

13.0 MODIFICATIONS TO THE SWMP

This SWMP was updated from the March 2008 version of the SWMP to comply with the new requirements of the Municipal Permit, the Industrial Permit, and to incorporate new developments and BMPs installed during the Green Build North Side Development and other redevelopments at SAN. As part of the iterative process for the WQIP and any required updates to the SWPPP, modifications may continue to be made to this SWMP to reflect programmatic changes and/or strategy improvements as a result of WQIP and NAL assessments required under the respective permits. Proposed changes to the SWMP or applicable program modifications will be included in the Annual Reports for the Municipal Permit and the Industrial Permit.

The organization of this SWMP is based on the Municipal Permit's general structure for JRMP programs. Because the SWMP is also the Authority's SWPPP, requirements for the Industrial Permit were incorporated into the SWMP, including parts of Sections 1.0 and 3.0, Section 7.0, and Appendices A, B, D-1, E, and G. Copies of the permits can be found in Appendices H and I.

Modifications made to the overall structure of the SWMP and incorporated into the SWMP June 2015 Revision to bring this document into conformance with the renewed Municipal Permit and the Industrial Permit include the following:

- Combining previous Sections 3.0 and 9.0 into the new Section 3.0 “Non-Storm Water and Illicit Discharge Detection and Elimination Component.”
- Combining previous Sections 10.0 and 11.0 into the new Section 9.0 “Public Participation and Education Component.”
- Separating sections regarding compliance with the Industrial Permit from the rest of the SWMP. Section 7.0 was modified so that it could be extracted from the remainder of the SWMP for uploading to SMARTS per Industrial Permit requirements. An attachment to Section 7.0 will include material from other sections of the SWMP that are referenced in Section 7.0, and will be uploaded with Section 7.0 into SMARTS. This attachment is for SMARTS upload purposes only, and will not be included in this SWMP.
- Transferring Tables 1 through 9 from the end of the document into their corresponding sections.
- Rearranging Appendices D-1 and D-2 for wet and dry weather monitoring into Appendices D-1 and D-2 for Industrial Permit Monitoring Implementation Plan and Municipal and BMP Effectiveness Monitoring Plan, respectively.
- Updating the JRMP in accordance with the strategies identified in the WQIP.
