contracting opportunity.

This contract does not utilize federal funds and provides limited opportunities for sub-contractor participation; therefore, at the option of the Authority, Policy 5.12 was applied to promote the participation of qualified small businesses. Policy 5.12 provides a preference of up to five percent (5%) to small businesses in the award of selected Authority contracts. When bid price is the primary selection criteria, the maximum amount of the preference cannot exceed \$200,000. The preference is only applied in measuring the bid. The final contract award is based on the amount of the original bid.

In accordance to Policy 5.12, the recommended firm Allied Waste Systems, Inc. dba Republic Services of San Diego did not received 5% small business preference.

WHEREAS, on October 2, 2018, the Authority received two responses to the RFP from Allied Waste Systems, Inc. dba Republic Services of San Diego and USA Waste of California dba Waste Management of San Diego, in response to the RFP; and

WHEREAS, on October 15, 2018, the Authority’s Evaluation Panel (“Panel”), which was comprised of representatives from Environmental Affairs and Airside and Terminal Operations interviewed the two respondents; and

WHEREAS, the scoring criteria used to evaluate the firms was weighted criteria of six factors: the firm’s organizational structure, prior experience and sustainability; key personnel, team capabilities, and subcontractors; containers, vehicles and equipment; work plan; proposed fees; and small business preference under Authority Policy 5.12; and

WHEREAS, upon conclusion of the evaluation process, the Panel ranked Allied Waste Systems, Inc. dba Republic Services of San Diego first and USA Waste of California dba Waste Management of San Diego second.

NOW, THEREFORE, BE IT RESOLVED that the Board hereby approves and authorizes the President/CEO to negotiate and execute a service and consulting agreement with Allied Waste Systems Inc. dba Republic Services of San Diego for solid municipal waste, recyclable waste collection and removal, for a term of three years, with the option for two one-year extensions exercisable at the sole discretion of the President/CEO, in an amount not-to-exceed \$3,250,000; and

BE IT FURTHER RESOLVED that the Authority and its officers, employees, and agents hereby are authorized to do and perform all such acts as may be necessary or appropriate in order to effectuate fully the foregoing resolution; and

BE IT FURTHER RESOLVED that the Board finds that this action is not a "project" as defined by the California Environmental Quality Act ("CEQA") (California Public Resources Code §21065); and is not a "development" as defined by the California Coastal Act (California Public Resources Code §30106).

STAFF REPORT

Meeting Date: **NOVEMBER 1, 2018**

Subject:

Approve and Authorize the President/CEO to Negotiate and Execute the Validation Amendment to the Sundt Construction Inc. Contract for the First of Two Packages of the Airport Support Facilities, and to Negotiate and Execute Future Work Authorizations and a Future Guaranteed Maximum Price Amendment

Recommendation:

Adopt Resolution No. 2018-0126, approving and authorizing the President/CEO to negotiate and execute: (1) the Validation Amendment to the Contract with Sundt Construction, Inc., establishing a Maximum Contract Price of \$107.2 million and a Master Project Schedule for the design and construction of Package 1 of the Airport Support Facilities; and (2) Work Authorizations and a Guaranteed Maximum Price Amendment within the Package 1 Maximum Contract Price after the issuance of the Validation Amendment.

Background/Justification:

On May 3, 2018, the San Diego County Regional Airport Authority (“Authority”) Board (“Board”) adopted Resolution 2018-0047, authorizing the President/CEO to (1) execute a Progressive Design-Build Agreement (“Contract”) with Sundt Construction, Inc. (“Sundt”), and (2) negotiate and execute Work Authorizations for Validation Phase services, initial design work, procurement of long lead items, and early construction work with Sundt, in an amount not-to-exceed \$9,000,000 for the Airport Support Facilities (“ASF”) project.

The ASF project has six work elements, which will be implemented in two packages and are described below:

1. Facilities Management Department (“FMD”) campus, including administrative spaces, mechanic and maintenance shops, fleet parking, and storage. This facility will also provide a new warehouse for the Authority’s Procurement Department (Package 1).
2. Airline Fueling Operator facility, including administrative spaces, maintenance bays and apron areas for storing aircraft fueling trucks (Package 1).
3. Rental Car Center (“RCC”) bus parking modifications to increase the capacity of the parking lot to enable parking of additional RCC buses in the future and the relocation of Airport Operations Area gate P-18 (Package 1).
4. North Side utility infrastructure improvements to add main utility connections and access roads that will support the FMD facilities and other North Side projects (Package 1).

5. Storm water capture and reuse system, including a large underground storage tank adjacent to the FMD facilities and infiltration beds south of the runway and adjacent to the Airline Support Building (Package 1).
6. Airline Support Building (“ASB”) that will serve the airlines, and support ground service equipment maintenance, belly cargo services, and storage areas for aircraft provisioning items (Package 2).

Project Implementation Process

The Contract describes a delivery process organized in three distinct phases during which the project’s detailed scope, cost and schedule are developed progressively, beginning with the Validation Phase, followed by the Guaranteed Maximum Price (“GMP”) Development Phase and then the GMP Phase.

Validation Phase

During the Validation Phase, the Design-Build team reviews, validates and takes ownership of the Authority’s project requirements as outlined in the Project Definition Documents (“PDD”); conducts site investigations; develops concept designs, and prepares a number of other deliverables that establish the means and methods by which the project will be implemented. At the end of the Validation Phase the Design-Builder proposes a Maximum Contract Price (“MCP”) and a Master Project Schedule (“MPS”) based on the Validation Phase work effort.

The MCP serves as an early guarantee of the maximum price that the Authority will pay for the project scope, as defined in the validated PDD and other validation deliverables, and shifts the risk for cost overruns due to ongoing design evolution and construction to the Design-Builder. It includes the estimated costs for design and construction of the project, the Design-Builder’s management staff and field offices, and budgets for anticipated but unquantified work at this stage of design. It also includes Authority controlled allowances for work items that will be fully defined and quantified based on design decisions by the Authority that will be made in the future. Sundt’s home office overhead, profit and bond costs are calculated using percentages established competitively as part of the procurement process. The contract stipulates a 3% contractor controlled contingency for unanticipated costs. All allowance and contingency usages must be substantiated by the Design-Builder and are subject to Authority validation and approval prior to payment.

The MPS identifies how the Design-Builder proposes to schedule the sequence of the design and construction of the project to meet the MCP and key milestone completion dates established for the project.

Prior to the Authority’s acceptance of the MCP and the MPS, both proposals are subjected to extensive review by, and reconciliation with, independent third-party cost estimators and schedulers, respectively. The final accepted MCP and MPS are the product of that review and reconciliation process.

Page 3 of 6

Upon execution of a Validation Amendment, the Design-Builder assumes and accepts, by contract, "all risks, costs, and responsibilities associated with any changes in scope arising from or relating to the Contract Documents or site conditions that could have been reasonably identified or anticipated based on the information reviewed and the site investigations performed during this period."

Performance Based Incentive Program

The Contract allows the Authority to introduce incentive provisions as part of the Validation Amendment or as part of the GMP Amendment (Contract §§ SC 11.2.3.7, 11.2.4.7). Performance Based Incentive Programs ("PBIP") have been used successfully in the past for the Parking Plaza and the Green Build. The purpose of the PBIP is to incentivize the Contractor to commit to cost savings early so that they can be used for the benefit of the Project. The secondary purpose is to facilitate team alignment by incentivizing performance that reflects and supports the Airport's values and expectations. The PBIP for the Parking Plaza included the sharing of cost savings if: (1) the Contractor proposed a GMP that was at least \$2 million less than the MCP and (2) the total amount of shared savings paid to the contractor was limited. Staff recommends that the Board authorize the President/CEO to negotiate a PBIP that is in the best interest of the Authority to accomplish the stated goals.

GMP Development Phase

The Validation Amendment triggers the commencement of the GMP Development Phase during which Sundt will proceed with design, begin subcontractor procurement, negotiate with the Authority to finalize pricing for agreed-upon self-performed work, and proceed with construction on portions of the work. The Authority will authorize work during this phase through the use of incremental Work Authorizations for specific portions of the contract work.

When the Authority is satisfied that design development, design documents, and the decisions that inform the design are sufficiently complete and reliable, it will request a GMP proposal from Sundt. Authority staff anticipates requesting Sundt's GMP proposal when the design has reached a 60% level of completion. The GMP proposal is expected to be lower than the MCP since much of the estimated cost in the MCP will have been replaced with competitive bid results and validated costs based on detailed design documents. The contract stipulates that the GMP shall not exceed the MCP and that Sundt will be responsible for all costs to complete the project in excess of the GMP. The Authority will review Sundt's GMP proposal and negotiate and execute a GMP Amendment.

GMP Phase

The GMP Amendment triggers the GMP Phase and will authorize Sundt to fully implement Package 1 of the ASF project.

Current Status

In June 2018, the Sundt design-build team began their Validation Phase services including preparing an MCP and MPS. During the Validation Phase, the Authority decided to split the implementation of the ASF project work into two packages, with Package 1 comprised of work elements 1-5 above and Package 2 comprised of work element 6. The costs for work element 6, the ASB, will be recovered through lease agreements with the airlines. Discussions with the airlines on the conceptual design and final costs for the building are still in progress and will be finalized independent of Package 1.

In order to allow the remainder of the project to continue while negotiations on the ASB proceed, the Authority requested that Sundt divide their proposed MCP and MPS into two packages while continuing to proceed with Validation Phase work related to the ASB. In September 2018, Sundt provided their Validation Phase deliverables, including a Package 1 MCP and MPS.

The Authority, assisted by independent cost estimators, reviewed Sundt's proposed Package 1 MCP and negotiated a Package 1 MCP value of \$107.2 million for elements 1-5 of the project and Sundt's Validation Phase costs for Package 2 work.

The Authority, assisted by independent schedulers, reviewed Sundt's proposed Package 1 MPS. A summary of key Package 1 milestones are presented below:

Anticipated Milestone Event	Planned Date
Start Construction	November 2018
Complete Storm Water Tank Construction	February 2020
Package 1 Construction Substantial Completion	March 2020
Package 1 Facilities Operational	April 2020
Package 1 Contract Final Acceptance and Completion	August 2020

Once the Authority and the airlines have agreed to lease terms for the ASB, the Authority will request that Sundt submit their final Package 2 MCP and MPS. After review and validation of the Package 2 MCP and MPS, Authority staff will return to the Board to request approval of an amendment to the Package 1 MCP and MPS.

ASF Package 1 Budget

The total budget for the Package 1 work elements, including Package 2 Validation Phase cost, is listed below:

Description	Amount
Design Build Contractor's	
- Design & Construction Budget	\$ 101,500,000
- Validation Phase Cost	\$ 5,700,000
DB's Maximum Contract Price (MCP)	\$ 107,200,000
Authority Budget	
- PM/CM, Insurance & Permit Fees	\$ 8,600,000
- Authority Contingency	\$ 5,300,000
ASF Package -1 Total Budget	\$ 121,100,000

Requested Authorizations

Staff requests that the Board approve and authorize the President/CEO to negotiate and execute a Validation Amendment to the Contract with Sundt, establishing a Package 1 MCP of \$107.2 million and a Package 1 Final Acceptance and Completion in August, 2020, and authorize the President/CEO to include a Performance Based Incentive Program in the Validation Amendment.

Staff further requests that the Board approve and authorize the President/CEO to negotiate and execute Work Authorizations and a future GMP Amendment with Sundt after the issuance of the Validation Amendment in order to allow Sundt to proceed with the completion of 100% design and construction of Package 1 of the ASF project.

Fiscal Impact:

Adequate funds for the Sundt contract to construct Package 1 of the Airport Support Facilities Projects are included within the Board approved FY2019-FY2023 Capital Program Budget. Sources of funding for this project include Airport Revenue Bonds, Airport Revolving Lines of Credit and Airport Cash.

Authority Strategies:

This item supports one or more of the Authority Strategies, as follows:

Community Strategy Customer Strategy Employee Strategy Financial Strategy Operations Strategy

Environmental Review:

- A. CEQA: Based upon an Initial Study prepared in January 2018 evaluating the potential environmental impacts of the proposed project, a Notice of Exemption was prepared that determined the project is a categorical exemption under CEQA Sections 15301 – Existing Facilities – Class 1; 15302 – Replacement or Reconstruction – Class 2 and 15304 Minor Alternations to Land – Class 4. The Notice of Exemption was filed with the County of San Diego Clerk on January 22, 2018.
- B. California Coastal Act Review: The proposed project was included and evaluated as part of the San Diego International Airport Master Plan adopted May 1, 2008 and Coastal Development Permit 6-09-015 by the California Coastal Commission dated September 1, 2009.

Application of Inclusionary Policies:

The Authority has the following inclusionary programs/policies: a Disadvantaged Business Enterprise (DBE) Program, an Airport Concession Disadvantaged Business Enterprise (ACDBE) Program, Policy 5.12 and Policy 5.14. These programs/policies are intended to promote the inclusion of small, local, service disabled veteran owned, historically underrepresented businesses and other business enterprises, on all contracts. Only one of the programs/policies named above can be used in any single contracting opportunity.

Page 6 of 6

No preferences were applied to the award of the Contractor Agreement with Sundt; however, Sundt's proposal included commitments for Small Businesses (SB), Local Businesses (LB), and Service Disabled Veteran Owned Small Businesses (SDVOSB) participation, and Sundt is required by the contract to work with the Authority in accordance with their small business plan and outreach plan to maximize participation of small, local, historically underutilized and service disabled veteran owned small businesses.

Second Quarter GDP

Annualized second quarter GDP grew at an annualized pace of 4.2%, according to the third estimate, following growth of 2.2% in the first quarter. Consumer spending and exports were particularly strong in the second quarter. Market participants estimate the economy grew 3.2% in the third quarter. GDP growth is expected to ease back toward the 2.5%-3.0% range in the fourth quarter.

U.S. Gross Domestic Product (QoQ)
Second Quarter 2012 – Second Quarter 2018

Initial Claims For Unemployment

For the week ending October 13, initial jobless claims decreased by 5,000 to 210,000. The 4-week moving average edged up by 2,000 to 211,750. Initial jobless claims reflect strong demand for labor and are consistent with a healthy labor market.

Initial Jobless Claims and 4-Week Moving Average

October 11, 2013 – October 12, 2018

Consumer Price Index

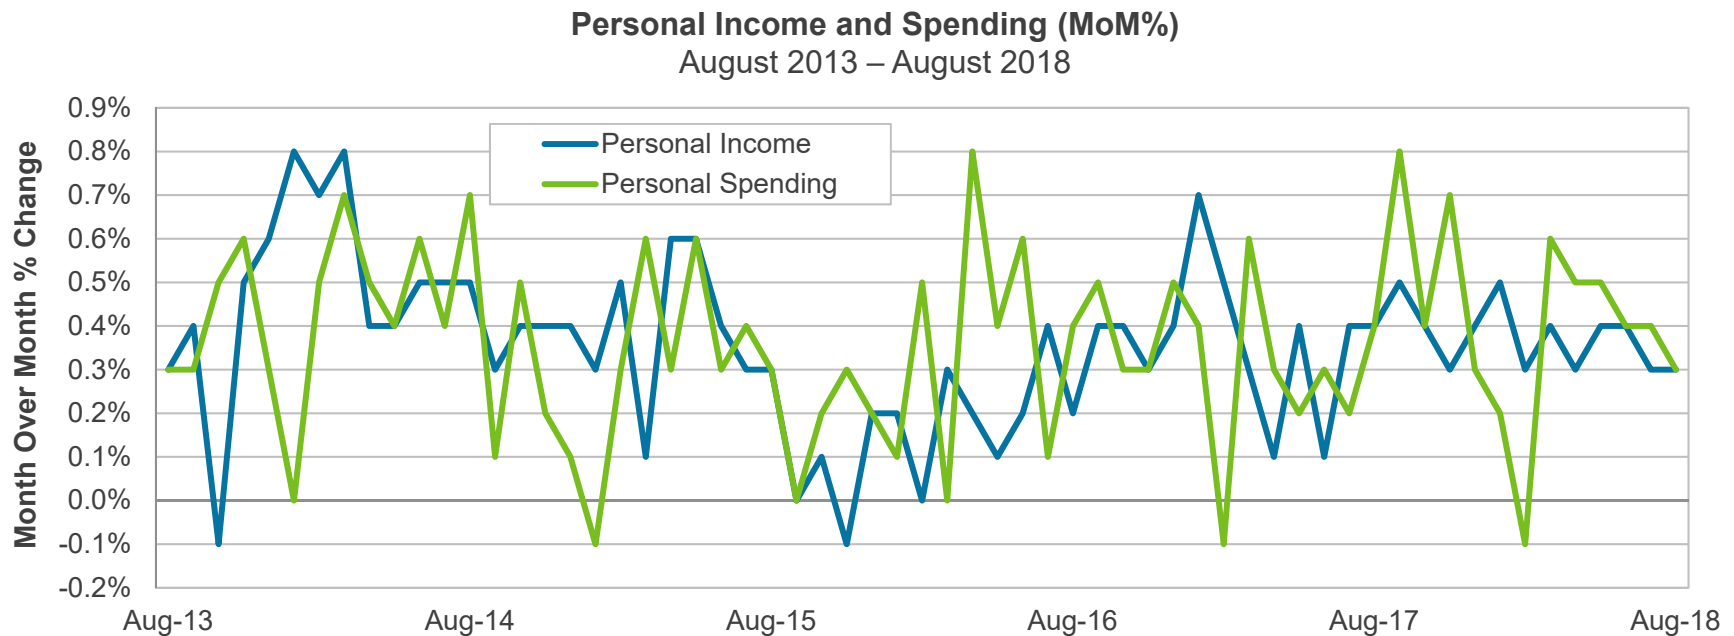

The Consumer Price Index (CPI) was up 2.3% year-over-year in September, versus up 2.7% year-over-year in August. Core CPI (CPI less food and energy) was up 2.2% year-over-year in September, unchanged from 2.2% year-over-year in August.

Consumer Price Index (YoY%)
September 2013 – September 2018

Personal Income and Spending

Personal income rose by 0.3% in August, slightly below expectations. Consumer spending also increased by 0.3% in the month, in line with expectations. Growth in personal income and spending appears modest.

Consumer Confidence Index

The Consumer Confidence Index remains very strong at 138.4 in September, up from 134.7 in August. Ongoing strength in the labor market continues to support consumer confidence and spending trends.

Existing Home Sales

Existing home sales were flat in August at a seasonally adjusted rate of 5.340 million units, following a 0.7% decline in July. On a year-over-year basis, sales of existing homes were down 1.5% in August. We believe higher interest rates, following a long period of home price appreciation, is pressuring the housing market and overall affordability.

U.S. Existing Home Sales (MoM)
August 2008 – August 2018

New Home Sales

New home sales rose 3.5% in August (following two months of declines) to an annualized rate of 629,000 units. Sales volume was boosted by discounted prices, with the median price down 2.4%. Year-over-year, the median price was up 1.9% in August.

U.S. New Home Sales
August 2008 – August 2018

Crude Oil Prices

U.S. West Texas Intermediate (WTI) crude settled at \$68.65 per barrel on October 18, below its one month average of \$72.96 but above its one year average of \$65.09. Oil prices have pulled back recently on concerns about slower-than-expected global demand growth.

U.S. Equity Markets

Year-to-date, the DJIA is up about 2.7% and the S&P 500 index is up about 3.6%. The US equity markets have come under pressure in October, reversing some of the year-to-date gains. Investors are anticipating less accommodative monetary policies by the Fed and other global central banks. Meanwhile, concerns about corporate earnings, tariffs, the upcoming midterm elections, and ongoing turmoil in emerging markets have also contributed to the recent increase in financial market volatility and repricing of risk assets.

Treasury Yield History

On a year-over-year basis, Treasury yields have increased and the Treasury yield curve has flattened. Year-over-year, the spread between 2-Year and 5-year Treasury yields has narrowed from 43 basis points to 15 basis points. Rate hikes by the Federal Reserve have put upward pressure on rates, while supply and demand imbalances, technical factors, and subdued inflation expectations have contributed to the curve flattening.

U.S. Treasury Yield Curve

Year-over-year, shorter-term Treasury yields have increased more than longer-term Treasury yields, leading to a flatter Treasury yield curve. The spread between 2-year and 10-year Treasuries is currently about 31 basis points, compared to a spread of about 78 basis points at this time last year. The Fed has raised the fed funds target rate by 150 basis points since March 15, 2017 (most recently on September 26, 2018), which has fueled the increase in rates. We continue to foresee a modest upward bias to rates across the Treasury yield curve but anticipate that the yield curve will remain relatively flat.

Account Profile

Certification Page

This report is prepared for the San Diego County Regional Airport Authority (the “Authority”) in accordance with California Government Code Section 53646, which states that “the treasurer or chief fiscal officer may render a quarterly report to the chief executive officer, the internal auditor, and the legislative body of the local agency within 30 days following the end of the quarter covered by the report.”

The investment report was compiled in compliance with California Government Code 53646 and the Authority’s approved Investment Policy. All investment transactions made in the Authority’s portfolio during this period were made on behalf of the Authority. Sufficient liquidity and anticipated revenue are available to meet expenditure requirements for the next six months.

Performance results are presented gross-of-fees and represent the client's Total Return. These results include the reinvestment of dividends and other earnings. Past performance may not be indicative of future results. Therefore, no current or prospective client should assume that future performance of any specific investment or investment strategy will be profitable or equal to past performance levels. All investment strategies have the potential for profit or loss. Economic factors, market conditions or changes in investment strategies, contributions or withdrawals may materially alter the performance and results of your portfolio.

Index returns assume reinvestment of all distributions. Historical performance results for investment indexes generally do not reflect the deduction of transaction and/or custodial charges or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing historical performance results. It is not possible to invest directly in an index.

Fixed income investments are subject to interest, credit and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

STAFF REPORT

Meeting Date: **NOVEMBER 1, 2018**

Subject:

Approve and Authorize the President and CEO to Finalize the Negotiations for and Execute the Airline Operating and Lease Agreement

Recommendation:

Adopt Resolution No. 2018- 0127, approving and authorizing the President/CEO to finalize the negotiations for and execute the Airline Operating and Lease Agreement for a ten-year term commencing July 1, 2019.

Background/Justification:

Effective July 1, 2013, the San Diego County Airport Authority (“Authority”) and the airlines operating at San Diego International Airport (“Airport”) who are engaged in the air transportation business as federally certificated commercial air carrier (“Airlines”) entered into the Airline Operating and Lease Agreement (“2013 AOLA”). Pursuant to the 2013 AOLA, Authority (a) leased certain designated Airport Terminal premises to Airlines, and (b) granted Airlines certain rights and privileges to operate at and use Airport for the use of its aircraft and other related activities.

The 2013 AOLA had a five-year term ending June 30, 2018 and went into holdover status as of July 1, 2018.

A new Operating and Lease Agreement with the Airlines (the “AOLA”) will support the Authority’s ability to secure financing in the bond market. The financial terms of the AOLA are being negotiated to include support of the Authority’s capital program, including the Airport Development Plan (“ADP”). The proposed AOLA will have a term of ten years, beginning July 1, 2019. Negotiations on the new agreement have been ongoing, with spring of 2019 as the targeted date to have the AOLA signed by the Airlines.

The staff therefore recommends that the Board authorize the President and CEO to finalize the negotiations and execute the AOLA.

Fiscal Impact:

The AOLA will support future projects (including ADP) and operational requirements for the Authority.

Authority Strategies:

This item supports one or more of the Authority Strategies, as follows:

- Community Strategy Customer Strategy Employee Strategy Financial Strategy Operations Strategy

Environmental Review:

- A. CEQA: This Board action is not a project that would have a significant effect on the environment as defined by the California Environmental Quality Act ("CEQA"), as amended. 14 Cal. Code Regs. §15378. This Board action is not a "project" subject to CEQA. Cal. Pub. Res. Code §21065.

Recurrence: (none)
Meeting Status: Accepted
Organizer: Clark.Desing@faa.gov
Categories: Out of Office, Offsite Meetings

Greetings Noise Forum Attendees,

Our next meeting will take place at McCarran International Airport in their Commissioner's Meeting Room in Terminal 1. Directions to that location are outlined below. Please plan on meeting from 8AM – 5PM, with lunch provided by McCarran. We are creating the agenda now, if there is a particular topic you would discussed, send that to Shannon Rock or Kendra Harrigan (emails below).

Directions:

Follow the airport roadway signs to McCarran International Airport Terminal 1, park in the public parking garage, long term or short term parking. Take the elevator to Level 2. Take the moving walkway into Terminal 1. Follow the signs to the A/B Security Checkpoint. There are a set of elevators by the Information Booth (Starbucks is nearby). Take that elevator up to Level 5. When you get off the elevator, turn to your right and there will be a blue sign that reads Department of Aviation, Commissioners Meeting Room.

Forum points of contact: Kendra Harrigan (Kendra.harrigan@faa.gov) and Shannon Rock (Shannon.ctr.rock@faa.gov).

Regards,

Shannon

Message

Thank you for booking an experience at Escapology San Diego! We are excited about your visit with us.

We recommend that you arrive 45 minutes before your booking time due to parking and the distance between the venue and the public bathrooms. There are no available restrooms in the venue. You will need to arrive earlier on weekends. If you are late and we are busy, we will have to reduce your game time, however after 15 minutes the booking will be canceled. All sales are final, there are no refunds for late or canceled bookings. We may offer credits that can be applied to another game for a different time or day.

We are located at 3116 Mission Blvd., San Diego, CA 92109, 1 mile west of SeaWorld. Escapology is located at Belmont Park on the east side. **We recommend using Google Maps!**

- 2A. *Balancing Access and Operational Concerns In Accommodating Passengers With Disabilities***
- Airports and airlines work to maintain operational efficiency and provide a pleasant travel experience while complying with their respective legal obligations relating to passengers with disabilities. In the United States airports must comply with the Americans with Disabilities while airlines must adhere to the Air Carrier Access Act. Recent increases in the number and types of emotional service animals in airports and on planes have caused problems, with some passengers falsely claiming their pets are service animals to avoid paying airline fees. In Canada, airports and airlines have largely voluntary measures to assist passengers with disabilities, but the federal government is moving to tighten legislative and regulatory requirements. Join us for a discussion of the challenges facing airports, airlines and an important, growing segment of air travelers.
- Moderator:** Rhonda Hamm-Niebruegge, Director of Airports, St. Louis Airport Authority
- Speakers:** David N. Edwards, Jr., President/CEO, Greenville-Spartanburg Airport District
Doug Mullen, Associate General Counsel, Airlines for America
Robert Sartor, President & CEO, YYC Calgary International Airport

Protecting Critical Infrastructure against Cyberwar

Airports have enhanced their physical security to deter and prevent terrorist attacks. Airports have also strengthened their information technology systems to fend off growing cyberattacks. As airport technology becomes increasingly interconnected with passengers, airlines and concessions to improve the travel experience, there is increased vulnerability that a cyber espionage attack could damage critical systems used to support infrastructure and physical security. Join us for a discussion on recognizing potential threats and better integrating physical and cyber security.

Moderator: RJ Steenstra, President & CEO, Fort McMurray Airport Authority

Speakers: Terrance Kirk, Director of Global Operations, Services and Business Development, Aviation Information Sharing and Analysis Center (A-ISAC)

- 4A. ***The Long and Winding Last Mile: Improving Airport Ground Access*** Room: 207
Even small airports can generate millions of vehicle trips per year. Private vehicles that drop-off and pick-up passengers, public transportation vehicles, for hire vehicles, delivery & services vehicles, employees, large trucks serving cargo facilities & integrators...the list goes on. These trips impact roads and transit systems between homes, offices, hotels and other originating or destination points in the airport catchment area. The closer to the airport, the higher the concentration of airport-related vehicles on the surface transportation system. More and more often the volume of traffic on roadways serving the airport is becoming greater than the capacity of the system. Come hear how three airports are working to unwind the last mile/kilometer by improving access and reducing the stress of getting to the plane on time.

Moderator: James T. Jarvis, Senior Vice President, Ricondo

Speakers: Mark Duebner, Director of Aviation, City of Dallas Department of Aviation
Howard Eng, President & CEO, Greater Toronto Airports Authority
Margaret McKeough, Executive Vice President & COO, Metropolitan Washington Airports Authority

- 4B. ***Rethinking the Customer Experience*** Room: Ballroom A (Level 4)
From multi-million dollar capital improvement programs to implementing the latest in technology to revamped training programs to partnerships with airlines and federal agencies, North American airports have recognized that providing a high-quality customer experience is a business imperative. Some use public-private partnerships to renovate facilities or implement innovative initiatives to improve the travel experience. But how do you decide what enhancements to make over the short and long term to translate passenger happiness into an improved bottom line?

Moderator: Philippe Rainville, President & CEO, Aéroports de Montréal

Speakers: Huntley Lawrence, Director of Aviation, Port Authority of New York and New Jersey
Craig Richmond, President & CEO, Vancouver Airport Authority
Parm Sidhu, Airport General Manager, City of Abbotsford
Monica Lombraña, Managing Director of Aviation and International Bridges, City of El Paso

4:30 pm – 5:30 pm **Concurrent Education Sessions:**

- 5A. ***Incorporating A Culture of Innovation*** Room: Ballroom A (Level 4)
Adjusting to and planning for the ever-changing airport environment is increasingly difficult. To move beyond innovation as a mere buzzword to tap its transformative potential, organizations need to understand that it's more than just technology; it's a process centered on people that requires a culture shift and executive level commitment. How can we foster the involvement of leaders, employees, and the local community to spur innovation? Don't miss this important discussion about how airports, airlines and concessionaires are incorporating innovation to effectively respond to trends affecting operations and revenues.

Moderator: Michael J. Landguth, President & CEO, Raleigh-Durham Airport Authority

Speakers: Christina Cassotis, CEO, Allegheny County Airport Authority
Steve Hankinson, Vice President, Planning & Innovation, Vancouver Airport Authority
Christina Heggie, Investment Principal, JetBlue Technology Ventures
Sarah Naqvi, Executive Vice President and Chief Information Officer, HMSHost Corporation

Commercial Space – The Next Frontier for Airports Room: 207

Commercial space operations are a critical priority for the Trump Administration, the U.S. Department of Transportation, and bipartisan supporters in Congress. In 2017, a record 23 launches were licensed by FAA, but in just a few years this is forecast to more than double. Many of these new generation spacecraft are reusable, increasing demand even more than the forecasts suggest. Already, several U.S. airports have had to address potential conflicts between traditional aircraft operations and “space launches”, whether by vertically launched rockets, horizontally-launched rocket planes, or suborbital balloons. In this rapidly evolving “space”, how will airports, space operators, and the FAA effectively balance the interests of commercial aviation and commercial space in the National Airspace System?

Moderator: Rick Tucker, Executive Director, Huntsville International Airport

Speakers: Steve Grossman, Chief Executive Officer, Jacksonville Aviation Authority

Sharon Pinkerton, Senior Vice President, Legislative and Regulatory Policy, Airlines for America

Di Reimold, Acting Deputy Associate Administrator for Commercial Space, FAA

6A. *Delivering Today: E-Commerce and Airports*
Industry experts expect retail e-commerce to more than double over the next three to four years. This growth is expected to continue driving air cargo demand, despite rising trade tensions and increasing fuel costs. Airports need to be more involved with e-commerce development because the increasing variety of products transported often means new and different requirements for cargo and modal transportation facilities. Learn from the experts about how you can be more successful in this important and growing industry sector.
- Moderator:** Candace S. McGraw, CEO, Cincinnati/Northern Kentucky International Airport

2A. *Balancing Access and Operational Concerns In Accommodating Passengers With Disabilities*

Airports and airlines work to maintain operational efficiency and provide a pleasant travel experience while complying with their respective legal obligations relating to passengers with disabilities. In the United States airports must comply with the Americans with Disabilities while airlines must adhere to the Air Carrier Access Act. Recent increases in the number and types of emotional service animals in airports and on planes have caused problems, with some passengers falsely claiming their pets are service animals to avoid paying airline fees. In Canada, airports and airlines have largely voluntary measures to assist passengers with disabilities, but the federal government is moving to tighten legislative and regulatory requirements. Join us for a discussion of the challenges facing airports, airlines and an important, growing segment of air travelers.

- Moderator:** Rhonda Hamm-Niebruegge, Director of Airports, St. Louis Airport Authority
- Speakers:** David N. Edwards, Jr., President/CEO, Greenville-Spartanburg Airport District
 Doug Mullen, Associate General Counsel, Airlines for America

3A. Protecting Critical Infrastructure against Cyberwar

Airports have enhanced their physical security to deter and prevent terrorist attacks. Airports have also strengthened their information technology systems to fend off growing cyberattacks. As airport technology becomes increasingly interconnected with passengers, airlines and concessions to improve the travel experience, there is increased vulnerability that a cyber espionage attack could damage critical systems used to support infrastructure and physical security. Join us for a discussion on recognizing potential threats and better integrating physical and cyber security.

Moderator: RJ Steenstra, President & CEO, Fort McMurray Airport Authority

Speakers: Michael Stephens, General Counsel & Executive Vice President, Information Technology, Tampa International Airport

The Long and Winding Last Mile: Improving Airport Ground Access Room: 207

Even small airports can generate millions of vehicle trips per year. Private vehicles that drop-off and pick-up passengers, public transportation vehicles, for hire vehicles, delivery & services vehicles, employees, large trucks serving cargo facilities & integrators...the list goes on. These trips impact roads and transit systems between homes, offices, hotels and other originating or destination points in the airport catchment area. The closer to the airport, the higher the concentration of airport-related vehicles on the surface transportation system. More and more often the volume of traffic on roadways serving the airport is becoming greater than the capacity of the system. Come hear how three airports are working to unwind the last mile/kilometer by improving access and reducing the stress of getting to the plane on time.

Moderator: James T. Jarvis, Senior Vice President, Ricondo

Speakers: Mark Duebner, Director of Aviation, City of Dallas Department of Aviation
Howard Eng, President & CEO, Greater Toronto Airports Authority
Margaret McKeough, Executive Vice President & COO, Metropolitan Washington Airports Authority

4B.

Rethinking the Customer Experience Room: Ballroom A (Level 4)

From multi-million dollar capital improvement programs to implementing the latest in technology to revamped training programs to partnerships with airlines and federal agencies, North American airports have recognized that providing a high-quality customer experience is a business imperative. Some use public-private partnerships to renovate facilities or implement innovative initiatives to improve the travel experience. But how do you decide what enhancements to make over the short and long term to translate passenger happiness into an improved bottom line?

Moderator: Philippe Rainville, President & CEO, Aéroports de Montréal

Speakers: Huntley Lawrence, Director of Aviation, Port Authority of New York and New Jersey
Craig Richmond, President & CEO, Vancouver Airport Authority
Parm Sidhu, Airport General Manager, City of Abbotsford
Monica Lombraña, Managing Director of Aviation and International Bridges, City of El Paso

Incorporating A Culture of Innovation Room: Ballroom A (Level 4)

Adjusting to and planning for the ever-changing airport environment is increasingly difficult. To move beyond innovation as a mere buzzword to tap its transformative potential, organizations need to understand that it's more than just technology; it's a process centered on people that requires a culture shift and executive level commitment. How can we foster the involvement of leaders, employees, and the local community to spur innovation? Don't miss this important discussion about how airports, airlines and concessionaires are incorporating innovation to effectively respond to trends affecting operations and revenues.

Moderator: Michael J. Landguth, President & CEO, Raleigh-Durham Airport Authority

Speakers: Christina Cassotis, CEO, Allegheny County Airport Authority
Steve Hankinson, Vice President, Planning & Innovation, Vancouver Airport Authority
Christina Heggie, Investment Principal, JetBlue Technology Ventures
Sarah Naqvi, Executive Vice President and Chief Information Officer, HMSHost Corporation

5B.

Commercial Space – The Next Frontier for Airports Room: 207

Commercial space operations are a critical priority for the Trump Administration, the U.S. Department of Transportation, and bipartisan supporters in Congress. In 2017, a record 23 launches were licensed by FAA, but in just a few years this is forecast to more than double. Many of these new generation spacecraft are reusable, increasing demand even more than the forecasts suggest. Already, several U.S. airports have had to address potential conflicts between traditional aircraft operations and “space launches”, whether by vertically launched rockets, horizontally-launched rocket planes, or suborbital balloons. In this rapidly evolving “space”, how will airports, space operators, and the FAA effectively balance the interests of commercial aviation and commercial space in the National Airspace System?

Moderator: Rick Tucker, Executive Director, Huntsville International Airport

Speakers: Steve Grossman, Chief Executive Officer, Jacksonville Aviation Authority

Sharon Pinkerton, Senior Vice President, Legislative and Regulatory Policy, Airlines for America

Di Reimold, Acting Deputy Associate Administrator for Commercial Space, FAA

Caryn Schenewerk, Senior Counsel & Senior Director, Space Flight Policy, SpaceX

6A. *Delivering Today: E-Commerce and Airports*
 Industry experts expect retail e-commerce to more than double over the next three to four years. This growth is expected to continue driving air cargo demand, despite rising trade tensions and increasing fuel costs. Airports need to be more involved with e-commerce development because the increasing variety of products transported often means new and different requirements for cargo and modal transportation facilities. Learn from the experts about how you can be more successful in this important and growing industry sector.
- Moderator:** Candace S. McGraw, CEO, Cincinnati/Northern Kentucky International Airport
- Speakers:** Daniel Muscatello, Managing Director, Landrum & Brown
 Tom Ruth, President & CEO, Edmonton Regional Airports Authority
 Joe Yingst, Gateway Clearance Director, DHL Express

7A. *Rightsizing Airport Infrastructure for Future Success*
 Evolving airline strategies have led to significant changes in passenger traffic for many airports in the United States and Canada, resulting in operational and financial challenges. Learn how airports are successfully responding to the ups and downs of the industry by revising their capital improvement plans, redesigning their facilities and revising their financial plans to serve their passengers and communities today and in the future.
- Moderator:** Chellie Cameron, CEO, Philadelphia International Airport
- Speakers:** Scott Brockman, President & CEO, Memphis-Shelby County Airport Authority

Meals & Incidentals (M&IE) Breakdown

Use this table to find the following information for federal employee travel:

M&IE Total - the full daily amount received for a single calendar day of travel when that day is neither the first nor last day of travel.

Breakfast, lunch, dinner, incidentals - Separate amounts for meals and incidentals. M&IE Total = Breakfast + Lunch + Dinner + Incidentals. Sometimes meal amounts must be deducted from trip voucher. See More Information

First & last day of travel - amount received on the first and last day of travel and equals 75% of total M&IE.

Primary Destination	County	M&IE Total	Continental Breakfast/ Breakfast	Lunch	Dinner	Incidental Expenses	First & Last Day of Travel
Standard Rate	Applies for all locations without specified rates	\$55	\$13	\$14	\$23	\$5	\$41.25
District of Columbia	Washington DC (also the cities of Alexandria, Falls Church and Fairfax, and the counties of Arlington and Fairfax, in Virginia; and the counties of Montgomery and Prince George's in Maryland)	\$76	\$18	\$19	\$34	\$5	\$57.00
